Opinions

Norman M. Sassi, CPA
Walter J. Jung, CPA

We have audited the accompanying financial statements of the governmental activities, each major fund and the fiduciary fund, of the Wallkill Central School District, as of and for the year ended June 30, 2026, and the related notes to the financial statements, which collectively comprise Wallkill Central School District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the fiduciary fund, of the Wallkill Central School District, as of June 30, 2026, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Wallkill Central School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note 3 to the financial statements, management has adopted Governmental Accounting Standards Board Statement No. 103, Financial Reporting Model Improvements. Our opinion is not modified with respect to that matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Wallkill Central School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Wallkill Central School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Wallkill Central School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and required supplemental information on pages 4 through 20 and 81 through 87 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by

the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Wallkill Central School District's basic financial statements. The supplemental schedules on pages 88 through 90 are required by the New York State Education Department and are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental schedules on pages 88 through 90 and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 13, 2026 on our consideration of the Wallkill Central School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Wallkill Central School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Wallkill Central School District's internal control over financial reporting and compliance.

WALLKILL CENTRAL SCHOOL DISTRICT

Management Discussion and Analysis

1. Overview of the Financial Statements

The following is a discussion and analysis of Wallkill Central School District's financial performance for the year ended June 30, 2026. The section is a summary of the Wallkill Central School District's financial activities based on currently known facts, decisions, or conditions. It is also based on both the district-wide and fund-based financial statements. The results of the current year are discussed in comparison with the prior year, with an emphasis placed on the current year. This section is only an introduction and should be read in conjunction with the District's financial statements, which immediately follow this section.

This annual report consists of three parts: MD&A (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *district-wide* financial statements that provide both *short-term* and *long-term* information about the District's overall financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the District, reporting the District's operations in *more detail* than the district-wide statements.
- The *governmental funds statements* tell how basic services such as regular and special education were financed in the short term as well as what remains for future spending.
- *Fiduciary funds* statements provide information about the financial relationships in which the District acts solely as a *trustee* for the benefit of others.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by sections of required supplementary information and supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year among other schedules.

WALLKILL CENTRAL SCHOOL DISTRICT

**Management Discussion and Analysis
(Continued)**

1. Overview of the Financial Statements (Continued)

The following table summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain. The remainder of this overview section of MD&A highlights the structure and contents of each of the statements.

Major Features of the District-Wide and Fund Financial Statements			
	District-Wide	Fund Financial Statements	
		Governmental Funds	Fiduciary Funds
Scope	Entire District (except fiduciary funds)	The activities of the District that are not proprietary or fiduciary, such as special education and building maintenance	Instances in which the District administers resources on behalf of someone else, such as scholarship programs
Required financial statements	• Statement of Net Position • Statement of Activities	• Balance Sheet • Statement of Revenues, Expenditures, and Changes in Fund Balances	• Statement of Fiduciary Net Position • Statement of Changes in Fiduciary Net Position
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial focus	Accrual accounting and economic resources focus
Type of asset/deferred outflows of resources/liability/deferred inflows of resources information	All assets, deferred outflows of resources, liabilities and deferred inflows of resources both financial and capital, short-term and long-term	Generally, assets and deferred outflows of resources expected to be used up and liabilities and deferred inflows of resources that come due or available during the year or soon thereafter; no capital assets or long-term liabilities included	All assets, deferred outflows of resources (if any), liabilities, and deferred inflows of resources (if any) both short-term and long-term; funds do not currently contain capital assets, although they can
Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due and payable	All additions and deductions during the year, regardless of when cash is received or paid

WALLKILL CENTRAL SCHOOL DISTRICT

Management Discussion and Analysis (Continued)

1. Overview of the Financial Statements (Continued)

District-Wide Financial Statements

The district-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two district-wide statements report the District's net position and how it has changed. Net position, the difference between the District's assets and liabilities, is one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net position is an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the District's overall health, you need to consider additional nonfinancial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the district-wide financial statements, the District's activities are shown as *Governmental activities*: Most of the District's basic services are included here, such as regular and special education, transportation, and administration. Property taxes and State formula aid finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by State law and by bond covenants.
- The District establishes other funds to control and to manage money for particular purposes (such as repaying its long-term debt) or to show that it is properly using certain revenues (such as Federal grants).

The District has two types of funds:

- **Governmental Funds:** Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, additional information disclosed in Note 2 explains the relationship (or differences) between them.
- **Fiduciary Funds:** The District is the trustee, or fiduciary, for assets that belong to others, such as the scholarship fund. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The District excludes these activities from the district-wide financial statements because it cannot use these assets to finance its operations.

WALLKILL CENTRAL SCHOOL DISTRICT

**Management Discussion and Analysis
(Continued)**

1. Overview of the Financial Statements (Continued)

Notes and required supplementary information

The notes to the financial statements provide additional detail necessary to understand the amounts reported in the basic financial statements. Required supplementary information includes budgetary comparison information for the General Fund and other schedules required by generally accepted accounting principles.

