MISSION STATEMENT

The mission of Locust Avenue High School is to provide specialized, individually planned and structured Next Generation Standards-based education. Career and Technical Education experiences promote the specific skills and career-based training needed for the world of work and to support academic classes. Integration of the Career Development and Occupational Studies standards (CDOS) into the classroom and community based or service learning activities help students to see the relevance of the course work. Career assessment and Level One interviews as well as transition planning interface with school to work learning. Related internship experiences and part-time jobs can provide students with participation in the community. Our commitment to a safe and nurturing environment allows students to access these opportunities based on their individual needs. Our program offers students' academic and employability skills with social growth opportunities and real-world connections helping to prepare them for the challenges of the future.

SERVICE DESCRIPTION

This multifaceted academic program at Locust Avenue High School is available to secondary special education and non-classified "at-risk" students 14-21 with severe behavioral concerns and limited anger management skills. Locust Avenue High School offers a 6-1-1 modified departmentalized program based on the Next Generation Learning Standards. All students receive weekly counseling as per their Individual Education Program.
