Connect With Your Child's Teacher Using ASD Chat

Beginning with the 2026-27 school year, the Anchorage School District (ASD) is introducing ASD Chat, a new messaging tool within the ASD Mobile App. ASD Chat replaces Remind as the district-supported platform schools and teachers may use to communitcate with students and families.

ASD Chat provides a secure, centralized way for teachers to share classroom updates, reminders and important information with families and students age 13 and older.

Benefits of ASD Chat include:

- Receive classroom messages directly through the ASD Mobile App.
- Secure, district-supported communication between teachers, families and students age 13 and older.

What families should know:

- Teacher participation is optional.
- Schools/teachers who opt to use ASD Chat will contact their school/classroom families directly.

Download the App Today!

Download the app from the App Store or Google Play by searching: "Anchorage School District"

Download on the App Store

Anchorage School District
Educating All Students for Success in Life

Parents follow these steps to get started:

1. Download the ASD app.
If you have the app, check for any updates.

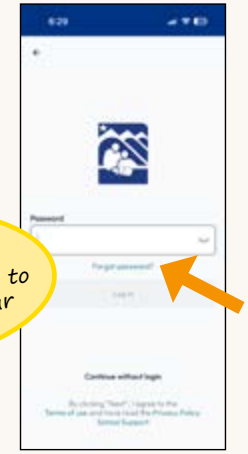

2. Enter username/email.
Use the email that is connected with your Q ParentConnection.

Do NOT click "continue without login" you need to log in to communicate with your child's teacher.

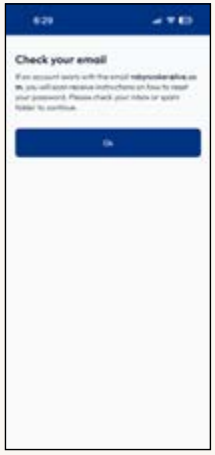

3. Click "Forgot Password."
You must do this to create a password for a new account.

4. Type in your email.
Click send to submit a request. If you have an email associated with the Q ParentConnection portal, a password reset link will be emailed to you.

5. Click OK, check your email.
You may need to check your junk folder.

6. Fill in "Create a new Password" prompts.
When this step is done, return to the app and sign in. Note: Creating a new password in the ASD app does not change your Q ParentConnection password.