2. Financial Summary

Beginning of year net position decreased by \$398,781 from (\$143,636,717) to (\$144,035,498) at June 30, 2026. The following table provides a summary of the District's net position:

Summary of Net Position

	School District Activities			% Change
	June 30, 2026	June 30, 2025	(Decrease)	
Current Assets	\$ 60,011,325	\$ 58,760,812	\$ 1,250,513	2.13%
Non Current Assets	79,094,748	68,795,582	10,299,166	14.97%
Total Assets	139,106,073	127,556,394	11,549,679	9.05%
Deferred Outflows of Resources	31,489,072	32,817,660	(1,328,588)	-4.05%
Current Liabilities	15,997,058	24,050,705	(8,053,647)	-33.49%
Long-Term Liabilities	237,548,941	203,934,876	33,614,065	16.48%
Total Liabilities	253,545,999	227,985,581	25,560,418	11.21%

Unrestricted, (As Restated)	(225,812,780)	(214,971,252)	(10,841,528)	-5.04%
Total Net Position	<u>\$ (144,035,498)</u>	<u>\$ (143,636,717)</u>	<u>\$ (398,781)</u>	-0.28%

WALLKILL CENTRAL SCHOOL DISTRICT

Management Discussion and Analysis (Continued)

2. Financial Summary (Continued)

The increase in total net position reflects the following factors:

- Capital assets increased due to current year additions exceeding depreciation and amortization expense.
- Long-term liabilities decreased due to scheduled bond and installment principle debt repayments, and actuarially determined post-employment benefit obligations and pension-related balances decreased.
- The District approved a transfer from the ERS Reserve to the capital reserve to assist in funding future capital work . The District is still able to maintain a solid financial plan with the transfer from the ERS Reserve Fund and this will position the District for the future. In addition, some areas saw some increases in expenses such as special education due to additional students transferring into the District. There is always ebbs and flows within the special education department but this will be monitored. Additionally, the District has a decrease in fund balance in the employee benefits area as the District did not receive a premium holiday from one of its health insurance providers as well as in the fuel budget codes due to increased fuel costs part way through the year. Overall the District is able to control its expenses each year.

The District's unrestricted net position remained negative, which is common for governmental entities with significant long-term obligations related to pensions, other post-employment benefits, and debt issuances for capital projects. The negative unrestricted balances does not indicate a short-term liquidity problem in the General Fund; rather, it reflects the full accrual reporting of obligations that will be paid over time.

NET COSTS 2025-2026

NET COSTS 2024-2025

WALLKILL CENTRAL SCHOOL DISTRICT
Management Discussion and Analysis
(Continued)

2. Financial Summary (Continued)

The increase in expenses was driven primarily by:

- Collectively bargained salary step and contractual increases;
- Higher health insurance premiums and other employee benefit costs as well as not having a premium holiday
- Transportation and fuel related cost increases
- Expanded special education and student support services;
- Increased fuel costs due to a colder winter that caused increased fuel consumption as well as additional plowing expenses
- Deprecation associated with completed capital projects.

These costs increases were partly offset by lower interest expense as older debt matured and higher portions of the district's outstanding bonds moved further into their amortization schedules. The district also was able to invest some funds that increased some revenue.

Selected Governmental Fund Highlights

The district's governmental funds are reported in the fund statements with a modified accrual basis that uses a short-term, inflow and outflow of spendable resources focus. This information is useful in assessing resources available at the end of the year in comparison with upcoming financial requirements. The major governmental funds of the district consist of the General Fund, Special Aid Fund, School Lunch Fund, Debt Service Fund, Capital Projects Fund and Miscellaneous Special Revenue Fund. The total fund balances allocated between non-spendable, restricted, assigned, and unassigned fund balance for each of these funds is as follows:

	June 30, 2026				
	Nonspendable	Restricted	Assigned	Unassigned	Total
General	\$ 0	37,856,490	\$ 2,145,453	\$ 3,845,037	\$ 43,846,980
Special Aid	0	16,936	0	0	16,936
School Lunch	2,802	1,030,329	0	0	1,033,131

WALLKILL CENTRAL SCHOOL DISTRICT
Management Discussion and Analysis
(Continued)

2. Financial Summary (Continued)

General Fund Balance – Increased \$1,228,042 from \$42,618,938 to \$43,846,980 primarily due to the district's investments and sound financial planning. Additionally, there were several instructional staff that were out for a portion of the year that caused the district to bring in substitute teachers, which had lower expenses. Additionally, we had positions in the budget that were not filled due to hiring circumstances. Finally, the District is conservative when budgeting to plan for unexpected expenses throughout the year.

Special Aid Fund ended the year with a fund balance of \$16,936. The revenues of this fund are expenditure driven meaning that the District receives funds based on the amount of expenditures for each grant. The District is responsible for paying 20% of the expenditures of the Summer Handicap program and as such transferred \$229,279 from the General Fund budgeted amounts to the Special Aid Fund to cover these costs for the current year. The District is always conservative when estimating to allow for some variances throughout the year.

School Lunch Fund ended the year with a fund balance of \$1,030,633. The revenues exceeded expenditures by \$2,498. The District contracted Whitson's Culinary Group to provide the lunch services for year 2025-2026. The District has a solid school lunch fund. The district received an administrative review and has been found to be in solid financial position. The District did receive notification to spend funds down in the school lunch fund and the district has purchased a food taster as well as other equipment and other cafeteria modifications. The District still has a solid school lunch fund balance and due to the District being a CEP district we have received additional revenue due to all students being free and additional reimbursement.

Capital Projects Fund ended the year with a deficit fund balance of \$3,176,883. Capital expenditures for the fiscal year totaled \$8,610,276. The district obtained permanent financing for the projects in the amount of a \$14,560,000 serial bond. This was planned but the district is working with its financial advisor to ensure funding is correct and will look at permanent financing in June of 2027.

Debt Service Fund ended the year with a fund balance of \$1,598,074. Revenue consisted of interest earnings and premiums on obligations of \$775,939 which was offset by the use of \$240,000 transfer to the General Fund to be used for 25/26 principal and interest payments. The remaining fund balance will be appropriate in future years to offset future principal and interest payments. The district will work with its financial advisors when doing future budgeting, but this fund will assist the district in future budgets.

