How do I get Certified?

Admission to the program does not guarantee becoming a certified nurse assistant.

- Upon completion with passing grades, students will be eligible to take the California State competency evaluation exam. After passing the State exam, and the background clearance, students will be certified as a C.N.A

Industry Job Outlook

Career opportunities in this field are expected to grow up to 26% through 2030 in the Tulare County region.

*According to the State of California Employment Development Department

Students with Convictions

- Students with convictions need to be advised that the CA Dept. of Public Health evaluates criminal convictions of any offense and either grants or denies criminal record clearance.
- Due to their processing times, the student may complete the class, and pass the state competency examination and still not obtain a background clearance thereby not becoming certified as a nurse assistant.

Upon successful completion of the course, students will receive Certificate of Completion.
