I have added the scores for the 2025-2026 school year below last year. Findings: CES is better than the state average in all but two categories, and even with the state in those two for the 2025-26 School Year. We again rocked the Science ISAT.

★ **ISIP Reading Scores** - We have started testing AMIRA, Benchmarking, and there are several challenges with this test being on computers.

All Grades - September 2026

Findings: Comparisons from 2025-26 to 2026-27

Grade Level Fall to Fall	2025-26 Proficient to Start	2026-27 Proficient to start
Kinder	47%	35%
1st Grade	53%	57%
2nd Grade	71%	59%
3rd Grade	68%	75%
4th Grade	67%	37%
5th Grade	70%	75%

★ **ISIP Math Scores** - We will be benchmark testing math as we finish the AMIRA test.

★ WIDA Testing:

★ Behavioral/PBIS Updates -

We love have Marissa Lima on our team, we just wish we could have her every day to support the students with behavioral challenges. We are seeking solutions to find the keys that open the minds of the students to help us understand what their behavior is telling us. They often don't have the words to tell us and it is difficult.

★ Staff Highlight Certified/Classified

Grade level teams have been meeting each Tuesday to discuss their students and what they want them to learn and what they are going to do when they show mastery and what they will do when the students are struggling.

★ Events Past/Upcoming

⇒ Parent Teacher Conferences October 14th and 15th - teachers are looking forward to sharing with parents how their students are progressing this year and where their baseline data is starting. And what the parents can do at home to help them progress even further.

⇒ Game Night, October 20th 6:30-8:00pm, Our Community School Coordinator along with All Stars from Hale Counseling are putting on a game night for our families to enjoy some fun together.

⇒ We adjusted our specials for Kindergarten to have 30 minute (2x/week) for an hour long slot, and the kindergarten teachers asked for this adjustment because they want to go out to recess to see how their students are playing with others.

1st grade adjusted to having just one special each day in the 45 minute slot, rather than having their students have two 22.5 minute specials in 45 minutes, the transition times were taking away from instruction.

⇒ Mr. Alexander will be going to a Professional Development on Data analysis on October 21st and then SMART training on October 22nd in Boise. He is looking forward to learning how to dive into the Beginning of the Year data in Amira.

He is also working with Solution Tree staff to help understand their Global PD platform to support teacher learning on the RTI process and intervention supports that can help his grade level teachers in their Professional Learning Team times.

⇒ Student Council earned money selling America 250 Freedom shirts at the end of the school year and wanted to do something for Carberry with some of the money they earned. They had 3 things that they used the money for so far:

1) New Basketball nets for the outside hoops.

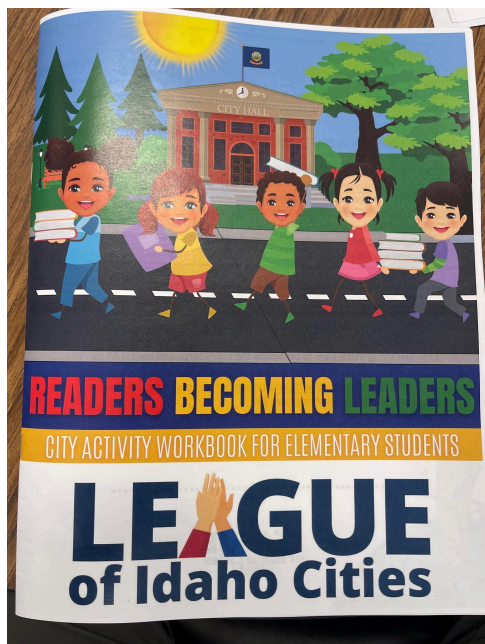

2) Lines painted on the field for football, soccer and other games that need boundary lines, \$300

3) Getting the rules to games posted outside. We have Gaga posted and the student council went out last week and taught the students the rules. They will be posting and going over the rules as they get posted. Permanent signage is coming.

⇒The Mayor came to Carberry to share a book Readers become Leaders, which is put out by the League of Idaho Cities. Mayor Petrie asked and answered questions and talked about how it takes everyone to be readers to help to make the city work. 3rd grade students went outside to see some of the City and County vehicles that are used. We are thankful to our Chief of Police Kunka and Fire Chief Christiansen and others that came to support this Readers become leaders. The students then went inside to work in a workbook based on the book that was read.

Please see the Carberry Newsletter for other information going out to our families.
