

Growing with Confidence

Movement Every Day

Daily physical education makes movement a priority for every student.

Teamwork and School Pride

Basketball, cross country, track, and pep club build skills, teamwork, and school pride. We look forward to expanding our athletic opportunities.

Clubs and Community

Clubs include chess, coding, cooking, fishing, art, gardening, Pokémon, Bible study, and media activities such as photography, videography, and theatre. These and many more help students explore interests and build friendships.

House System

K-12 students and teachers belong to houses that build friendships across grades. Students earn points for academic achievement, kindness, and supporting others. Each house encourages its members and strengthens our school community.
