

GALENA PARK

INDEPENDENT SCHOOL DISTRICT

FOR IMMEDIATE RELEASE

October 15, 2026

On October 14, members of the Superintendent's Advisory Board (SAB) gathered for an afternoon of learning, conversation, and student voice. The meeting gave students an opportunity to explore topics that can influence both their futures and the future of education.

Guest speaker Dr. Brown, Director for College Readiness and Advanced Academics, encouraged students to take advantage of ApplyTexas Week by completing their college applications while many institutions waive application fees. She shared information, spoke with students about college admissions and registration, and provided guidance to help them plan for life after high school. The discussion encouraged students to explore their postsecondary options and take action toward achieving their college and career goals.

Dr. John Moore, Superintendent of Schools, also initiated a timely conversation about the place of artificial intelligence in schools. Students were invited to consider how AI fits into today's educational environment and share their perspectives on this rapidly evolving technology.

Through opportunities like SAB, Galena Park Independent School District (GPISD) creates **Big Connections** between students and district leadership while encouraging **Big Ideas** about education and the future. By listening to students and engaging them in meaningful conversations, GPISD continues to demonstrate why it is truly A Great Place to Be!
