Veritas AI International High School Hackathon

On November 14-15, high school students (grades 9 to 12) worldwide build a AI project either solo or in teams of up to 3, no AI experience is needed. Finalists get to present live to judges from Microsoft Research, Stanford, Harvard, and Princeton.

The top team wins an **AI internship,** and a full prize pool, witch includes scholarships to Veritas AI programs, worth **$70,000**.

Best part, it is free to enter and fully virtual!!!

Watch the free recording of the event's virtual intro workshop to get started.

Scan or go to: https://highschoolhackathon.org for more event info.

Registration for hackathon is open now until November 13.
