INDEPENDENT AUDITOR'S REPORT

October 8, 2026

Members of the Board of Education
Bensenville Elementary School District No. 2
Bensenville, Illinois

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying modified cash basis financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Bensenville Elementary School District No. 2 (the District), Illinois, as of and for the year ended June 30, 2026, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective modified cash basis financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Bensenville Elementary School District No. 2, Illinois, as of June 30, 2026, and the respective changes in financial position for the year then ended in accordance with the modified cash basis of accounting as described in Note 1.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter - Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to that matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the modified cash basis of accounting described in Note 1, and for determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Bensenville Elementary School District No. 2, Illinois' basic financial statements. The management's discussion and analysis, other supplementary information and supplemental schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, management's discussion and analysis, other supplementary information and supplemental schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises of the introductory section but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 8, 2026, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

BENSENVILLE ELEMENTARY SCHOOL DISTRICT NO. 2

Management's Discussion and Analysis

June 30, 2026

The discussion and analysis of Bensenville Elementary School District No. 2 (the District), Illinois, financial performance provides an overall review of the District's financial activities as of and for the year ended June 30, 2026. The management of the District encourages readers to consider the information presented herein in conjunction with the basic financial statements to enhance their understanding of the District's financial performance. Certain comparative information between the current year and the prior is required to be presented in the Management's Discussion and Analysis (the "MD&A"). Questions concerning any of the information provided in this report or requests for additional information, contact the Bensenville Elementary School District No. 2, 210 S. Church Street, Bensenville, IL 60106.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of groups of financial statements plus notes and supplementary information. The first group of financial statements is the Government-Wide Financial Statements. The next group is the Fund Financial Statements. The last group of financial statements concerns activities for which the District acts solely as a trustee or agent for the benefit of those outside of the government.

Government-Wide Financial Statements

The government-wide financial statements are the Statement of Net Position and the Statement of Activities. They provide readers with information about the activities of the District as a whole, in a matter similar to a private-sector business. These statements tell how these governmental activities were financed in the short term as well as what remains for future spending. These statements therefore present a longer-term view of the District's finances, because they present information about assets acquired and used and about liabilities incurred or paid by the District.

The Statement of Net Position reports information on all of the District's assets/deferred outflows and liabilities/deferred inflows, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. Consideration of other nonfinancial factors, such as changes in the District's property tax base and the condition of the District's infrastructure, is needed to assess the overall health of the District.

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year within the limitations of the modified cash basis of accounting.

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Fund financial statements report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds.

The District's funds are all governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Management's Discussion and Analysis

June 30, 2026

OVERVIEW OF THE FINANCIAL STATEMENTS - Continued

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The District maintains five individual governmental funds. Two of the funds are considered major funds: the General Fund and Debt Service Fund. Information for each major fund is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances. The other three governmental funds are combined into a single, aggregated presentation, although separate data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The District adopts an annual appropriated budget for all of the governmental funds. A budgetary comparison schedule for these funds has been provided to demonstrate compliance with this budget.

Other Information

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The District uses notes to (1) present information in greater detail than is possible within the financial statements themselves, (2) explain the nature of amounts reported in the financial statements and how those amounts were determined, and (3) report certain information that does not meet the requirements for inclusion in the financial statements (such as certain contingencies).

BENSENVILLE ELEMENTARY SCHOOL DISTRICT NO. 2

Management's Discussion and Analysis

June 30, 2026

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. The following tables show that assets/deferred outflows exceeded liabilities/deferred inflows by \$75,367,294.

	Net Position	
	2026	2025
Current Assets	\$ 40,816,084	40,090,580
Capital Assets	71,810,904	74,546,183
Total Assets	112,626,988	114,636,763
Deferred Outflows	549,750	518,778
Total Assets/Deferred Outflows	113,176,738	115,155,541
Long-Term Debt	35,937,530	37,809,444
Other Liabilities	1,871,914	1,791,914
Total Liabilities	37,809,444	39,601,358
Net Position		
Net Investment in Capital Assets	34,551,210	41,865,073
Restricted	894,012	951,607
Unrestricted	39,922,072	32,737,503
Total Net Position	75,367,294	75,554,183

A portion of the District's net position, \$34,551,210 or 45.8%, reflects its net investment in capital assets (for example, land, construction in progress, land improvements, buildings, equipment, and transportation equipment), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion, \$894,012 or 1.2%, of the District's net position represents resources that are subject to external restrictions on how they may be used. The remaining \$39,922,072 or 53.0%, represents unrestricted net position and may be used to meet the government's ongoing obligations to citizens and creditors.

BENSENVILLE ELEMENTARY SCHOOL DISTRICT NO. 2**Management's Discussion and Analysis****June 30, 2026****GOVERNMENT-WIDE FINANCIAL ANALYSIS - Continued**

	Change in Net Position	
	2026	2025
Revenues		
Program Revenues		
Charges for Services	\$ 69,699	41,165
Operating Grants/Contrib.	13,733,361	15,313,439
General Revenues		
Property Taxes	34,605,345	33,847,870
Replacement Taxes	1,513,339	1,547,154
Evidence Based Funding	4,687,946	4,643,264
Earnings on Investments	1,403,371	1,924,876
Other General Revenues	400,336	283,279
Total Revenues	56,413,397	57,601,047
Expenses		
Instruction	25,647,175	25,372,337
Support Services	18,640,745	17,821,188
Community Services	530,419	591,473
Interest and Fees	1,088,553	1,210,727
Payments to other Districts/Govts.	1,732,376	1,380,483
On-Behalf Retirement Contributions	8,961,018	10,105,849
Total Expenses	56,600,286	56,482,057
Change in Net Position	(186,889)	1,118,990
Net Position - Beginning	75,554,183	74,435,193
Net Position - Ending	75,367,294	75,554,183

Net position of the District's governmental activities decreased by 0.2 percent (\$75,554,183 in 2025 compared to \$75,367,294 in 2026). Unrestricted net position, the part of net position that can be used to finance day-to-day operations without constraints, totaled \$39,922,072 at June 30, 2026.

Revenues for governmental activities totaled \$56,413,397, while the cost of all governmental functions totaled \$56,600,286. This results in a deficit of \$186,889 for 2026. In comparison, 2025 revenues of \$57,601,047 exceeded expenses of \$56,482,057, resulting in a surplus of \$1,118,990. The 2026 decrease was due to mainly to increases in instruction and support services expenses as well as payments to other Districts/Govts. of \$1,450,000 and lower earnings on investments of \$521,000 offset by increase in property taxes of \$757,000.

BENSENVILLE ELEMENTARY SCHOOL DISTRICT NO. 2

Management's Discussion and Analysis

June 30, 2026

GOVERNMENT-WIDE FINANCIAL ANALYSIS - Continued

The District's governmental activities reported total revenues of \$56,413,397 for the current fiscal year, this represents a decrease of \$1,187,650, or 2.1 percent, from the prior year's total amount of \$57,601,047.

