MEDICAL EXEMPTION

A health care practitioner may grant a medical exemption to a vaccine required by rule of the Washington State Board of Health only if in their judgment, the vaccine is not advisable for the child. When it is determined that this particular vaccine is no longer contraindicated, the child will be required to have the vaccine, per RCW 28A.210.090. Providers can find guidance on medical exemptions by reviewing the contraindications and precautions in the appendix of the CDC Child and Adolescent Immunization Schedule or in the manufacturer's package inserts.

*Please indicate which vaccination the **medical exemption** is referring to by disease. If the patient is not exempt from certain vaccinations, mark "not exempt."*

Disease (Itang)	Not Exempt (Ese ekichich)	Permanent Exempt (Ekichich mei chok pwan kapas)	Temporary Exempt (Ekichich fan ach sipwe)	Expiration Date for Temporary Medical
Diphtheria (Difteria)	☐	☐	☐	
Hepatitis B	☐	☐	☐