Miscellaneous Special Revenue Fund ended the year with a fund balance of \$280,420. Revenues exceeded expenditures by \$8,817.

3. Detailed Analysis

District-wide results of operations

Revenues

In terms of revenues the District did receive additional State Aid from the previous fiscal year as anticipated as well as the tax base increased as projected and budgeted. The revenues increased in two areas as the while we accounted for some increase in interest earnings, we did better than expected in our investments. This increase allowed for some excess revenue that aided the District, adding to reserve funds.

WALLKILL CENTRAL SCHOOL DISTRICT
Management Discussion and Analysis
(Continued)

3. Detailed Analysis (Continued)

District-wide results of operations (Continued)

Revenues (Continued)

Total revenues increased by \$2,949,070, or 3.14%. The most significant reasons were:

Property tax revenue increased by 2.38%, reflecting a voter-approved levy increase within the limits of New York's tax levy framework and modest growth in the taxable assessed base. For many school districts in New York, property taxes remain the most significant locally generated revenue source. The District will continue to work to be at or below the tax cap each year while maintaining a robust program for the students.

State & Federal aid increased by 6.7%, primarily because of higher operating aid and expense-based aid tied to transportation and building costs. In a New York school district, changes in aid formulas, wealth measures, and aidable expenditures can materially affect year-over-year results. The District will continue to be conservative with its budgeting of State Aid due to uncertainty with the State for future years which assisted in aid increasing.

Charges for services remained consistent with the nature of school district operations, where most major services are financed through taxes, aid, and grants rather than direct user fees. The District will continue to factor in for future increases on a yearly basis. These are maintained monthly and yearly to look for trends.

The Statement of Activities Summary of Changes in Net position highlights the district's continued dependence on property taxes and State aid to support instructional and support programs. As a result, changes in either the local tax base or State funding levels can significantly affect future operations. The district will continue to be diligent when budgeting to balance the needs of the taxpayers as well as the needs of the students. The district will advocate for a consistent funding to allow for more predictable budgeting on a yearly basis.

Expenses

The district must remain diligent to control expenses and analyze revenues due to State funding being uncertain in the future. The State comptroller anticipates the State having a large shortfall in out years therefore the district has planned appropriately and funded positions and programs that can be sustained long term. The one area the district expanded was with the addition of a UPK classroom. The State gave all districts additional funding which allowed the district to add an additional class. While the State has passed language that will require future investments in UPK for all districts the district will have to look for outside agencies to fulfill the new requirements as currently written.

The district's largest function remains instruction, which is typical for school districts. Instruction and related support costs increased mainly because the district added staff in selected special education and intervention areas, experienced salary growth under negotiated agreements, and incurred higher instructional supply and contracted service costs.

WALLKILL CENTRAL SCHOOL DISTRICT
Management Discussion and Analysis
(Continued)

3. Detailed Analysis (Continued)

District-wide results of operations (Continued)

Expenses (Continued)

Pupil transportation costs increased at a faster rate than total expenses in this sample because of contract renewals, fuel and maintenance costs, and the effect of longer average run times associated with route changes. Transportation expenses may also rise when out-of-district placements increase or when driver shortages affect market pricing. The district reached an agreement with its transportation contractor with an extension of its contract for five (5) additional years beginning July 2027. This agreement gives stability to the district and some budgeting predictability for the future. The extension is beneficial to the district based on current renewal rates and will help with the long-term financial stability in the transportation area which currently is volatile.

General support increased because of rising insurance, custodial, utilities, and technology costs, especially in buildings affected by recently completed renovations. Although new or improved facilities may reduce some repair costs over time, they can increase depreciation and short-term operating costs as systems are brought online.

Employee benefits and allocated costs rose because health insurance premiums increased and because actuarial updates affected pension- and OPEB-related expenses. These items can change independently of current-year cash contributions and often create differences between district-wide and governmental fund results. The district does expect employee benefits to increase yearly and will work to budget appropriately to avoid spikes in the budget.

Interest on long-term debt decreased because scheduled principal payments reduced outstanding debt and because older bonds with higher coupons represented a smaller portion of total debt outstanding during the current year. The district will continue to work with its financial advisor to plan accordingly for short- and long-term debt analysis.

Analysis of financial position

Current and other assets

Current and other assets increased primarily because cash and investments held in the General Fund and Capital Projects Fund were higher at year-end and the District received a better return on its investments than anticipated.

- General Fund increased because revenues were received before all year-end liabilities were paid and because operations generated a modest surplus.
- Capital Projects Fund cash increased because bond proceeds and interfund transfers were available ahead of peak construction disbursements.
- State and federal aid receivables increased due to reimbursement timing on grants and expense-based aid.

Capital assets, net

Net capital assets increased by \$5.6 million because current-year additions exceeded annual depreciation. The largest illustrative additions included:

- Electrical upgrades.
- Parking lot reconstruction.
- HVAC additions.
- Other general upgrades throughout the District.

WALLKILL CENTRAL SCHOOL DISTRICT
Management Discussion and Analysis
(Continued)

3. Detailed Analysis (Continued)

Analysis of financial position (Continued)

Capital assets, net (Continued)

For school districts, discussion of roads, bridges, and other traditional infrastructure assets generally is less relevant because those assets usually are not a significant part of district operations. The district works with its facilities Committee to continually allow the district to maintain and enhance its facilities. Currently the District is on a five-year cycle to complete capital work to enhance and maintain its facilities.

