1. Narrative description of the Prop 28 arts education program(s) funded. (2500 character limit).

The Prop 28 funds have allowed us to expand equitable access to high-quality arts education across all grade levels, ensuring that every student has the opportunity to explore, create, and thrive in the arts. At the elementary level, students benefit from a robust VAPA program that offers a wide range of artistic experiences. Programs include general music, instrumental music, theater, dance, and musical theater, providing students with multiple avenues to discover and develop their creative talents. In addition, the elementary visual arts program introduces students to foundational art concepts, techniques, and mediums, helping them build artistic skills and a deeper appreciation for the visual arts. At the middle school level, the district continues to strengthen its VAPA wheel, giving students access to a variety of semester-long courses in the arts. The wheel includes Digital Media, Photography, Visual Arts, and Musical Theater, allowing students to explore both traditional and contemporary art forms. These courses not only develop technical skills but also foster creativity, collaboration, and self-expression; skills essential for success in both academics and life. Together, these elementary and middle school programs ensure a comprehensive and inclusive VAPA pathway for all students. Proposition 28 funding has been instrumental in supporting this vision by providing the staffing, resources, and instructional materials necessary to sustain and grow these opportunities. Through this investment, the Westminster School District continues its commitment to inspiring creativity, enhancing student learning, and preparing students to be confident, well-rounded individuals.
