- ☒ Khristina Munoz (Parent)
- ☒ Raquel Belmarez (Parent)
- ☒ Ms. Lozano (Other School Leader)

Topic/Speaker	Notes	Next Steps if needed
Dr. Riordan: NWEA Data Review BOY Review 2026 accountability	Data over the past 3 years shows progressive growth for the campus.	
Dr. Riordan explained the approved 2026-2027 CIP - Campus Improvement Plan	SPED - By Jan. 2027 - 60% will meet growth per individual plan. - By May. 2027- 75% will show growth from the BOY TELPAS - Listening and Speaking portion needs more focus. When students are taking the speaking section, they tend to pause or repeat themselves. This counts against them	Setting up speaking practice through the k12 summit. Mr. Rodriguez.

	Writing - Lower grade teachers are focusing on RA part of the RACE strategy. 3-5 incorporates writing in all core subjects.	
Family Engagement Ms. Munoz and Ms. Balmarez	Parents stated that when the announcement of the relocation they were worried about how it would affect the students in the beginning. Currently students have adjusted to the new location. Parents believe this is due to many of the cage staff members remaining with the campus. Many students have built relationships with their past and current teachers and seeing them everyday reassured them that nothing has changed. Many parents are happy that the Cage staff was able to relocate with the campus and that there was little turnover with teachers.
