DISTRICT ADVISORY COUNCIL
2026/2027 CHARGE

TO: BOARD OF EDUCATION

FROM: PATRICK KRUMHOLZ, SUPERINTENDENT

RE: DISTRICT ADVISORY COUNCIL CHARGE 2026-2027

The District Advisory Council adopted the following charge for the school year 2026-2027. The charge is simple in format but comprehensive in nature.

- ✓ **The District Advisory Council will focus on connecting our community and parents with our schools and support academic growth by annually reviewing progress towards curriculum development and implementation.**
- ✓ **The area of focus will be to determine various ways to help provide more clear information and to promote open communication and information sharing between parents, students, and the community. This focus will help create better relationships and generate more student achievement.**
- ✓ **Communicate success stories not only with families and district administration, but also with the local community to help improve sustained enrollment.**

The DAC will brainstorm to determine specific items
to help with communication, relationships and develop a plan of action.

A list of items will be compiled and identified recommendations
will be shared with buildings and administration.
