What is the appropriate student count shift?

October 2025 projection unadjusted = **90 students to balance**

October 2025 projection adjusted to 9/21/26 enrollment =
160 students to balance

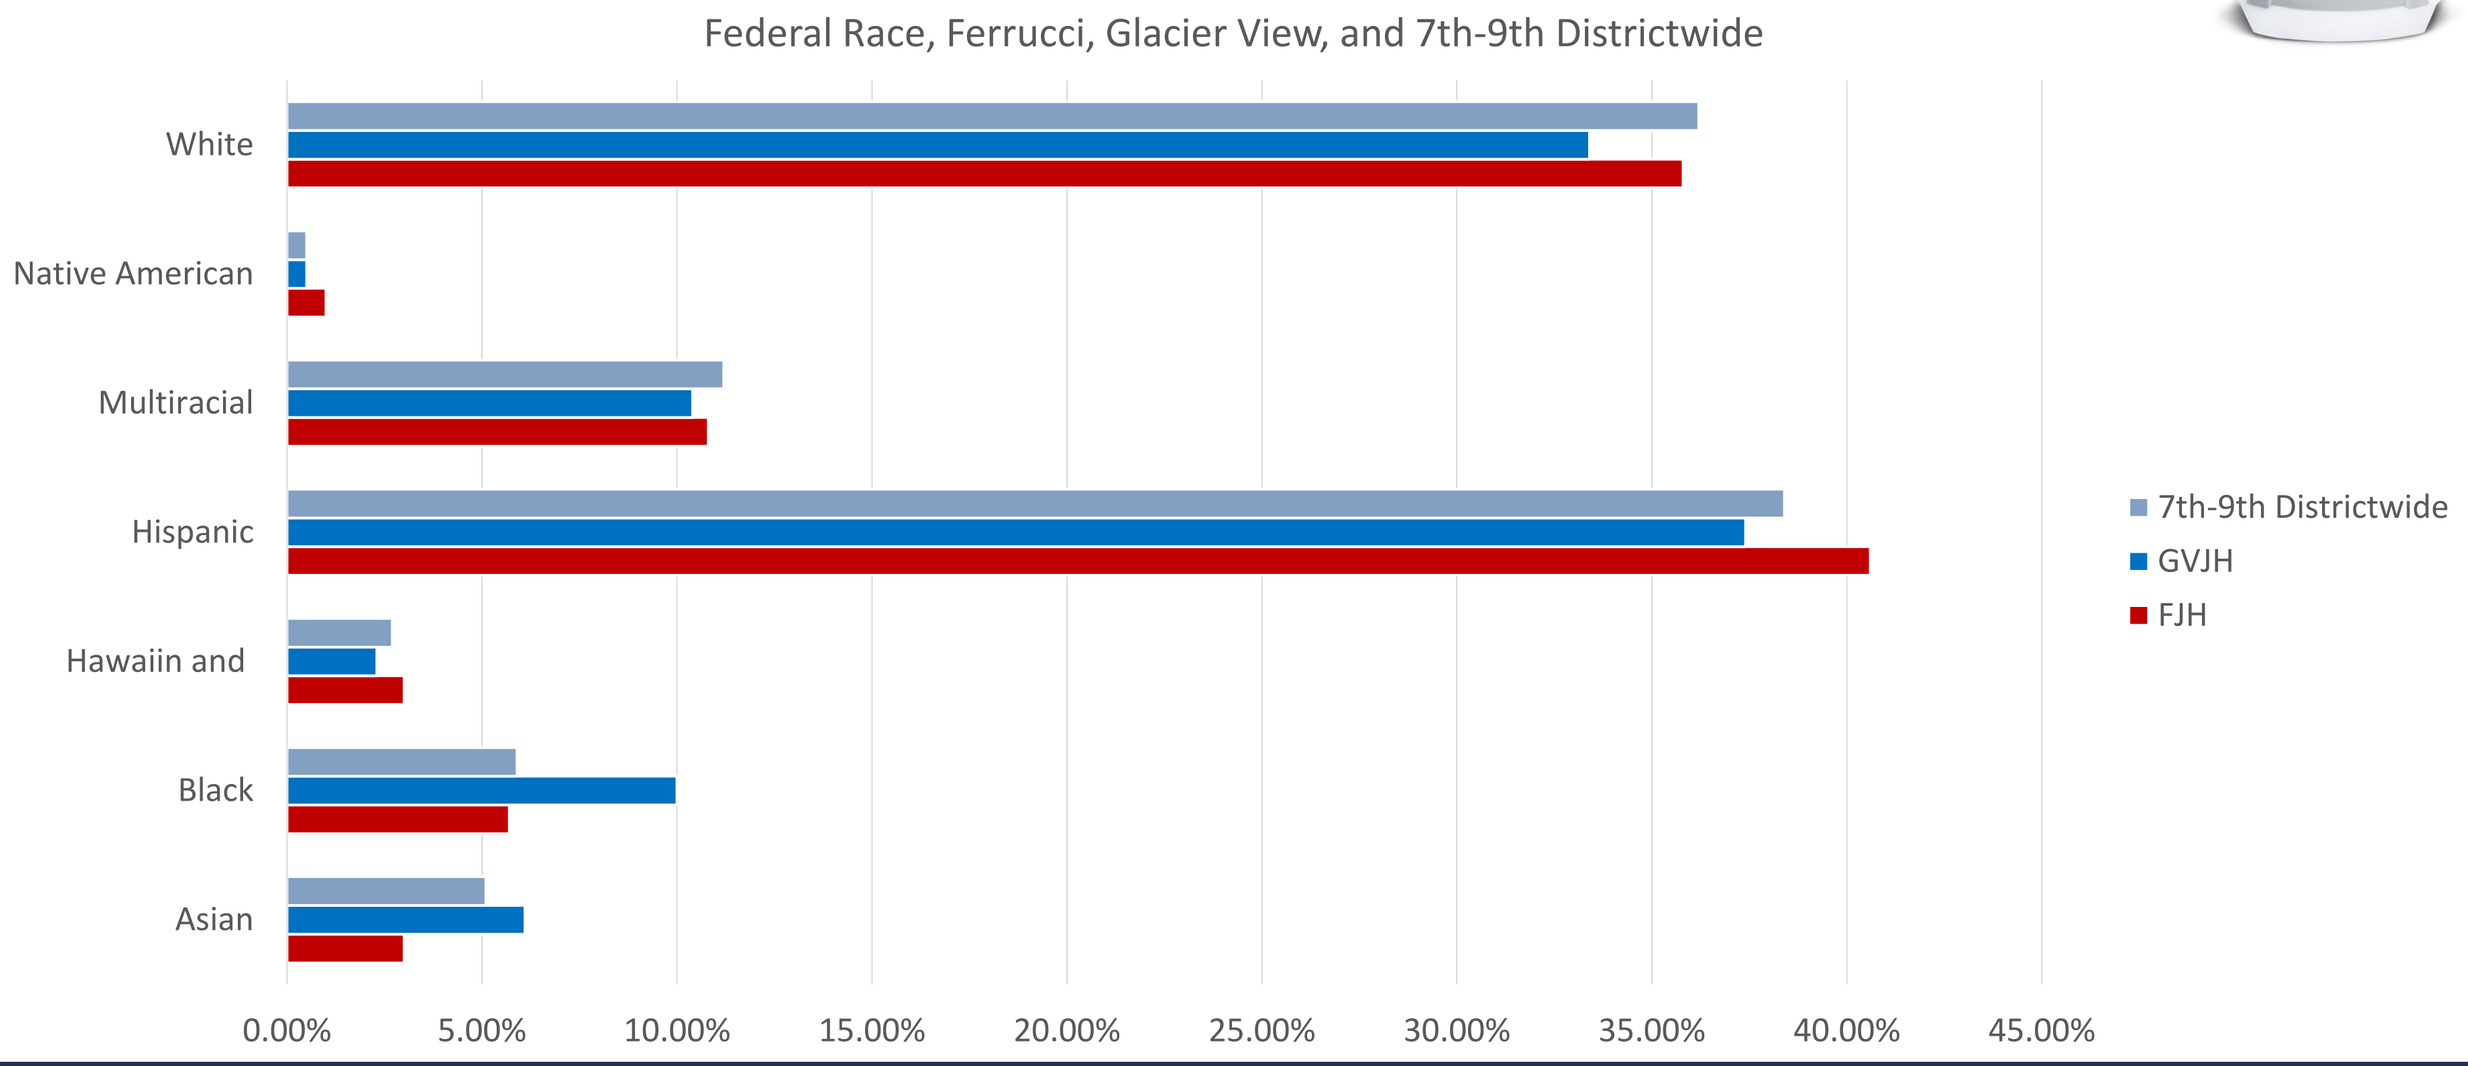

Staff recommendation: 110 - 120 student shift

- Leans towards traditional enrollment patterns will reestablish after 3+ years.
- Recognition that GVJH is projected to increase past 2028-29 due to new residential development.
- Recognition that combined enrollment at these two schools is less than projected, as is junior high enrollment districtwide.
- This target will be reevaluated prior to the BRC's recommendation package to the board.

Public Review of Our Progress

The purpose of sharing the plan options developed now is to gather public input prior to the BRC making a final recommendation. The information shared in October will not be shared as a recommendation, but as plan options for public review and input.

- Is the committee ready to share its plan options with the public?
- Which plans should be included in the public information share? What plan(s) should be excluded, if any?
- What does a successful public review process look like to the committee? What feedback method(s) should be used: in-person meeting, online survey, virtual session, open house, or a combination of approaches?