Liabilities and deferred inflows/outflows

Total liabilities decreased because reductions in bonded debt were less than the increases in pension- and OPEB-related obligations and by year-end construction-related payables. Deferred outflows and deferred inflows also changed due to actuarial assumptions, differences between expected and actual experience, investment performance, and changes in proportionate pension allocations, all of which are recognized under applicable accounting standards over future periods.

Governmental fund analysis

General Fund Budgetary Highlights

In the General Fund, for the year ended June 30, 2026, actual revenues were greater than revised budgeted revenues by \$1,148,986 or 1.28 % primarily due to \$876,657 additional funds received from interest earnings and \$317,027 of miscellaneous sources primarily from refunds of prior years' expenses from Orange Ulster BOCES. Actual expenditures were less than the revised budgeted expenditures by \$3,833,869 (4.09%). Costs within various budget codes were less than budgeted amounts in particular; the areas of Employee Benefits were less than budgeted by \$1,839,562, Programs for Children with Handicapping Conditions were less than budgeted by \$631,986, Debt Service was less than budgeted by \$385,698, and Pupil Services was less than budgeted by \$238,146. The district works yearly to avoid spikes in its budget that allows for more predictable budgeting. Due to the uncertain markets in investments the district is conservative in what it budgets for revenue but did increase what it expects to receive in 2026-27.

For year 2026-2027, the district has appropriated \$1,925,000 of fund balance to reduce the tax levy and \$2,231,000 in reserves to balance the budget. The district will continue to manage these revenues to ensure that there are sufficient funds available to maintain these revenues and not create a hole in the budget process.

Factors that continue to affect the budget process are as follows:

- New York State Aid revenues are being impacted due to statewide budget constraints.
- Employee Costs and Benefits, such as teachers and employee retirement continue to rise.
- Changes in legislation regarding school finance.
- Impending changes in educational standards.
- Energy costs that are significantly being increased.

Management believes that the budget adopted for 2026-2027 is reasonably adaptable to any adverse changes that may arise based on the above factors. The New York State Legislature enacted legislation, Chapter 97 of the Laws of 2011 that establishes a "property tax cap" on the amount that a school district's property tax levy can increase each year. This legislation specifies that property taxes levied by a school district generally cannot increase by more than two percent, or the rate of inflation, whichever is less. The law does allow school districts to levy an additional amount for certain excludable expenditures. School districts can adopt a tax levy that exceeds the statutory limit, if the budget that is presented to the public is approved by sixty percent of the votes cast.

WALLKILL CENTRAL SCHOOL DISTRICT
Management Discussion and Analysis
(Continued)

4. Significant Capital Asset and Long-Term Financing Activity

Capital asset activity

The district's investment in capital assets, net of accumulated depreciation and amortization, as of June 30, 2026 was \$70,113,160. The total increase in this net investment was 8.73% for the district as a whole. The district's investment in capital assets, net of accumulated depreciation and amortization as of June 30, 2025, was \$64,485,277. The district expended \$7,580,158 to acquire and construct capital assets during the year ended June 30, 2026. Capital assets disposed of during the year cost \$5,359 with accumulated depreciation of \$5,359. Depreciation expense for the year was \$1,922,267. The district acquired right of use assets during the year in the amount of \$102,557. Amortization expense for the current year was \$132,565.

CAPITAL ASSETS
Net of Accumulated Depreciation and Amortization

	School District Activities		
	June 30, 2026	June 30, 2025	% Change
<u>Non-Depreciable Assets:</u>			
Land	\$ 747,060	\$ 747,060	0.00%
Construction in Progress	505,067	9,444,935	-94.65%
<u>Depreciable Assets:</u>			
Land Improvements	13,373	28,749	-53.48%
Building and Improvements	67,145,909	52,692,702	27.43%
Furniture and Equipment	1,253,839	1,127,195	11.24%
Vehicles	106,153	72,869	45.68%
<u>Amortizable Assets:</u>			
Equipment	341,759	371,767	-8.07%
TOTALS	\$ 70,113,160	\$ 64,485,277	8.73%

Management believes these projects address deferred maintenance, improve the useful life of District facilities, and reduce the risk of service disruption. Some projects also are expected to qualify for State building aid, which can partially offset local financing costs over time. The district will continue to analyze its facilities to maintain and enhance its facilities for future generations.

WALLKILL CENTRAL SCHOOL DISTRICT
Management Discussion and Analysis
(Continued)

4. Significant Capital Asset and Long-Term Financing Activity (Continued)

Long Term Financing Activity

The district finances major capital needs primarily through serial bonds, bond anticipation notes converted to permanent financing, and installment purchase obligations depending on project type and timing.

At the end of the year, the District had total bonded and installment purchase debt outstanding of \$26,817,031. This amount is backed by the full faith and credit of the Wallkill Central School District with debt service fully funded by voter approved property taxes. Activity in bonded debt outstanding during the year was as follows:

	<u>Beginning Balance</u>	<u>Issued</u>	<u>Paid</u>	<u>Ending Balance</u>
Refunded Serial Bond - 2020	\$ 195,000	\$ 0	\$ 195,000	\$ 0
Serial Bond	1,810,000	0	235,000	1,575,000
Energy Performance Contract	2,393,248	0	451,217	1,942,031
Serial Bond 06/26/24	9,245,000	0	505,000	8,740,000
Serial Bond 06/23/26	0	14,560,000	0	14,560,000
Total Bonded Debt Outstanding	<u>\$ 13,643,248</u>	<u>\$ 14,560,000</u>	<u>\$ 1,386,217</u>	<u>\$ 26,817,031</u>

Moody's Investors Service (Moody's) has assigned a rating of "A1" to outstanding uninsured bonds of the district. This rating reflects only the view of such rating agency and an explanation of the significance of such rating should be obtained from Moody's Investors Service. There can be no assurance that such rating will not be revised or withdrawn, if in the judgement of Moody's circumstances so warrant. Any change or withdrawal of such rating may have an adverse effect on the market price of the Notes or the availability of a second market for the Notes.

