October 16,2026

Dear Superintendents and BOCES Directors,

Today, I'm writing to share that FY 2026-2027 Charter School Pass-Through Tool is available, and our School Finance Team will be sharing it out today. As a reminder, the updated tool primarily includes formatting improvements and does not contain significant changes to the underlying formulas or calculations.

You can review our October presentation to district finance leads and watch a recording of the meeting where this information was presented.

- Watch the CDE October FPP Recording: Financial Policies and Procedures October Meeting - 10/8/2026

We will share an updated version of the tool once the October 2026 student count data have been verified and incorporated into the school finance formula. This process is typically completed by the end of November, and we anticipate a similar timeline this year.

Warm Regards,

Susana Córdova