The \$1,187,650 decrease in revenues is being driven by lower on-behalf payments from State of Illinois of \$1,145,000, Federal sources of \$548,000, and earnings on investments of \$521,000 offset by higher property taxes of \$757,000 and State sources of \$157,000.

The following chart graphically depicts the distribution of revenue sources of the District's:

District-Wide Revenues by Source

BENSENVILLE ELEMENTARY SCHOOL DISTRICT NO. 2

Management's Discussion and Analysis

June 30, 2026

GOVERNMENT-WIDE FINANCIAL ANALYSIS - Continued

The District's governmental activities reported total expenses of \$56,600,286 for the current fiscal year, this represents an increase of \$118,229, or 0.2 percent, from the prior year's total amount of \$56,482,057.

The slight increase in expenses of \$118,229 is being driven by higher expenses for instruction of \$275,000, support services of \$820,000, and payments to other Districts/Govts. of \$352,000 offset by lower State of Illinois retirement contributions of \$1,145,000.

The following table graphically depicts the distribution of expenses of the District:

BENSENVILLE ELEMENTARY SCHOOL DISTRICT NO. 2

Management's Discussion and Analysis

June 30, 2026

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The District's governmental funds reported combining ending fund balances of \$40,816,084, which is an increase of \$725,504, or 1.8 percent, from last year's total of \$40,090,580. Of the \$40,816,084 total, \$35,749,079, or 87.6 percent, of the fund balance constitutes unassigned fund balance.

The District's General Fund includes the Educational Account, Operations and Maintenance Account, Tort Immunity Account, and Working Cash Account.

The Educational Account's balance at June 30, 2026 was \$32,054,437, a decrease of \$413,028 from the previous year. This decrease was due to direct revenues of \$37,688,474 exceeding direct expenditures by \$236,972 offset by \$650,000 transfer to the Transportation Fund.

The Operations and Maintenance Account's balance at June 30, 2026 was \$3,798,203, an increase of \$234,769 from the previous year. This increase was due to direct expenditures of \$3,644,750 being lower than direct revenue by \$234,769.

The Tort Immunity Account's balance at June 30, 2026 was \$160,972, a decrease of \$4,848 from the previous year. This decrease was minimal as direct revenues of \$217,194 were comparable to direct expenses of \$222,042.

The Working Cash Account's balance at June 30, 2026 was \$467,353, an increase of \$922 from the previous year. This increase was consistent with budgetary expectations.

The Debt Service Fund's balance at June 30, 2026 was \$3,223,864, an increase of \$566,992 from the previous year. This increase was due to direct revenues of \$3,478,431 within budgetary expectations exceeding debt service expenditures of \$2,911,439 by \$566,992.

BENSENVILLE ELEMENTARY SCHOOL DISTRICT NO. 2

Management's Discussion and Analysis

June 30, 2026

CAPITAL ASSETS

The District's investment in capital assets for its governmental activities as of June 30, 2026 was \$71,810,904 (net of accumulated depreciation). This investment in capital assets includes land, land improvements, buildings, equipment, and transportation equipment.

	Capital Assets - Net of Depreciation	
	2026	2025
Land	\$ 261,111	261,111
Land Improvements	607,429	595,051
Building Improvements	69,370,913	72,000,936
Equipment	1,382,039	1,631,667
Transportation Equipment	189,412	57,418
Total	<u>71,810,904</u>	<u>74,546,183</u>

This year's major additions included:

Land Improvements	\$ 49,185
Buildings	282,825
Equipment	59,934
Transportation Equipment	<u>323,872</u>
Total	<u>715,816</u>

Additional information on the District's capital assets can be found in Note 2 of this report.

DEBT ADMINISTRATION

At year-end, the District had total outstanding debt of \$35,496,000 as compared to \$37,051,000 the previous year, a decrease of 4.2 percent. The following is a comparative statement of outstanding debt:

	Long-Term Debt Outstanding	
	2026	2025
General Obligation Bonds	<u>\$ 35,496,000</u>	<u>37,051,000</u>

State statutes limit the amount of general obligation debt the District may issue to 6.9 percent of its total assessed valuation. The current debt limit for the District is \$66,142,720.

Additional information on the District's long-term debt can be found in Note 2 of this report.

BENSENVILLE ELEMENTARY SCHOOL DISTRICT NO. 2

Management's Discussion and Analysis

June 30, 2026

FACTORS BEARING ON THE DISTRICT'S FUTURE

The District prepares a five-year financial forecast in order to ensure a sound focus on financial aspects. The Board of Education reviews this forecast from time to time. The District monitors the levels of support expected from the State of Illinois and considers possible changes in that support in its five-year forecast.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information, contact the Bensenville Elementary School District No. 2, 210 S. Church Street, Bensenville, IL 60106.

BASIC FINANCIAL STATEMENTS

The basic financial Statements include integrated sets of financial statements as required by the GASB. The sets of statements include:

- Government-Wide Financial Statements
- Fund Financial Statements
 - Governmental Funds

In addition, the notes to the financial statements are included to provide information that is essential to a user's understanding of the basic financial statements.

BENSENVILLE ELEMENTARY SCHOOL DISTRICT NO. 2

Notes to the Financial Statements

June 30, 2026

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Bensenville Elementary School District No. 2 (the District) is governed by an elected Board of Education and provides primary education, transportation, cafeteria, building maintenance, and general administrative services.

The basic financial statements of the District have been presented on a modified cash basis of accounting. The modified cash basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP). Generally accepted accounting principles include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The more significant of the District's accounting policies are described below.

REPORTING ENTITY

The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units are, in substance, part of the primary government's operations, even though they are legally separate entities. Thus, blended component units are appropriately presented as funds of the primary government. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is both legally and substantively separate from the government. Management has determined that there are no fiduciary component units that are required to be included in the financial statements of the District as pension trust funds and there are no discretely component units to include in the reporting entity.

BASIS OF PRESENTATION

Government-Wide Statements

The District's basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. The District's operating activities are all considered governmental activities, that is, activities normally supported by taxes and intergovernmental revenues. The District has no operating activities that would be considered business-type activities. The District first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the District's functions (instruction, support services, community services, etc.). The functions are supported by general government revenues (property and personal property replacement taxes, earnings on investments, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, which include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.

The net costs (by function) are normally covered by general revenue (property and personal property replacement taxes, earnings on investments, etc.).

This government-wide focus is more on the sustainability of the District as an entity and the change in the District's net position resulting from the current year's activities.

BENSENVILLE ELEMENTARY SCHOOL DISTRICT NO. 2

Notes to the Financial Statements

June 30, 2026

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

BASIS OF PRESENTATION - Continued

Fund Financial Statements

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets/deferred outflows, liabilities/deferred inflows, fund equity, revenues and expenditures/expenses. An emphasis is placed on major funds within the governmental category. A fund is considered major if it is the primary operating fund of the District or meets the following criteria:

Total assets/deferred outflows, liabilities/deferred inflows, revenues, or expenditures/expenses of that individual governmental fund are at least 10 percent of the corresponding total for all funds of that category or type.

