PREP PATHWAY

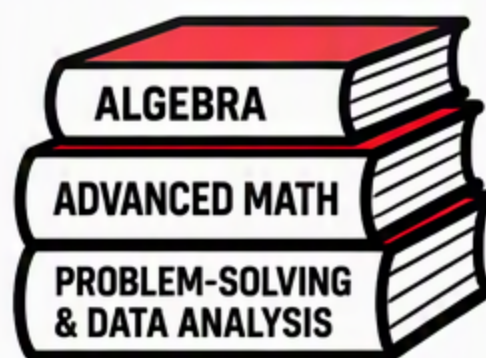

FONTANA STUDENTS

SAME LOGIN. A BRIGHTER TOMORROW.

WHAT IT IS

Edia now offers a free **PSAT / SAT Prep Pathway** for Fontana students. It's a self-paced practice path that adapts to each student, and it covers the main math areas on the test: Algebra, Advanced Math, and Problem-Solving & Data Analysis.

*Build Skills.
Boost Confidence.*

WHY IT HELPS

The Pathway updates as students work. Students skip skills they've already mastered, spend more time on the ones they need, and don't repeat work. It's built to help students get ready for the PSAT / SAT and for college.

Your Future Is a Work in Progress.

HOW STUDENTS GET THERE

- 1 Log in to Edia the **same** way you do in class, and open **Pathway** at the top of the screen.
- 2 Scroll to the bottom and click **Change Subject**.
- 3 Choose **PSAT Prep / SAT Prep** from the list.
- 4 Pick a topic and click **Practice**.

Students can switch back to their regular class subject anytime using the same **Change Subject** button. Their progress in each subject is saved.

*Same Login.
More Opportunities.*

GOOD TO KNOW

Teachers:

This is optional practice students can do on their own. It doesn't replace or change any assignments you've given.

Parents/guardians:

Your student can use their school Edia login at home on any computer or tablet with a web browser. Nothing needs to be installed.

Students:

Short, regular sessions work best. Even 15–20 minutes a few times a week adds up!
