FUN FRIDAY FACTS

Fall

- Pumpkins, apples, and cranberries all float in water because they are roughly 25% air.
- The first Jack-o-lanterns weren't carved out of pumpkins at all; in Ireland, people originally carved scary faces into turnips and potatoes to ward off roaming spirits.
- Squirrels get sharper memories in autumn so they can track down thousands of nuts and seeds they bury - and any they forget end up growing into new trees.
- The season used to be called "harvest" in Old English before "fall" (short for the "fall of the leaves") became popular in the 1600s.