The various funds are reported by generic classification within the financial statements. The following fund types are used by the District:

Governmental Funds

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the District:

General Fund is the general operating fund of the District. It accounts for all financial resources except those required to be accounted for in another fund. The General Fund is a major fund and is comprised of the Educational, Operations and Maintenance, Tort Immunity, and Working Cash Accounts.

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The District maintains two nonmajor special revenue funds.

Debt Service Funds are used to account for the accumulation of funds for the periodic payment of principal and interest on general long-term debt. The District maintains one major debt service fund. The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs. The primary revenue source is local property taxes levied specifically for debt service and transfers from other funds.

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities. The District maintains one nonmajor capital projects fund.

Notes to the Financial Statements

June 30, 2026

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Measurement focus is a term used to describe “which” transactions are recorded within the various financial statements. Basis of accounting refers to “when” transactions are recorded, regardless of the measurement focus applied.

Measurement Focus

The government-wide financial statements are reported using the economic measurement focus within the limitations of the modified cash basis of accounting.

Governmental fund and financial statements are reported using a "current financial resources" measurement focus within the limitations of the modified cash basis of accounting. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds used fund balance as their measure of available spendable financial resources at the end of the period.

The accounting objectives of the "economic resources" measurement focus is the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets/deferred outflows, liabilities/deferred inflows (whether current or noncurrent) associated with their activities are reported.

Basis of Accounting

The financial statements are presented using the modified cash basis of accounting, which is a basis of accounting other than GAAP as established by GASB. This basis recognizes assets, liabilities, net position, receipts, and expenditures when they result from cash transactions with a provision for depreciation in the government-wide statements.

As a result of the use of this modified cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and their related expenses (such as accounts payable and expenses for goods and services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements. In addition, other economic assets, deferred outflows, liabilities, and deferred inflows that do not result from a cash transaction or event are not reported, and the measurement of reported assets and liabilities does not involve adjustment to fair value. Lastly, the net pension liability as calculated under GASB Statement No. 68 and the net OPEB liability as calculated under GASB Statement No. 75 have not been recorded, and pension expense in the financial statements represents cash paid during the year rather than the amount calculated under GASB Statement No. 68 and GASB Statement No. 75.

If the District utilized the basis of accounting recognized as generally accepted in the United States of America, the fund financial statements for governmental funds would use the modified accrual basis of accounting.

On-behalf payments (payments made by a third party for the benefit of the District, such as payments made by the state to the Teachers' Retirement System) have been recognized in the financial statements.

BENSENVILLE ELEMENTARY SCHOOL DISTRICT NO. 2

Notes to the Financial Statements

June 30, 2026

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION

Cash and Investments

For the purpose of the Statement of Net Position, cash and cash equivalents are considered to be cash on hand, demand deposits, and cash with fiscal agents.

Investments are generally reported at fair value. Short-term investments are reported at cost, which approximates fair value. For investments, the District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Receivables

In the government-wide financial statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivables balances for governmental activities include intergovernmental.

Deferred Outflows/Inflows of Resources

Deferred outflow/inflow of resources represents a consumption/acquisition of net assets that applies to a future period and therefore will not be recognized as an outflow of resources (expense)/inflow of resources (revenue) until that future time.

Capital Assets

Capital assets purchased or acquired with an original cost of \$10,000 or more, depending on asset class, are reported at historical cost or estimated historical cost. Contributed assets are reported at acquisition value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. General capital assets are long-lived assets of the District as a whole. When purchased, such assets are recorded as expenditures in the governmental funds and capitalized. The valuation basis for general capital assets is historical cost, or where historical cost is not available, estimated historical costs based on replacement costs.

Depreciation on all assets is computed and recorded using the straight-line method of depreciation over the following estimated useful lives:

Land Improvements	10 - 20 Years
Buildings	7 - 40 Years
Equipment	3 - 20 Years
Transportation Equipment	8 Years

BENSENVILLE ELEMENTARY SCHOOL DISTRICT NO. 2

Notes to the Financial Statements

June 30, 2026

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION - Continued

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expenses at the time of issuance.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Net Position

In the government-wide financial statements, equity is classified as net position and displayed in three components:

Net Investment in Capital Assets - Consists of capital assets, including restricted capital assets, net of accumulated depreciation, and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted - Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislations.

Unrestricted - All other net position balances that do not meet the definition of "restricted" or "net investment in capital assets."

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumption that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 - DETAIL NOTES ON ALL FUNDS

INTERFUND TRANSFERS

Transfers are used to use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Transfer In	Transfer Out	Amount
Nonmajor Governmental	Education - General	<u>\$ 650,000</u>

BENSENVILLE ELEMENTARY SCHOOL DISTRICT NO. 2

Notes to the Financial Statements

June 30, 2026

NOTE 2 - DETAIL NOTES ON ALL FUNDS - Continued

PROPERTY TAXES

Property taxes for June 30, 2025 attach as an enforceable lien on January 1, on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by the County and are payable in two installments, on or about June 1 and September 1. The County collects such taxes and remits them periodically.

PERSONAL PROPERTY REPLACEMENT TAXES

Personal property replacement tax revenues are first allocated to the extent required by Illinois law in the Municipal Retirement/Social Security Fund with the balance allocated to funds at the discretion of the District.

DEPOSITS AND INVESTMENTS

Under State law, limits are imposed as to investments in commercial paper, corporate bonds, and mutual funds in which the District may invest, as well as the Illinois School District Liquid Asset Fund Plus (ISDLAF+) and Illinois Funds.

The ISDLAF+ is a non-profit investment trust formed pursuant to the Illinois Municipal Code and managed by a Board of Trustees elected from participating members. It is not registered with the SEC as an investment company. Investments are sold valued at share price, which is the price for which the investment could be sold.

Deposits. At year-end, the carrying amount of the District's deposits totaled \$18,767,390 and the bank balances totaled \$19,027,760.

Investments. The District has the following investment fair values and maturities:

Investment Type	Fair Value	Investment Maturities (in Years)			
		Less Than 1	1-5	6-10	More Than 10
U.S. Treasury Obligations	\$ 4,183,309	4,183,309	—	—	—
U.S. Agency Obligations	250,000	250,000	—	—	—
Municipal Bonds	200,191	200,191	—	—	—
ISDLAF+	17,322,226	17,322,226	—	—	—
Totals	21,955,726	21,955,726	—	—	—

The District has the following recurring fair value measurements as of June 30, 2026:

- U.S. Treasury Obligations of \$4,183,309 are valued using a matrix pricing model (Level 1 inputs)
- U.S. Agency Obligations of \$250,000 are valued using a matrix pricing model (Level 2 inputs)
- Municipal Bonds of \$200,191 are valued using a matrix pricing model (Level 2 inputs)
- ISDLAF+ of \$17,322,226 which is measured at net asset value per share as determined by the pool

Debt Securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

BENSENVILLE ELEMENTARY SCHOOL DISTRICT NO. 2

Notes to the Financial Statements

June 30, 2026

NOTE 2 - DETAIL NOTES ON ALL FUNDS - Continued

DEPOSITS AND INVESTMENTS - Continued

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the value of an investment. The District's investment policy states that the investment portfolio shall provide liquidity to pay the District's obligations as they become due. In this regard, the maturity and marketability of investments shall be considered.

