

A Place to Belong

Originally known as Scenic Land School, our school became Skyuka Hall in 2014 with eight students and four staff members, united by a belief in students who learn differently.

Today, we serve 132 students with 40 dedicated staff members. Our K-12 school is dually accredited by SAIS and Cognia.

Our permanent home spans 32 acres, with a creek along the property and a nature reserve behind it. Multiple buildings provide room to grow, and our setting opens new possibilities for outdoor learning and exploration.

Who We Serve

We serve students in kindergarten through twelfth grade with a range of learning profiles and support needs. These may include ADHD, dyslexia, dysgraphia, dyscalculia, auditory processing disorder, visual processing disorder, language processing disorder, or autism with low to moderate support needs. Support is also available for difficulties with working memory, processing speed, and executive functioning. Students may need support in one or several of these areas.

Our students have varied strengths and needs. Some need intervention, some need greater academic rigor, and some need both.

Our Mission: To ensure individualized academic, social, physical, and spiritual development in a nurturing community for students with learning differences and ADHD.
