Resources for Success

FY26 Fiscal Recap

- Total Expenses were on target: RCPS spent \$67.4 million in FY26, which was within \$200,000 (0.3%) of the \$67.2 million budget. Locally funded expenses were lower in some areas, offset by higher grant-funded expenses in others.
- Revenues surpassed expectations: \$70.3 million, \$3.1 million (4.6%) higher than expected. The District had followed AOE guidance to budget conservatively for federal grant revenues, given uncertainty about that funding, including concerns about potential reductions.
- Surplus of \$2.9 million: Given the difference between revenues and expenses, RCPS benefitted from a surplus of \$2.9 million in FY26. It is expected that this surplus will be returned to taxpayers as part of the FY28 budgeting process. A recommendation will be provided to the Board during budget updates in November and December.