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Besides investing in security instruments authorized under State Statute, the District's investment policy further states that safety of principal is the foremost objective of the District. At year-end, the District's investments in U.S. Agency Obligations were rated AA+ by Standard & Poor's, municipal bonds were rated AAA to AA by Standard & Poor's and ISDLAF+ was rated AAAM by Standard & Poor's.

Custodial Credit Risk - Deposits. With respect to deposits, custodial credit risk refers to the risk that, in the event of a bank failure, the District's deposits may not be returned to it. The District's investment policy states that all amounts deposited with financial institutions in excess of any insurance limit shall be collateralized in accordance with the Public Funds Investment Act, 30 ILCS235/2. The Superintendent or designee shall keep the Board informed of collateral agreements. At year-end, the entire amount of the bank balance of deposits was covered by collateral, federal depository or equivalent insurance.

Custodial Credit Risk - Investments. For an investment, this is the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District's investment policy states that all amounts invested with financial institutions in excess of any insurance limit shall be collateralized in accordance with the Public Funds Investment Act, 30 ILCS235/. At year end, the District investments in ISDLAF+ were not subject to custodial credit risk.

Concentration of Credit Risk. This is the risk of loss attributed to the magnitude of the District's investment in a single issuer. The District's investment policy requires that the investment portfolio is diversified as to materials and investments, as appropriate to the nature, purpose, and amount of the funds. At year-end, the District does not have any investments over 5 percent of the total cash and investment portfolio (other than investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments).

NOTE RECEIVABLE

The District entered into an intergovernmental agreement with the Bensenville Community Public Library during the year ended June 30, 2022. Under the terms of the agreement, the District advanced \$332,968 to the Library. The Library will repay the loan in five annual payments of \$60,000, plus interest at an average rate of approximately 2.00%, with a final balloon payment of unpaid principal and interest due on July 1, 2027. The note receivable balance at June 30, 2026 was \$92,968.

BENSENVILLE ELEMENTARY SCHOOL DISTRICT NO. 2

Notes to the Financial Statements

June 30, 2026

NOTE 2 - DETAIL NOTES ON ALL FUNDS - Continued

LONG-TERM OBLIGATIONS - Continued

Legal Debt Margin

The District is subject to the Illinois School Code, which limits the amount of certain indebtedness to 6.9% of the most recent available equalized assessed valuation of the District. At year-end the legal debt margin is as follows:

Assessed Valuation - 2025	<u>\$ 958,590,144</u>
Legal Debt Limit - 6.9% of Assessed Value	66,142,720
Amount of Debt Applicable to Limit	<u>35,496,000</u>
Legal Debt Margin	<u>30,646,720</u>

FUND BALANCE CLASSIFICATIONS

In the governmental fund financial statements, the District considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The District first utilizes committed, then assigned and then unassigned fund balance when an expenditure is incurred for purposes for which all three unrestricted fund balances are available.

Nonspendable Fund Balance. Consists of resources that cannot be spent because they are either: a) not in a spendable form; or b) legally or contractually required to be maintained intact.

Restricted Fund Balance. Consists of resources that are restricted to specific purposes, that is, when constraints placed on the use of resources are either: a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance. Consists of resources constrained (issuance of an ordinance) to specific purposes by the government itself, using its highest level of decision-making authority, the Board of Education; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint.

Assigned Fund Balance. Consists of amounts that are constrained by the Board of Education's intent to be used for specific purposes but are neither restricted nor committed. Intent is expressed by a) the Board of Education itself or b) a body or official to which the Board of Education has delegated the authority to assign amounts to be used for specific purposes. The District's highest level of decision-making authority is the Board of Education, who is authorized to assign amounts to a specific purpose.

Unassigned Fund Balance. Consists of residual net resources of a fund that has not been restricted, committed, or assigned within the General Fund and deficit fund balances of other governmental funds.

Minimum Fund Balance Policy. The District's policy manual states that the operating funds should maintain a minimum fund balance equal to 15% of operating expenditures.

NET POSITION CLASSIFICATION

Net investment in capital assets was comprised of the following as of June 30, 2026:

Governmental Activities	
Capital Assets - Net of Accumulated Depreciation	\$ 71,810,904
Plus: Unamortized Loss on Refunding	549,750
Less: Capital Related Debt	
General Obligations Bonds	(35,496,000)
Unamortized Premium	<u>(2,313,444)</u>
Net Investment in Capital Assets	<u>34,551,210</u>

BENSENVILLE ELEMENTARY SCHOOL DISTRICT NO. 2

Notes to the Financial Statements

June 30, 2026

NOTE 3 - OTHER INFORMATION

JOINTLY GOVERNED ORGANIZATION

The District and eight other districts within DuPage County are members of the North DuPage Special Education Cooperative (NDSEC) and have entered into a joint agreement to provide special education programs and services to the students enrolled. Each member district has a financial responsibility for annual and special assessments as established by the policy board. The District paid \$1,721,501 to NDSEC for special education and related expenditures during the year ended June 30, 2026. Complete financial statements for NDSEC can be obtained from its business office at 132 E. Pine Ave., Roselle, IL 60172.

RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; thefts of, damage to and destruction of assets; errors and omissions; employee medical coverage; and workers' compensation. For losses related to torts; thefts of, damage to and destruction of assets; and errors and omissions the District carries commercial insurance. For losses related to employee medical coverage and workers' compensation, the District has joined with other selected governments to form externally administered insurance programs - Educational Benefit Cooperative (EBC) for employee medical coverage and Collective Liability Insurance Cooperative (CLIC) for workers' compensation coverage.

EBC's purpose is to administer the employee benefit programs offered by the member districts to their employees. EBC administers the payment of claims that arise under the benefit programs offered by each member district. Monthly medical and dental contributions are estimated by the Plan's administrator in advance of each membership year based upon each district's plan of coverage, estimated enrollment, estimated claim costs and service fees. Complete financial statements for EBC can be obtained from its business office at 6020 W. 151st Street, Oak Forest, IL 60452.

CLIC is used for common risk management and workers' compensation claims. The District pays annual premiums to the pool for insurance coverage. The arrangement with the pool provides that it will be self sustaining through member premiums and will reinsure through commercial companies for claims in excess of certain levels established by the pool.

The amount of coverage has not decreased nor have the amount of settlements exceeded coverage in the current year or any of the past three years.

CONTINGENT LIABILITIES

Litigation

From time to time, the District is party to various pending claims and legal proceedings with respect to employment, civil rights, property taxes and other matters. Although the outcome of such matters cannot be forecasted with certainty, it is the opinion of management and the District attorney that the likelihood is remote that any such claims or proceedings will have a material adverse effect on the District's financial position or results of operations.

Notes to the Financial Statements

June 30, 2026

NOTE 3 - OTHER INFORMATION - Continued

CONTINGENT LIABILITIES - Continued

State and Federal Contingencies

The District has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under the terms of the grant. Management believes such disallowance, if any, would be immaterial.

