Enhancing Thermal Comfort Outdoors

Continuing Living Schoolyard investments to reduce heat island effects at schools including:

- Prescott Elementary (D3)
- Crocker Highlands (D2)
- Hoover Elementary (D3)
- Sequoia Elementary (D4)

Continuing CAL FIRE Partnership

- Continued implementation of CAL FIRE Urban & Community Forestry grant projects
- Expansion of tree canopy to reduce urban heat island impacts

Solar Shade and Carport Structures

- Expands access to shade on playgrounds and campuses
- 6 sites receiving either solar shade or solar carport structures

Expanding gardens/green spaces - Hoover ES

Trees & asphalt removal - Laurel ES

Solar Shade Structure
