Teacher Leaders Think Big and Build Big Connections Across GPISD

Galena Park ISD's (GPISD) Teacher Leadership Council (TLC), made up of the district's 2025–2026 Teachers of the Year, recently came together to learn, connect, and **Think Big** about their role as leaders and ambassadors across the District.

These outstanding educators are making **Big Differences** by strengthening communication between campuses, colleagues, families, and the community. During the meeting, TLC members gained valuable district information, asked questions, and explored **Big Ideas** they can share with their school communities.

The Teacher Leadership Council also creates **Big Connections** by giving educators opportunities to learn more about the district while sharing their voices and perspectives. By taking information back to their campuses, these teacher leaders help turn **Big Ideas** into **Big Moves** that support students, staff, and families.

The district looks forward to bringing TLC members together again for the spring meeting on April 2, 2027. Through their leadership, dedication, and commitment to **Big Dreams** for every student, these exceptional educators continue to demonstrate why Galena Park ISD is a Great Place to Be!