OTHER POST-EMPLOYMENT BENEFITS

Teachers' Health Insurance Security Fund

Plan Description

The District participates in the Teacher Health Insurance Security (THIS) Fund, a cost-sharing, multiple-employer defined benefit post-employment healthcare plan that was established by the Illinois legislature for the benefit of retired Illinois public school teachers employed outside the City of Chicago. THIS health coverage includes provisions for medical, prescription drug, and behavioral health benefits, but does not provide vision, dental, or life insurance benefits. Annuitants not enrolled in Medicare may participate in the state-administered participating provider option plan or choose from several managed care options. Beginning February 1, 2015, annuitants who were enrolled in Medicare Parts A and B may be eligible to enroll in Medicare Advantage Plans.

Benefits Provided. The State Employees Group Insurance Act of 1971 (5 ILCS 375) outlines the benefit provisions of the THIS Fund, and amendments to the plan can be made only by legislative action with the Governor's approval. The plan is administered by Illinois Department of Central Management Services (CMS) with the cooperation of TRS. Section 6.6 of the State Employees Group Insurance Act of 1971 required all active contributors to TRS, who are not employees of the State, to contribute to the THIS Fund.

The percentage of employer required contributions in the future will not exceed 105 percent of the percentage of salary actually required to be paid in the previous fiscal year.

On Behalf Contributions to THIS Fund. The State of Illinois makes employer retiree health insurance contributions on behalf of the District. State contributions are intended to match contributions to the THIS Fund from active members which were 0.90 percent of pay during the year ended June 30, 2026. State of Illinois contributions were \$186,028, and the District recognized revenues and expenditures of this amount during the year.

Employer Contributions to THIS Fund. The District also makes contributions to THIS Fund. The employer THIS Fund contribution was 0.67 percent during the year ended June 30, 2026. For the year ended June 30, 2026 the District paid \$138,487 to the THIS Fund, which was 100 percent of the required contribution.

Further Information on the THIS Fund. The publicly available financial report of the THIS Fund may be found on the website of the Illinois Auditor General: <https://www.auditor.illinois.gov/Audit-Reports/ABC-List.asp>. The current reports are listed under "Central Management Services." Prior reports are available under "Healthcare and Family Services."

NOTE 3 - OTHER INFORMATION - Continued

OTHER POST-EMPLOYMENT BENEFITS - Continued

Teachers' Health Insurance Security Fund - Continued

Plan Description - Continued

Actuarial Assumptions. The total OPEB liability was determined by an actuarial valuation as of June 30, 2024, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified.

Inflation:	2.25%
Salary Increases:	Depends on service and ranges from 8.50% at 1 year of service to 4.00% at 20 or more years of service.
Investment Rate of Return:	2.75%, net of OPEB plan investment expense, including inflation, for all plan years.
Healthcare Cost Trend Rates:	Trend rates for plan year 2026 are based on actual premium increases. For non-Medicare costs, trend rates start at 8.00% for plan year 2027 and decrease gradually to an ultimate rate of 4.25% in 2042. For MAPD costs, trend rates are based on actual premium increases for 2026, expected increases in 2027 and 2028 and 7.80% in 2029, declining gradually to an ultimate rate of 4.25% in 2041.

Mortality rates for retirement and beneficiary annuitants were based on the PubT-2010 Retiree Mortality Table, adjusted for TRS experience. For disabled annuitants, mortality rates were based on the PubNS-2010 Non-Safety Disabled Retiree Table. Mortality rates for pre-retirement were based on the PubT-2010 Employee Mortality Table. All tables reflect future mortality improvements using Projection Scale MP-2021.

The actuarial assumptions used in the June 30, 2024 valuation were based on the results of an actuarial experience study for the period July 1, 2020 through June 30, 2023.

Notes to the Financial Statements

NOTE 3 - OTHER INFORMATION - Continued

OTHER POST-EMPLOYMENT BENEFITS - Continued

Teachers' Health Insurance Security Fund - Continued

Single Discount Rate

Projected benefit payments were discounted to their actuarial present value using a Single Discount Rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bond with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

Since TRIP is financed on a pay-as-you-go basis, the sponsor has selected a discount rate consistent with the 20-year general obligation bond index described above. The discount rates are 3.97 percent as of June 30, 2024, and 5.20 percent as of June 30, 2025.

The actuarial valuation was based on the Entry Age Normal cost method. Under this method, the normal cost and actuarial accrued liability are directly proportional to the employee's salary. The normal cost rate equals the present value of future benefits at entry age divided by the present value of future salary at entry age. The normal cost at the member's attained age equals the normal cost rate at entry age multiplied by the salary at attained age. The actuarial accrued liability equals the present value of benefits at attained age, less present value of future salaries at attained age, multiplied by normal cost rate at entry age.

Sensitivity of the Employer's Proportionate Share of the Collective Net OPEB Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the collective net OPEB liability, as well as what the District's proportionate share of the collective net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current discount rate:

	1% Decrease (4.20%)	Current Discount Rate (5.20%)	1% Increase (6.20%)
Employer's Proportionate Share of the OPEB Liability	\$ 6,425,493	5,750,069	5,167,772

NOTE 3 - OTHER INFORMATION - Continued

OTHER POST-EMPLOYMENT BENEFITS - Continued

Teachers' Health Insurance Security Fund - Continued

Sensitivity of the Employer's Proportionate Share of the Collective Net OPEB Liability to Changes in the Healthcare Cost Trend Rates

The following table shows the plan's net OPEB liability as of June 30, 2025, using current trend rates and sensitivity trend rates that are either one percentage point higher or lower. The current claims trend rates are 6.00% in 2026, 8.00% in 2027, decreasing to an ultimate trend rate of 4.25% in plan year end 2042. Post-Medicare per capita costs: Based on actual increase in 2026, expected increases in 2027 to 2028, 7.80% in 2029 decreasing ratably to an ultimate trend rate of 4.25% in 2041.

	1% Decrease	Healthcare Cost Trend Rates	1% Increase
Employer's Proportionate Share of the OPEB Liability	\$ 4,989,441	5,750,069	6,675,747

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2026, the District reported a liability for its proportionate share of the net OPEB liability that reflected a reduction for State OPEB support provided to the District. The collective net OPEB liability was measured as of June 30, 2025, and the total OPEB liability used to calculate the collective net OPEB liability was determined by an actuarial valuation as of June 30, 2024. The District's proportion of the collective net OPEB liability was based on a projection of the District's long-term share of contributions to the OPEB plan relative to the projected contributions of the District, actuarially determined. At June 30, 2025, the District's proportion was 0.000640 percent, which was a decrease of 0.000007 from its proportion measured as of June 30, 2024. The State's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

Employer's Proportionate Share of the Net OPEB Liability	\$ 5,750,069
State's Proportionate Share of the Net OPEB Liability Associated with the Employer	<u>7,800,299</u>
Total	<u><u>13,550,368</u></u>