Bond Ratings

Standard & Poor's has assigned a rating of AA to outstanding uninsured bonds of the district. This rating reflects only the view of such rating agency and an explanation of the significance of such rating should be obtained from Moody's Investors Service. There can be no assurance that such rating will not be revised or withdrawn, if in the judgment of Moody's circumstances so warrant. Any change or withdrawal of such rating may have an adverse effect on the market price of the Notes or the availability of a secondary market for the Notes.

The district's net investment in capital assets increased because capital additions exceeded depreciation and debt retired during the year was more than the portion of new borrowing attributable to assets not yet placed in service.

Debt management remains an important financial consideration for school districts because building needs are long-term in nature and often must be coordinated with voter authorization, State building aid exceptions, construction schedules, and statutory debt limits. As stated previously, the district continues to evaluate its facilities and has been on a five-year cycle to complete capital work. The community has been supportive of this plan, and the district will begin to plan for future work in the coming year.

5. Currently Known Facts, Decisions, or Conditions

GASB 103 requires management to discuss current facts, decisions, or conditions expected to have a significant effect on financial position or results of operations. For school districts, relevant matters often include changes in the property tax base, student enrollment, and federal and State funding or education requirements. The district analyzes these on a regular basis, looking at monthly expenses as well as end of year trends and trends in certain areas such as health insurance.

WALLKILL CENTRAL SCHOOL DISTRICT
Management Discussion and Analysis
(Continued)

5. Currently Known Facts, Decisions, or Conditions (Continued)

At the date of this report, the district is aware of the following illustrative matters that may affect future financial results:

Enrollment and program demand

District enrollment has remained generally stable in the aggregate, but grade-level shifts have affected staffing and program delivery. In this sample, elementary enrollment has declined modestly while secondary enrollment has increased. In addition, demands for special education, student mental health services, multilingual learner support, and intervention services continue to place pressure on staffing and contracted service budgets. If these trends continue, the district may need to realign staffing, classroom utilization, and transportation routes. The district analyzes its enrollment on a yearly basis and adjusts staffing based on trends that it sees. It tracks staffing and plans accordingly to avoid spikes in staffing and plans for future years when planning for the current year.

Property tax base and local revenue capacity

The district's future local revenue growth depends in part on changes in assessed valuation, equalization factors, taxpayer composition, and the practical limits imposed by New York's tax levy environment. Slower growth in the tax base, successful assessment challenges, or economic softening in major commercial parcels could constrain future levy capacity and increase reliance on expenditure control or reserve planning. The district has been at or below the tax cap every year of the tax cap and that will continue to be a goal each budget cycle. The district will control what it can do and plan accordingly for future years.

State aid and federal funding

Because the District relies heavily on State aid, future operating results are sensitive to aid formula changes, State budget conditions, and the timing of aid payments. Federal grant funding also remains important for certain instructional and support programs. The expiration of temporary grants or changes in reimbursement rules could require the district to reduce programming, identify alternate funding sources, or absorb costs in the General Fund. The district is always conservative in factoring State Aid as it can be unpredictable. The district will advocate for stable funding from the State as it has done in the past that will allow for better District budget planning.

Labor, benefits, and inflationary pressures

The district expects continued pressure from negotiated salary increases, health insurance cost trends, retirement system contribution rate changes, utility inflation, and transportation market conditions. These costs may grow faster than recurring revenues unless offset by efficiency measures, staffing adjustments, or additional aid. All three (3) bargaining units are under contract. The WAA and the District have terms that run through June 30, 2027. The Teachers (WTA) have terms that run through June 30, 2026, but the District and the WTA approved a new extension for an additional three (3) years commencing July 1, 2026. The CSEA (non-instructional) has terms that run through June 30, 2027. The district has begun discussions with the WAA and CSEA about new contracts as they are due to expire on June 30, 2027.

WALLKILL CENTRAL SCHOOL DISTRICT
Management Discussion and Analysis
(Continued)

5. Currently Known Facts, Decisions, or Conditions (Continued)

Capital planning and debt service

The district expects construction activity to continue into the next fiscal year on projects already authorized. As projects progress, construction-in-progress will convert to depreciable assets, and annual depreciation expense will increase. Depending on final project cash flow and reimbursement timing, the district may also issue additional debt or short-term financing authorized for the capital program. Management will continue to evaluate the effect of new borrowing on future debt service and local tax requirements, taking into account anticipated building aid. The district does anticipate completing all capital work during the summer of 2026 so that financing can be completed.

The district is continuing construction within the district and will complete all work in the summer of 2026. The district has been able to complete additional work throughout the district due to strong planning and controlling of costs through the previous phases. The district did submit final cost reports for Phase II and anticipate submitting all final costs reports before June 2027 and then will complete final financing in June 2027. The district recently received AA rating from S&P based on their latest analysis. The district will begin planning for future capital work beginning in early 2027 as debt will be retiring in 2030 which is when planned work would begin if approved by voters. The district is currently targeting a December 2028 vote on future capital work. Finally, the District has established a capital reserve and is funding it with a maximum contribution of \$20,000,000 as well as having over \$4.3 million in a capital reserve that was fully funded previously. These reserves will help offset borrowing for future projects and allow the district to scale an appropriate project that achieves objectives identified in Building Condition Survey.

