August 19, 2026

Dear Trevor Miller,

This letter addresses all of the part-time programs for homeschool students that were submitted by Education ReEnvisioned BOCES. In light of the District 49 vote to dissolve ERBOCES, we understand that ERBOCES will not be operating schools or programs in the 2026-27 school year or beyond. As a result of that vote, we wanted to notify you as soon as possible that **CDE is denying all of the BOCES's applications for part-time programs for homeschool students**.

CDE had already completed a recommendation on some of the program applications. In the interest of transparency, CDE will post these preliminary recommendations. This will allow applicants to see how CDE would have reviewed their program in the absence of the dissolution of ERBOCES.

CDE will not be completing the review on the remaining applications at this point. However, we understand that some programs may seek a new authorizer. If a particular program locates a new authorizer and would like to reapply to CDE, **the department will extend the deadline for current applicants to September 4, 2026**.

We recognize this is a significant undertaking to find a new authorizer. We recommend that program leaders review the published decisions and their rationale to evaluate similarities or differences with their own program application. CDE will also be presenting to the State Board of Education on Thursday, August 20 at 9am. The meeting will be livestreamed here. This presentation will discuss how CDE evaluated these programs and may provide insight on the likelihood of success for a particular program. If the decisions on other programs and the State Board presentation do not provide sufficient clarity, the department is willing to consult with program leaders on whether to invest the resources on locating a new authorizer.

This letter applies to the programs listed below. If CDE had finalized a recommendation prior to the dissolution of ERBOCES, that is noted in the second column. For decisions that had a finalized recommendation, the public folder link will include a decision criteria document, application materials, and any additional materials reviewed in the process. For decisions not yet finalized, the public folder will only include the application materials.
