Roblox Safety & Online Predators

This presentation helps parents and community members better understand the online environments children are using today, with a focus on Roblox and other social platforms.

Attendees will learn how these platforms work, why they appeal to kids, and how online predators attempt to exploit in-game chat, friend systems, and external apps.

The session will cover common grooming tactics, warning signs that a child may be interacting with someone unsafe online, and real-world examples of how predators move conversations from games to other platforms for violence, sextortion, and more.

Wednesday, October 28th 2026

Zion Lutheran Church

4301 Brownsville Road, Pittsburgh, PA 15236

Event Starts at 6:30 PM

Doors Open at 6:00 PM