2026-2027 Budget

In May, District residents approved the proposed 2026-2027 budget in the amount of \$96,125,875. The district submitted a budget within the tax levy limit, therefore, requiring a simple majority of voters for approval. The district has been below the tax levy limit for the past six years. The district is estimated to receive \$40,350,000 in State Aid for the 2026-2027 school year. The district will be using \$1,925,000 in fund balance and \$2,231,000 in reserves to balance the budget.

Concluding remarks

Overall, this illustrative District remains financially stable, with operating revenues sufficient to support current services and ongoing capital planning. Even so, future results will depend significantly on the interaction of local tax capacity, State aid levels, enrollment patterns, employee benefit trends, and the timing of capital financing. Management will continue to monitor these conditions and adjust financial plans as necessary.

The district is in a strong financial position with sufficient reserves to fund expenses and this is evident through the AA rating from S&P. While the District did not deposit as much in reserves in the past this was anticipated as the in the past several years the district did not have a “premium holiday” from its largest health insurance provider for the teachers. By not having this expense in the past few years there was an excess surplus in the employee benefits area. The expense was always budgeted for but the determination to have a premium holiday is always determined in June of the previous school year. Other than that, most expenses were stable with some increases in fuel costs dictated by outside forces that cannot be controlled by the district. Overall, the District is able to add to our reserve funds and has cash on hand to pay all expenses and will not need to borrow for any expenses. Any borrowing has been well planned.

WALLKILL CENTRAL SCHOOL DISTRICT
WALLKILL, NEW YORK
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 1. SUMMARY OF CERTAIN SIGNIFICANT ACCOUNTING POLICIES.

The financial statements of the Wallkill Central School District (the “District”) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. Those principles are prescribed by the Governmental Accounting Standards Board (GASB), which is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Where comparative amounts are presented, certain reclassifications may have been made to the prior year amounts so that they would be in conformity with the current year’s presentation. Significant accounting principles and policies utilized by the District are described below:

A. Reporting Entity

The Wallkill Central School District is governed by the laws of New York State. The District is an independent entity governed by an elected Board of Education consisting of 9 members. The President of the Board serves as the chief fiscal officer and the Superintendent is the chief executive officer. The Board is responsible for, and controls all activities related to public school education within the District. Board members have authority to make decisions, power to appoint management, and primary accountability for all fiscal matters.

The reporting entity of the District is based upon criteria set forth by GASB Statement 14, The Financial Reporting Entity, as amended by GASB Statement 39, Component Units. The financial reporting entity consists of the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity’s financial statements to be misleading or incomplete.

The accompanying financial statements present the activities of the District. The District is not a component unit of another reporting entity. The decision to include a potential component unit in the District’s reporting entity is based on several criteria including legal standing, fiscal dependency and financial accountability. Based on the application of these criteria, the following is a brief description of certain entities included in the District’s reporting entity.

1. Extraclassroom Activity Funds

The Extraclassroom Activity Funds of the District represent funds of the students of the District. The Board of Education exercises general oversight of these funds. The Extraclassroom Activity Funds are independent of the District with respect to its financial transactions and the designation of student management. Separate audited financial statements (cash basis) of the Extraclassroom Activity Funds have been included in this report. The District accounts for assets held as an agent for various student organizations in the Miscellaneous Special Revenue Fund.

WALLKILL CENTRAL SCHOOL DISTRICT
WALLKILL, NEW YORK
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 1. SUMMARY OF CERTAIN SIGNIFICANT ACCOUNTING POLICIES. (Continued)

B. Joint Venture

The District is a component district in the Ulster Board of Cooperative Education Services (BOCES). A BOCES is a voluntary, cooperative association of school districts in a geographic area that shares planning, services, and programs, which provide educational and support activities. There is no authority or process by which a school district can terminate its status as a BOCES component.

BOCES are organized under §1950 of the New York State Education Law. A BOCES Board is considered a corporate body. Members of a BOCES Board are nominated and elected by their component member boards in accordance with provisions of §1950 of the New York State Education Law. All BOCES property is held by the BOCES Board as a corporation (§1950(6)). In addition, BOCES Boards also are considered municipal corporations to permit them to contract with other municipalities on a cooperative basis under §119-n (a) of the New York State General Municipal Law.

A BOCES' budget is comprised of separate budgets for administrative, program and capital costs. Each component district's share of administrative and capital cost is determined by resident public school district enrollment, as defined in the New York State Education Law, §1950(4)(b)(7). In addition, component districts pay tuition or a service fee for programs in which its students participate.

During the year ended June 30, 2026, the Wallkill Central School District was billed \$12,029,956 for BOCES administrative and program costs. The District's share of BOCES aid amounted to \$2,991,748. Financial statements for BOCES are available from the BOCES administrative office at 175 Route 32 North New Paltz, NY 12561.

C. Basis of Presentation

1. District-Wide Statements

The Statement of Net Position and the Statement of Activities present financial information about the District's governmental activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through taxes, State aid, intergovernmental revenues, and other exchange and non-exchange transactions. Operating grants include operating-specific and discretionary (either operating or capital) grants.

The Statement of Net Position presents the financial position of the District at June 30, 2026. The Statement of Activities presents a comparison between program expenses and revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Indirect expenses, principally employee benefits, are allocated to functional areas in proportion to the payroll expended in those areas. Program revenues include charges paid by the recipients of goods or services offered by the programs, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

WALLKILL CENTRAL SCHOOL DISTRICT
WALLKILL, NEW YORK
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 1. SUMMARY OF CERTAIN SIGNIFICANT ACCOUNTING POLICIES. (Continued)

C. Basis of Presentation (Continued)

2. Funds Statements

The fund statements provide information about the District's funds, including fiduciary funds. Separate statements for each fund category (governmental and fiduciary) are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. The District reports the following major governmental funds:

General Fund: This is the District's primary operating fund. It accounts for all financial transactions that are not required to be accounted for in another fund.