BENSENVILLE ELEMENTARY SCHOOL DISTRICT NO. 2**Notes to the Financial Statements****June 30, 2026****NOTE 3 - OTHER INFORMATION - Continued****OTHER POST-EMPLOYMENT BENEFITS - Continued****Teachers' Health Insurance Security Fund - Continued****OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB - Continued**

For the year ending June 30, 2026, the District recognized OPEB revenue and expense of \$186,028 for support provided by the State. For the year ending June 30, 2026, the District recognized OPEB expense of \$— on a modified cash basis. At June 30, 2026 under the GAAP basis of accounting, the District would have reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources	Totals
Differences Between Expected and Actual Experience	\$ 586,082	(1,725,593)	(1,139,511)
Net Difference Between Projected and Actual Earnings on Pension Investments	132,445	(6,084,912)	(5,952,467)
Changes of Assumptions	806	(10,053)	(9,247)
Changes in Proportion and Differences Between Employer Contributions and Proportionate Share of Contributions	1,984,392	(1,191,250)	793,142
Total Pension Expense to be Recognized in Future Periods	2,703,725	(9,011,808)	(6,308,083)
Employer Contributions Subsequent to the Measurement Date	138,487	—	138,487
Totals	2,842,212	(9,011,808)	(6,169,596)

Under the GAAP basis of accounting, the District would report \$138,487 as deferred outflows of resources related to OPEB resulting from employer contributions subsequent to the measurement date and would be recognized as a reduction of the collective net OPEB liability in the reporting year ended June 30, 2027. In addition, under the GAAP basis of accounting, the District would report deferred outflows of resources and deferred inflows of resources related to OPEB that would be recognized in OPEB expense in future periods as follows:

Fiscal Year	Outflows/ (Inflows) of Resources
2027	\$ (1,564,063)
2028	(1,543,722)
2029	(1,420,359)
2030	(1,092,247)
2031	(797,230)
Thereafter	109,538
Total	(6,308,083)

BENSENVILLE ELEMENTARY SCHOOL DISTRICT NO. 2

Notes to the Financial Statements

June 30, 2026

NOTE 3 - OTHER INFORMATION - Continued

OTHER POST-EMPLOYMENT BENEFITS - Continued

Retiree's Health Plan

The District has evaluated its potential other postemployment benefits liability. Former employees who choose to retain their rights to health insurance through District are required to pay 100% of the current premium. Based upon a review of census data and plan provisions, as well as minimal utilization rates, it has been determined that any liability is immaterial to the financial statements in accordance with GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Additionally, the District provides no explicit benefit. Therefore, the District has not recorded a liability as of June 30, 2026.

RETIREMENT SYSTEMS

The retirement plans of the District include the Teachers' Retirement System of the State of Illinois (TRS) and the Illinois Municipal Retirement Fund (IMRF). Most funding for TRS is provided through payroll withholdings of certified employees and contributions made by the State of Illinois on-behalf of the District. IMRF is funded through property taxes and a perpetual lien of the District's corporate personal property replacement tax. Each retirement system is discussed below.

The aggregate amounts for the pension plans are:

	Pension Expense	Net Pension Liability/ (Asset)	Deferred Outflows of Resources	Deferred Inflows of Resources
Teacher's Retirement System of the State of Illinois	\$ 142,621	1,561,922	312,952	109,054
Illinois Municipal Retirement Fund	280,783	(2,081,669)	127,042	1,347,641
	423,404	(519,747)	439,994	1,456,695

Teachers' Retirement System (TRS)

Plan Descriptions, Provisions and Funding Policies

The District participates in the Teachers' Retirement System of the State of Illinois (TRS). TRS is a cost-sharing multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the City of Chicago. TRS members include all active non-annuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can only be made by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for TRS's administration. TRS issues a publicly available financial report that can be obtained at <https://www.trsil.org/financial/acfrs>; by writing to TRS at 2815 W. Washington, PO Box 19253, Springfield, IL 62794; or by calling 888-678-3675, option 2.

Notes to the Financial Statements

June 30, 2026

NOTE 3 - OTHER INFORMATION - Continued

RETIREMENT SYSTEMS - Continued

Teachers' Retirement System (TRS) - Continued

Benefits Provided

TRS provides retirement, disability, and death benefits. Tier 1 members have TRS or reciprocal system service prior to January 1, 2011. Tier 1 members qualify for retirement benefits at age 62 with five years of service, at age 60 with 10 years, or age 55 with 20 years. The benefit is determined by the average of the four highest consecutive years of creditable earnings within the last 10 years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2 percent of final average salary up to a maximum of 75 percent with 34 years of service.

Tier 2 members qualify for retirement benefits at age 67 with 10 years of service, or a discounted annuity can be paid at age 62 with 10 years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the highest four. Disability provisions for Tier 2 are identical to those of Tier 1. Death benefits are payable under a formula that is different than Tier 1.

Essentially all Tier 1 retirees receive an annual 3 percent increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. Tier 2 annual increases will be the lesser of three percent of the original benefit or one-half percent of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

Public Act 100-0023, enacted in 2017, creates an optional Tier 3 hybrid retirement plan, but it has not yet gone into effect. Public Act 100-0587, enacted in 2018, requires TRS to offer two temporary benefit buyout programs that expire on June 30, 2026. One program allows retiring Tier 1 members to receive a partial lump-sum payment in exchange for accepting a lower, delayed annual increase. The other allows inactive vested Tier 1 and 2 members to receive a partial lump-sum payment in lieu of a retirement annuity. Both programs began in 2019 and are funded by bonds issued by the state of Illinois.

Contributions

The state of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90 percent of the total actuarial liabilities of the System by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2025, was 9.0 percent of creditable earnings. The member contribution, which may be paid on behalf of employees by the employer, is submitted to TRS by the employer.

Notes to the Financial Statements

June 30, 2026

NOTE 3 - OTHER INFORMATION - Continued

RETIREMENT SYSTEMS - Continued

Teachers' Retirement System (TRS) - Continued

Contributions - Continued

On Behalf Contributions to TRS. The State of Illinois makes employer pension contributions on behalf of the employer. For the year ended June 30, 2026, State of Illinois contributions recognized by the employer were based on the State's proportionate share of the collective net pension liability associated with the employer, and the employer recognized revenue and expenditures of \$8,774,990 in pension contributions from the State.

2.2 Formula Contributions. Employers contribute 0.58 percent of total creditable earnings for the 2.2 formula change. The contribution rate is specified by statute. Contributions for the year ended June 30, 2026 were \$119,885 and are deferred because they were paid after the June 30, 2025 measurement date.

Federal and Special Trust Fund Contributions. When TRS members are paid from federal and special trust funds administered by the employer, there is a statutory requirement for the employer to pay an employer pension contribution from those funds. Under Public Act 100-0340, the federal and special trust fund contribution rate is the total employer normal cost beginning with the year ended June 30, 2018.

Previously, employer contributions for employees paid from federal and special trust funds were at the same rate as the state contribution rate to TRS and were much higher.

For the year ended June 30, 2026, the employer pension contribution was 10.34 percent of salaries paid from federal and special trust funds. For the fiscal year ended June 30, 2026, salaries totaling \$219,881 were paid from federal and special trust funds that required employer contributions of \$22,736, which was equal to the District's actual contributions. These contributions are deferred because they were paid after the June 30, 2025 measurement date.

