RFP No. 27-001 – Addendum #3 - CLARIFICATIONS

1. Will the District carry builder's risk insurance for the project, or is the selected contractor expected to provide it?
    a. *The District will be carrying builder's risk insurance for the project*
2. The RFP also references Section A "Acknowledgment of Insurance Requirements" form. I was not able to locate this in the RFP and so I wanted to confirm if this was a form the District was providing for us to fill out or if you were just looking for a letter from our insurance team.
    a. *Correct. There is no form per se. A letter from your insurance team specifying the coverage will suffice.*
3. We noticed the license required to bid this project is a C46 only. Since a C10 is allowed to perform and install all aspects and scopes of this project, can a C10 contractor submit a bid for this project if they do not hold a C46?
    a. *Proposers must show they have the proper licenses to complete the scope of work, which may include C10 and/or C46.*
