

College Credit Options

Grants Pass High School (GPHS) partners with local institutions to offer **dual credit** courses (in addition to students potentially earning credit by earning a three or higher on an AP exam). Students can earn high school and college credit simultaneously by meeting specific course requirements. This information can also be found in the GPHS Course Catalog.

Key Information

- **Partner Institutions:** Rogue Community College (**RCC**) and Southern Oregon University (**SOU**).
- **Degree Advancement:** Credits earned may apply toward certificates or associate and bachelor's degrees.
- **Costs:** Some institutions charge a fee to post these credits to an official college transcript.
- **Availability:** Course offerings and credit eligibility are subject to change at the discretion of the college.

Next Steps

Students should review the **course syllabus** or consult with their **teacher** at the beginning of the term to confirm specific registration deadlines and requirements. Parents/Guardian can reach out to the teacher for additional information if needed.

Please note: all information included below is subject to change as RCC and SOU update policies, costs, and practices.