Employer Retirement Cost Contributions. Under GASB Statement No. 68, contributions that an employer is required to pay because of a TRS member retiring are categorized as specific liability payments. The employer is required to make a one-time contribution to TRS for members granted salary increases over 6 percent if those salaries are used to calculate a retiree's final average salary.

A one-time contribution is also required for members granted sick leave days in excess of the normal annual allotment if those days are used as TRS service credit. For the year ended June 30, 2026, the employer paid \$8,187 to TRS for employer contributions due on salary increases in excess of 6 percent, \$3,973 for salary increases in excess of 3 percent and \$0 for sick leave days granted in excess of the normal annual allotment.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2025, the employer reported a liability for its proportionate share of the net pension liability (first amount shown below) that reflected a reduction for state pension support provided to the employer. The state's support and total are for disclosure purposes only. The amount recognized by the employer as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the employer follows below:

Employer's Proportionate Share of the Net Pension Liability	\$ 1,561,922
State's Proportionate Share of the Net Pension Liability Associated with the Employer	<u>125,513,004</u>
Total	<u><u>127,074,926</u></u>

The net pension liability was measured as of June 30, 2025, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2025. The employer's proportion of the net pension liability was based on the employer's share of contributions to TRS for the measurement year ended June 30, 2025, relative to the contributions of all participating TRS employers and the state during that period. At June 30, 2025, the employer's proportion was 0.001800 percent, which was an increase of 0.000068 percent from its proportion measured as of June 30, 2024.

For the year ended June 30, 2026, the employer recognized pension expense of \$8,774,990 and revenue of \$8,774,990 for support provided by the state. For the year ending June 30, 2027, the District recognized pension expense of \$142,621 on a modified cash basis. At June 30, 2026 under the GAAP basis of accounting, the employer would have reported deferred outflows of resources and deterred inflows of resources related to pension from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources	Totals
Differences Between Expected and Actual Experience	\$ 4,358	(2,502)	1,856
Net Difference Between Projected and Actual Earnings on Pension Investments	—	(22,295)	(22,295)
Changes of Assumptions	16,208	(301)	15,907
Changes in Proportion and Differences Between Employer Contributions and Proportionate Share of Contributions	149,765	(83,956)	65,809
Total Pension Expense to be Recognized in Future Periods	170,331	(109,054)	61,277
Employer Contributions Subsequent to the Measurement Date	142,621	—	142,621
Totals	<u>312,952</u>	<u>(109,054)</u>	<u>203,898</u>

Teachers' Retirement System (TRS) - Continued

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - Continued

Under the GAAP basis of accounting, the District would report \$142,621 as deferred outflows of resources related to pensions resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the reporting year ended June 30, 2027. Under the GAAP basis of accounting, other amounts would be reported as deferred outflows of resources and deferred inflows of resources related to pensions and would be recognized in pension expense as follows:

Fiscal Year	Net Deferred Outflows of Resources
2027	\$ 12,513
2028	15,713
2029	18,003
2030	7,758
2031	7,290
Thereafter	—
Total	<u>61,277</u>

Actuarial Assumptions

The total pension liability in the June 30, 2025 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation: 2.50 Percent

Salary Increases: Varies by Amount of Service Credit

Investment Rate of Return: 7.00 Percent, Net of Pension Plan Investment Expense, Including Inflation

Mortality rates were based on the PubT-2010 mortality table, reflecting adjustments for TRS experience, with generational improvement based on the 2024 Adjusted Scale MP-2021.

NOTE 3 - OTHER INFORMATION - Continued

RETIREMENT SYSTEMS - Continued

Teachers' Retirement System (TRS) - Continued

Actuarial Assumptions - Continued

The long-term (20-year) expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global Equity	37.0%	4.6%
Private Equity	15.0%	7.9%
Public Income	15.0%	3.5%
Private Credit	8.0%	6.7%
Real Assets	16.0%	4.8%
Infrastructure/Other Assets	2.0%	5.4%
Diversifying Strategies	6.0%	2.8%
Cash Equivalents	1.0%	0.3%
Total	100.0%	

Discount Rate

At June 30, 2025, the discount rate used to measure the total pension liability was 7.0 percent, which was the same as the June 30, 2024 rate. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions, and state contributions will be made at the current statutorily-required rates.

Based on those assumptions, TRS's fiduciary net position at June 30, 2025 was projected to be available to make all projected future benefit payments to current active and inactive members and all benefit recipients. Tier 1's liability is partially funded by Tier 2 members, as the Tier 2 member contribution is higher than the cost of Tier 2 benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. All projected future payments were covered, so the long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Employer's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the employer's proportionate share of the net pension liability calculated using the discount rate of 7.00 percent, as well as what the employer's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage-point lower or one percentage-point higher than the current rate.

	1% Decrease (8.00%)	Current Discount Rate (7.00%)	1% Increase (6.00%)
Employer's Proportionate Share of the OPEB Liability	\$ 1,943,053	1,561,922	1,245,665

TRS Fiduciary Net Position

Detailed information about the TRS's fiduciary net position as of June 30, 2025 is available in the separately issued TRS *Annual Comprehensive Financial Report*.

Illinois Municipal Retirement Fund (IMRF)

Plan Descriptions

Plan Administration. The District's defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The District's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a defined benefit agent multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Annual Comprehensive Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

NOTE 3 - OTHER INFORMATION - Continued

RETIREMENT SYSTEMS - Continued

Illinois Municipal Retirement Fund (IMRF) - Continued

Plan Descriptions - Continued

Benefits Provided. IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three IMRF benefit plans have two tiers. Employees hired *before* January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lesser of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Plan Membership. As of December 31, 2025, the measurement date, the following employees were covered by the benefit terms:

Inactive Plan Members Currently Receiving Benefits	161
Inactive Plan Members Entitled to but not yet Receiving Benefits	254
Active Plan Members	<u>150</u>
Total	<u><u>565</u></u>

Illinois Municipal Retirement Fund (IMRF) - Continued

Plan Descriptions - Continued

Contributions. As set by statute, the District's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. For the fiscal year ended June 30, 2026, the District's contribution was 4.35% of covered payroll.

Net Pension (Asset). The District's net pension (asset) was measured as of December 31, 2025. The total pension liability used to calculate the net pension (asset) was determined by an actuarial valuation as of that date.

Actuarial Assumptions. The total pension liability was determined by an actuarial valuation performed, as of December 31, 2025, using the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Fair Value
Actuarial Assumptions	
Interest Rate	7.25%
Salary Increases	2.85% to 13.75%
Cost of Living Adjustments	2.75%
Inflation	2.25%

For non-disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 108.0%) and Female (adjusted 106.4%) tables, and future mortality improvements projected using scale MP-2021. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2021. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2021.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

BENSENVILLE ELEMENTARY SCHOOL DISTRICT NO. 2

Notes to the Financial Statements

June 30, 2026

NOTE 3 - OTHER INFORMATION - Continued

RETIREMENT SYSTEMS - Continued

Illinois Municipal Retirement Fund (IMRF) - Continued

Plan Descriptions - Continued

Actuarial Assumptions - Continued.

