Table Exercise

In groups of four, please analyze the impacts of reassigning junior high students who reside within the **Hunt Elementary** attendance boundary from **Glacier View Junior High** to **Ferrucci Junior High** under **Option 1** below. Specifically:

- How would this boundary adjustment affect total enrollment at both Glacier View and Ferrucci Junior High?
- How would the shift affect building utilization and capacity at both schools?
- Would either school move significantly above or below its building capacity?

Under **Option 2**, develop an alternative boundary change and provide information that supports or challenges the plan.