Special Revenue Funds: These funds account for the proceeds of the specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specified purposes. Special revenue funds include the following:

Special Aid Fund: Used to account for proceeds received from State and Federal grants that are restricted for specific educational programs.

School Lunch Fund: This fund is used to account for the school lunch operations. The school lunch operation is supported by federal and state grants and charges participants for its services.

Miscellaneous Special Revenue Fund: This fund is used to account for Extraclassroom Activity Funds.

Capital Projects Fund: This fund is used to account for the financial resources used for acquisition, construction, or major repair of capital facilities.

Debt Service Fund: This fund accounts for the accumulation of resources and the payment of principal and interest on long-term general obligation debt of governmental activities.

Fiduciary Fund: Fiduciary activities are those in which the District acts as trustee or agent for resources that belong to others. These activities are not included in the District-wide financial statements, because their resources do not belong to the District, and are not available to be used.

The District reports the following fiduciary funds:

Private purpose trust funds: These funds are used to account for trust arrangements in which principal and income benefits annual third-party awards and scholarships for students. Established criteria govern the use of the funds and members of the District or representatives of the donors may serve on committees to determine who benefits.

WALLKILL, NEW YORK
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 1. SUMMARY OF CERTAIN SIGNIFICANT ACCOUNTING POLICIES. (Continued)

D. Measurement Focus and Basis of Accounting

Accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The District-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Non-exchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants and donations. On an accrual basis, revenue from property taxes is recognized in the year for which the taxes are levied. Revenue from grants and donations is recognized in the year in which all eligibility requirements have been satisfied.

The governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within 90 days after the end of the year.

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

E. Property Taxes

Real property taxes are levied annually by the Board of Education no later than September 1st and became a lien on August 21st. Taxes were collected by the District during the period September 1, 2025 through November 4, 2025.

Uncollected real property taxes are subsequently enforced by the Ulster & Orange Counties, which are the counties the District is located in. The Counties pay an amount representing uncollected real property taxes transmitted to the Counties for enforcement, to the District no later than the following April 1.

F. Restricted Resources

When an expense is incurred for purposes for which both restricted and unrestricted net position is available, the District's policy concerning which to apply first varies with the intended use, and with associated legal requirements, many of which are described elsewhere in these Notes.

WALLKILL CENTRAL SCHOOL DISTRICT
WALLKILL, NEW YORK
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 1. SUMMARY OF CERTAIN SIGNIFICANT ACCOUNTING POLICIES. (Continued)

G. Interfund Transactions

The operations of the District include transactions between funds. These transactions may be temporary in nature, such as with interfund borrowings. The District typically loans resources between funds for the purpose of providing cash flow. These interfund receivables and payables are expected to be repaid within one year. Permanent transfers of funds include the transfer of expenditure and revenues to provide financing or other services.

In the District-wide statements, the amounts reported on the Statement of Net Position for interfund receivables and payables represent amounts due between different fund types (governmental activities and fiduciary funds). Eliminations have been made for all interfund receivables and payables between the funds, with the exception of those due from or to the fiduciary funds.

The governmental funds report all interfund transactions as originally recorded. Interfund receivables and payables may be netted on the accompanying governmental funds balance sheet when it is the District's practice to settle these amounts at a net balance based upon the right of legal offset.

Refer to Note 12 for a detailed disclosure by individual fund for interfund receivables, payables, expenditures and revenues activity.

H. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates and assumptions are made in a variety of areas, including computation of encumbrances, compensated absences, other post-employment benefits, potential contingent liabilities and useful lives of long-lived assets.

I. Cash and Investments

The District's cash and cash equivalents consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from date of acquisition.

New York State law governs the District's investment policies. Resources must be deposited in FDIC-insured commercial banks or trust companies located within the State. Permissible investments include obligations of the United States Treasury, United States Agencies, repurchase agreements and obligations of New York State or its localities.

Collateral is required for demand and time deposits and certificates of deposit not covered by FDIC insurance. Obligations that may be pledged as collateral are obligations of The United States and its agencies and obligations of the State and its municipalities and Districts.

WALLKILL CENTRAL SCHOOL DISTRICT
WALLKILL, NEW YORK
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 1. SUMMARY OF CERTAIN SIGNIFICANT ACCOUNTING POLICIES. (Continued)

J. Accounts Receivable

Accounts receivable are shown gross, with uncollectible amounts recognized under the direct write-off method. No allowance for uncollectible accounts has been provided since it is believed that such allowance would not be material.

K. Inventories and Prepaid Items

Inventories of food in the School Lunch Fund are recorded at cost on a first-in, first-out basis, or in the case of surplus food, at stated value, which approximates market. Purchases of inventoriable items in other funds are recorded as expenditures at the time of purchase, and are considered immaterial in amount.

Prepaid items represent payments made by the District for which benefits extend beyond year-end. These payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the district-wide and fund financial statements. These items are reported as assets on the statement of net position or balance sheet using the consumption method. A current asset for the prepaid amounts is recorded at the time of purchase and an expense/expenditure is reported in the year the goods or services are consumed. There were no prepaid items at June 30, 2026.

L. Other Assets/Restricted Assets

Certain proceeds from serial bonds and bond anticipation notes, as well as resources set aside for their repayment are classified as restricted assets in the district-wide financial statements and their use is limited by applicable bond covenants.

