ROGUE COMMUNITY HEALTH

2024-25 School Health Services

Eagle Point School District 9

ROGUE COMMUNITY HEALTH

Mission Statement

Vibrant health for all, especially the most vulnerable, in partnership with our community.

Vision

Our community embraces healthcare and human services as a right and a privilege.

Values

Respect, Integrity, Compassion, Honesty, Community

Healthy children are the future of our community.

So we bring programs directly to them in their schools.

School-Based Health Centers

Rogue Community Health's School-Based Health Centers (SBHCs) provide primary and preventative healthcare services that are available to all D9 students and their families, regardless of insurance status or ability to pay.

Services Include:

- Well-child exams
- Sports physicals
- Immunizations
- Oral education, assessments, sealants, and fluoride
- Behavioral health (BH) services
- Acute care visits and flu vaccine clinics for all D9 staff
- COVID-19 testing
- Social Determinants of Health (SDOH) support
  - OHP Application
  - Addictions
  - Housing
  - Food
  - Transportation
  - Childcare
  - Supplies
  - Safety
  - Legal
  - Social support

Funding

Rogue Community Health's SBHC programs are funded in part by D-9 School District, The D-9 Foundation, Oregon School-Based Health Center Grant, insurance billing and individual donations.

Behavioral Health Services

Rogue Community Health is committed to promoting behavioral health as a critical part of overall wellness. We continue to experience a high demand for behavioral health services across the nation and the need for preventative services, early intervention, integrated care, and support for those who need it is paramount. We continue to strive to have a full-time therapist in every D9 school to address these needs. Last school year, staffing issues significantly impacted our efforts at Eagle Rock Elementary and Shady Cove School.

** Upper Rogue Center for Educational Opportunities

BH and SDOH services are available over the summer! D9 staff and parents are able to refer via an online form available on school websites. Summer support will mostly be provided virtually with parental engagement.

Oral Health Outreach

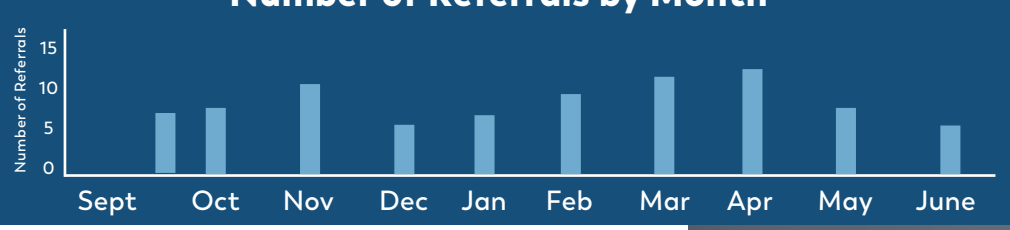

During this school year, our state-certified dental prevention program provided mobile dental services to all schools in the D9 school district, from pre-K through 12th grade, except for Eagle Point High School. We maintained enhanced infection control measures for the safety of our staff and patients, which allowed us to return to our standard sealant placement process (pre-COVID), along with our compressors.

Oral Health Outreach	'24-25	'23-24	'22-23	'21-22	'20-21*	'19-20
Oral assessments	533	864	844	553	n/a	1,241

Includes Students

* No dental prevention services due to COVID

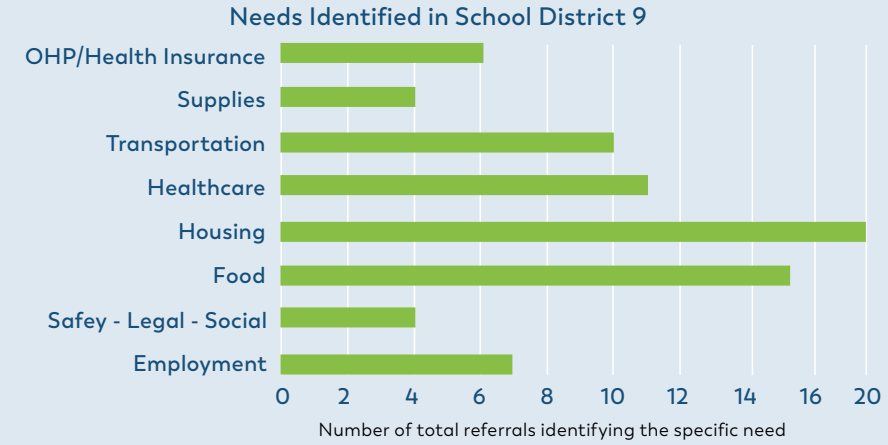

Youth Resource Navigator and Social Determinants of Health

The Youth Resource Navigator (YRN) is a role dedicated to serving students and families within school districts RCH is contracted to provide school-based health services. The YRN is a certified Community Health Worker, a non-medical professional skilled in assisting students and their families in navigating the healthcare system and accessing essential resources and services.

The YRN aims to support the health and well-being of families and encourage student success and is easily accessible through electronic referrals and is onsite weekly at URCEO on Tuesdays. They also attend school staff meetings upon invitation and actively participate in various school activities, such as the GRACE project, school conferences, and District 9 holiday basket distribution events.

Needs in the District

Student Patient Room
White Mountain Middle School

Student and Staff Impact

Check-up Visits

We continued to see an increase in Well Child Check visits this school year.

Insuarnce Enrollment

Our Eligibility Assistants successfully enrolleld more children in medical and dental insurance.

Staff Utilization

We continued to see an increase to school staff visits to our health centers, with many adopting us as their Primary Care Provider (PCP).

Student Engagement

Students from our district are using our Health Centers more and feeling more comfortable with our staff.

Engagement and Support for Our Families

Family Engagement

We've had wonderful interactions with families requesting information and services.

Language Support

Our team is providing both translation and immunization services to assist families with language barriers as they transfer into the district.

Sports Physicals

We've administered many sports physicals and continue to do so through out the entirety of the school year.

ROGUE COMMUNITY HEALTH

"The potential possibilities of any child are the most intriguing and stimulating in all creation." — Ray L. Wilbur
