

Digital Platform Access on Home Devices

If you would like your student to work on digital curricular resources (Amplify, iReady, Lexia Core5) from a device other than their OCS-issued device, follow the steps below to access these programs on a home device.

1. Go to <https://clever.com/in/onslow> and click "Microsoft 365"

2. To sign in, enter your student's 10-digit student ID number followed by "@student.onslow.k12.nc.us" as the username. The password will be the same as their computer password (*Password is case-sensitive).

3. Once signed in to the Clever platform, students can click the icons for iReady, Amplify, or Lexia Core5 to access their pathways and other learning games.

Amplify

i-Ready
