Our Charter

The Puyallup School District Board of Directors hereby commissions the 2026-27 Boundary Review Committee (BRC) for the purpose of **evaluating and recommending a school boundary adjustment between Glacier View Junior High and Ferrucci Junior High**, as recommended by the School Capacity and Utilization Task Force. The purpose of the BRC is to **develop a recommendation to balance enrollment and building capacity between GVJH and FJH** in compliance with Board Policy 3130. The committee will consider any known district initiatives that may impact enrollment or building capacity. The BRC will also consult with the transportation department to solicit staff recommendations for minor adjustments to improve transportation efficiency district wide.

Board Policy 3130 – District Attendance Areas

FOUNDATIONS FOR OUR FUTURE

Factors to be considered when the district develops attendance area boundaries:

A. Minimizing disruption of students' established learning programs.
B. Maintaining established neighborhood groupings.
C. Ensuring the stability of the feeder school concept as much as possible.
D. Coordinating transportation routes with attendance areas.
E. Geographical features of the area.
F. Safety in transportation.
G. Walking conditions.
H. Racial/Ethnic/Gender balance.
I. Socio-Economic balance.
J. Sufficient lead time to ensure effective implementation.

Scope of Work

The committee is advisory to the Superintendent and the Board of Directors and will consider the following outcome: **A community-based recommendation for school boundaries.**

- The committee will refer to Board Policy 3130 when evaluating proposed boundary adjustments. As a baseline, the committee will **seek to provide equity, balance enrollment, maximize access to educational programs, and support an efficient transportation plan**.
- The committee will provide **public comment opportunities** and communication with district stakeholders.
- The committee will **present to the board the options considered** (including benefits and challenges, when possible) upon providing its recommendation.

Scope of Work Clarification

Is this boundary realignment a result of the recent fire and temporary relocation of Ferrucci Junior High students?

No. The boundary realignment is based on a recommendation made to the Board of Directors in May by the School Capacity and Utilization Task Force. It reflects long-term enrollment trends and building capacity planning. This work is separate from the current Ferrucci Junior High fire restoration and temporary student relocation.

Scope of Work Clarification

Will the boundary committee look at adjusting boundaries between Puyallup School District and the Orting School District or other school districts?

No. This committee has been asked to evaluate the school boundary between Ferrucci and Glacier View Junior High schools. Adjusting common boundaries between two or more school districts requires a unique process working with the Puget Sound Educational Service District and neighboring district(s).

FOUNDATIONS FOR OUR FUTURE

Map shows current Junior High Boundaries overlaid by Neighborhood Tract layer

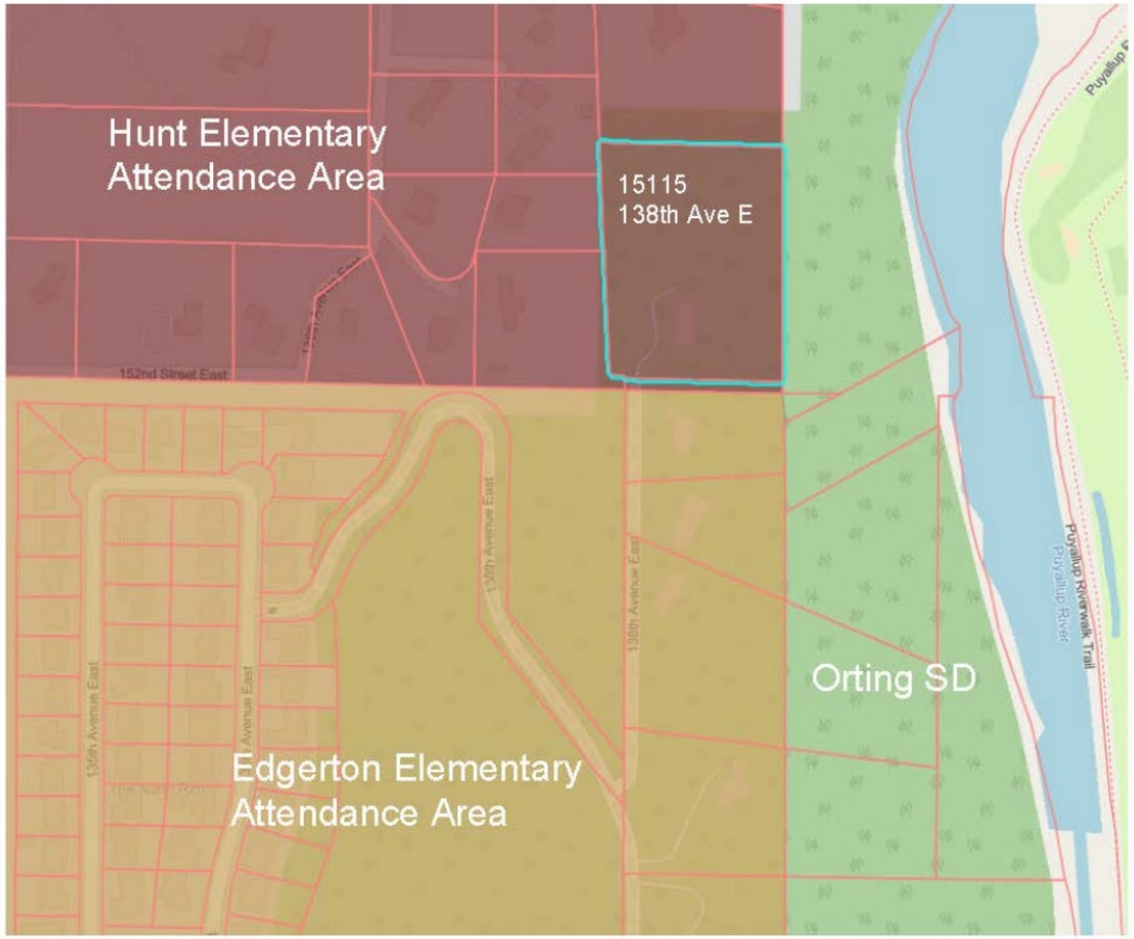

Neighborhood Tracts:

- 237 unique geographies that divide the 54 square miles of the district
- “Resident” K-12 student population of 50 – 150
- Boundary Planning can be considered the reassignment of tracts.

Minor Adjustment Example

Minor boundary adjustment to improve transportation efficiency approved by the school board in 2023.
