BOWLING GREEN HIGH SCHOOL GROUNDBREAKING FAST FACTS

Campus and Site Design

- Three-story building at 155,000 square feet.
- Site design connects new high school with the middle school and a renovated activity center to create a cohesive campus design.
- Commons space and Learning Hub (media center) are central focal points for the facility.
- Commons space serves as dining and multiuse space for classes to use collaboratively.
- Learning stairs (seating stairs) connect the commons and media center for large group gatherings and co-teaching opportunities.
- Dedicated Learning Center for special education teachers and students with life skills resources.
- Classrooms offer flexibility with operable walls to support collaboration and co-teaching.
- Classrooms and labs are equipped with interactive displays.
- Vo-Ag, Fine Arts, and Family Consumer Sciences have outdoor learning spaces.
- Food service and kitchen mimics a food court with varying food options.
- Gymnasium serves 1,750 spectators with a walking track surrounding the entire gym floor.

Sustainability and Energy Efficiency

- Geothermal system under the parking lot serves the high school with potential expansion to serve the middle school in the future.
- Water Source Heat pumps provide heating and cooling throughout.
- Independent temperature controls throughout with centralized, open-source Building Automation System.
- Energy recovery units provide increased outdoor air capabilities while still providing exceptional energy savings.
- Energy efficient LED lighting with occupancy sensors.

Safety and Security

- Enhanced security controls from access to surveillance systems.

Mr. Daniel Black
