TECHROW VR HEADSET GUIDE

GETTING STARTED

- Establish a safety boundary that allows for **2-3 feet of personal space** - free of obstructions.
- It is recommended that **users remain seated** when operating the device.

WEARING THE DEVICE

- **Secure the wrist straps** of the controllers around each wrist. Familiarize yourself with the buttons.
- Loosen the headset's back and top straps. Place the headset in a comfortable position against your face. Pull the straps over the back of your head and tighten the back strap to hold the headset comfortably in place.

USING THE DEVICE

- **Power on/off the headset** - Hold the power button for **2-3 seconds** or until the Meta symbol appears on screen.
- **Pairing the Controller** - Press and hold the Menu button on the left controller and the Meta button on the right controller for 2 seconds until you see a blinking white light and feel a haptic response.

DEVICE CONTROLS

- Left (XY) and right (AB) **Trigger** buttons - selects (similar to mouse buttons)
- Left (XY) and right (AB) **Grip** button - grabs objects
- **A and X** - selects
- **B and Y** - back buttons
- **Meta button** - return to home menu

IMPORTANT REMINDERS

- Charge the headset prior to use
- Remove batteries from controllers when not in use
- Keep devices away from direct sunlight or heat
- Do not touch headset lenses or cameras
- Use travel case for protection when transporting devices