Asset Class	Target	Long-Term Expected Real Rate of Return
Fixed Income	24.00%	4.75%
Domestic Equities	32.50%	7.35%
International Equities	18.00%	7.45%
Real Estate	10.50%	6.25%
Blended	14.00%	3.90% - 8.50%
Cash and Cash Equivalents	1.00%	3.00%

Discount Rate

The discount rate used to measure the total pension liability was 7.25%, the same as the prior valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that District contributions will be made at rates equal to the difference between the actuarially determined contribution rates and the member rate. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all project future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

Discount Rate Sensitivity

The following is a sensitivity analysis of the net pension liability/(asset) to changes in the discount rate. The table below presents the net pension liability/(asset) of the District calculated using the discount rate as well as what the District's net pension liability/(asset) would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

	1% Decrease (6.25%)	Current Discount Rate (7.25%)	1% Increase (8.25%)
Net Pension Liability/(Asset)	\$ 436,135	(2,081,669)	(4,090,359)

BENSENVILLE ELEMENTARY SCHOOL DISTRICT NO. 2

Teacher's Health Insurance Security Fund Schedule of Employer Contributions - Continued June 30, 2026

Notes to the Schedule of Employer Contributions

Valuation Date	6/30/2024
Measurement Date	6/30/2025
Sponsor's Fiscal Year End	6/30/2026

Methods and Assumptions Used to Determine Actuarial Liability and Contributions:

Actuarial Cost Method	Entry Age Normal, used to measure the Total OPEB Liability
Contribution Policy	Benefits are financed on a pay-as-you go basis. Contribution rates are defined by statute. For fiscal year end June 30, 2025, contribution rates are 0.90% of pay for active members, 0.67% of pay for school districts, and 0.90% of pay for the State. Retired members contribute a percentage of premium rates. The goal of the policy is to finance current year costs plus a margin for incurred but not paid plan costs.
Asset Valuation Method	Fair Value
Investment Rate of Return	2.75%, net of OPEB plan investment expense, including inflation for all plan years.
Inflation	2.25%
Salary Increases	Depends on service and ranges from 8.50% at 1 year of service to 4.00% at 20 or more years of service.
Retirement Age	Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the actuarial valuation as of June 30, 2024.
Mortality	Retirement and Beneficiary Annuitants: PubT-2010 Retiree Mortality Table, adjusted for TRS experience. Disabled Annuitants: PubNS-2010 Non-Safety Disabled Retiree Table. Pre-Retirement: PubT-2010 Employee Mortality Table. All tables reflect future mortality improvements using Projection Scale MP-2021.
Healthcare Cost Trend Rates	Trend rates for plan year 2026 are based on actual premium increases. For non-Medicare costs, trend rates start at 8.00% for plan year 2027 and decrease gradually to an ultimate rate of 4.25% in 2042. For MAPD costs, trend rates are based on actual premium increases for 2026, expecting increases in 2027 and 2028 and 7.80 in 2029, declining gradually to an ultimate rate of 4.25% in 2041.
Aging Factors	Based on the 2013 SOA Study "Health Care Costs - From Birth to Death".
Expenses	Health administrative expenses are included in the development of the per capita claims costs. Operating expenses are included as a component of the Annual OPEB Expense.

Notes:

The amounts presented were determined as of the prior fiscal-year end.

For the 2024-2025 measurement years, the assumed investment rate of return was of 7.0 percent, including an inflation rate of 2.50 percent and a real return of 4.50 percent. Salary increases were assumed to vary by service credit. These actuarial assumptions were based on an experience study dated August 16, 2024.

For the 2022-2023 and 2020-2016 measurement years, the assumed investment rate of return was 7.0, including an inflation rate of 2.50% and a real return of 4.50%. For the 2021 measurement year, the assumed investment rate of return was 7.0%, including an inflation rate of 2.25% and a real return of 4.75%. Salary increases were assumed to vary by service credit. The assumptions used for the 2023-2021, 2020-2018 and 2017-2016 measurement years were based on an experience study dated September 30, 2021, September 18, 2018 and August 13, 2015, respectively.

For the 2021 measurement year, the assumed investment rate of return was 7.0, including an inflation rate of 2.25 percent and a real return of 4.75 percent.

INDIVIDUAL FUND DESCRIPTIONS

GENERAL FUND

The General Fund is used to account for all financial resources except those required to be accounted for in another fund. The General Fund includes the Educational, Operations and Maintenance, Tort Immunity, and Working Cash Accounts.

SPECIAL REVENUE FUNDS

The Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than fiduciary funds or capital project funds) that are legally restricted to expenditure for specified purposes.

Transportation Fund

The Transportation Fund is used to account for revenues and expenditures made for student transportation. Revenues are derived primarily from local property taxes and state reimbursement grants.

Municipal Retirement/Social Security Fund

The Municipal Retirement/Social Security Fund is used to account for the District's portions of pension contributions to the Illinois Municipal Retirement Fund, payment to Medicare, and payments to the Social Security System for noncertified employees. Revenues to finance contributions are derived primarily from local property taxes and personal property replacement taxes.

DEBT SERVICE FUND

The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs. The primary revenue source is local property taxes levied specifically for debt service and transfers from other funds.

CAPITAL PROJECTS FUNDS

The Capital Projects Fund is used to account for financial resources that are restricted, committed, or assigned to be used for the acquisition or construction of, and/or additions to, major capital facilities.

Fire Prevention and Life Safety Fund

The Fire Prevention and Life Safety Fund is used to account for state-approved life safety projects financed through bond issues or local property taxes levied specifically for such purposes.

Notes to the Required Supplementary Information

June 30, 2026

BUDGETARY INFORMATION

The budget is prepared on the modified cash basis of accounting for all governmental funds, which is an acceptable method as prescribed by the Illinois State Board of Education, and is the same basis that is used for financial reporting. The budget appropriations lapse at the end of each fiscal year. The District does not utilize an encumbrance system. The District follows these procedures in establishing the budgetary data reflected in the financial statements.

- The administration submits to the Board of Education a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them.
- Public hearings are conducted and the proposed budget is available for inspection to obtain taxpayer comments.
- Prior to September 30, the budget is legally adopted through passage of a resolution. Prior to the last Tuesday in December, a tax levy resolution is filed with the DuPage County Clerk to obtain tax revenues.
- The Superintendent is authorized to transfer up to 10% of the total budget between departments within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the Board of Education. The level of control (level at which expenditures may not exceed budget/appropriations) is the fund.
- Formal budgetary integration is employed as a management control device during the year.
- The Board of Education may amend the budget (in other ways) by the same procedures required of its original adoption. The budget was amended during the year.

EXCESS OF ACTUAL EXPENDITURES OVER BUDGET IN INDIVIDUAL FUND

The following fund had an excess of actual expenditures over budget as of the date of this report:

Fund	Excess
Educational Account - General	\$ 305,903