M. Capital Assets

Capital assets are reported at cost for acquisitions. For assets acquired prior to June 30, 2002, estimated historical costs, based on an independent third-party appraisal were used. Donated assets are reported at estimated fair market value at the time received.

Land and construction-in-process are not depreciated. Capitalization thresholds (the dollar value above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the District-wide statements are as follows:

	<u>Capitalization Threshold</u>	<u>Depreciation Method</u>	<u>Estimated Useful Life</u>
Land Improvements	\$ 1,500	Straight Line	50 years
Buildings and Improvements	1,500	Straight Line	20-50 years
Furniture and Equipment	1,500	Straight Line	5-20 years
Vehicles	1,500	Straight Line	5-20 years

WALLKILL CENTRAL SCHOOL DISTRICT
WALLKILL, NEW YORK
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 1. SUMMARY OF CERTAIN SIGNIFICANT ACCOUNTING POLICIES. (Continued)

N. Right to Use Assets

A right of use assets is a lessee's right to use an asset over the life of the lease. Right to Use Assets are reported at present value.

O. Deferred Outflows and Inflows of Resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has two items that qualify for reporting in this category. The first deferred outflow is related to pensions reported in the Statement of Net Position. For additional information on these deferred outflows related to pensions, See Note 11. The second deferred outflow is related to other postemployment benefits reported in the Statement of Net Position. For additional information on these deferred outflows related to other postemployment benefits, see Note 13.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has two items that qualify for reporting in this category. The District reports deferred inflows of resources in the Statement of Net Position related to pensions reported in the district-wide statements. For additional information on deferred inflows related to pensions, see Note 11. The District also reports deferred inflows of resources in the Statement of Net Position related to other postemployment benefits reported in the district-wide statements. For additional information on deferred inflows related to other postemployment benefits see Note 13.

P. Unearned Revenue

Unearned revenues are reported when potential revenues do not meet both the measurable and available criteria for recognition in the current period. Unearned revenues also arise when the District receives resources before it has legal claim to them, as when grant monies are received prior to incurring qualifying expenditures. In subsequent periods, when both recognition criteria are met, or when the District has legal claim to the resources, the liability for unearned revenues is removed and revenues are recorded.

Q. Vested Employee Benefits

1. Compensated Absences

A compensated absence is leave for which employees may receive one or more cash payments when the leave is used for time off, other cash payments, or noncash settlements. The payment or settlement could occur during employment or upon termination of employment. Compensated absences generally do not have a set payment schedule. Examples of compensated absences include vacation (or annual) leave,

NOTE 1. SUMMARY OF CERTAIN SIGNIFICANT ACCOUNTING POLICIES. (Continued)

Q. Vested Employee Benefits (Continued)

1. Compensated Absences (Continued)

sick leave, paid time off, holidays, parental leave, bereavement leave, and certain types of sabbatical leave.

Compensated absence eligibility and accumulation is specified in negotiated labor contracts and in individual employment contracts. Some earned benefits may be forfeited if not taken in varying time periods. Upon retirement, resignation or death, employees may contractually receive a payment based on unused accumulated sick leave.

Consistent with GASB Statement 101, *Compensated Absences*, the liability has been calculated for leave that has not been used and leave that has been used but not yet paid or settled. The liability includes applicable salary-related payments.

Leave that has not been used includes leave that is attributable to services already rendered, accumulates and is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. When evaluating whether leave is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means, management assesses relevant factors, including employment policies related to compensated absences, whether leave that has been earned is, or will become, eligible for use or payment in the future, historical information about the use, payment, or forfeiture of compensated absences, and information known to the District that would indicate that historical information may not be representative of future trends or patterns. This leave is generally measured using an employee's pay rate as of the date of the financial statements. If some or all of the leave is more likely than not to be paid at a rate different from the employee's pay rate at the time the payment is made, the District measures that portion of the liability using that different rate as of the date of the financial statements. For leave that is not attributable to a specific employee as of the date of the financial statements, the District measures the liability using an estimated pay rate that is representative of the eligible employee population.

For types of compensated absences that are dependent upon the occurrence of a sporadic event (such as parental, military and jury duty leave) that affect a relatively small proportion of employees in any particular reporting period, the District does not recognize a liability until the leave commences.

The District reports a liability for leave that has been used for time off but has not yet been paid in cash or settled through noncash means. This liability, including any applicable salary-related payments, is measured at the amount of the cash payment or noncash settlement to be made for the use of the leave.

WALLKILL, NEW YORK
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 1. SUMMARY OF CERTAIN SIGNIFICANT ACCOUNTING POLICIES. (Continued)

Q. Vested Employee Benefits (Continued)

2. Other Benefits

District employees participate in the New York State Employees' Retirement System and the New York State Teachers' Retirement System.

District employees may choose to participate in the District's elective deferred compensation plans established under Internal Revenue Code Sections 403(b) and 457.

In addition to providing pension benefits, the District provides post-employment health insurance coverage and survivor benefits to retired employees and their survivors in accordance with the provisions of various employment contracts in effect at the time of retirement. Substantially all of the District's employees may become eligible for these benefits if they reach normal retirement age while working for the District. Health care benefits are provided through plans whose premiums are based on the benefits paid during the year. The cost of providing post-retirement benefits is shared between the District and the retired employee. The District recognizes the cost of providing health insurance by recording its share of insurance premiums as an expenditure.

R. Short-Term Debt

The District may issue Revenue Anticipation Notes (RAN) and Tax Anticipation Notes (TAN), in anticipation of the receipt of revenues. These notes are recorded as a liability of the fund that will actually receive the proceeds from the issuance of the notes. The RAN's and TAN's represent a liability that will be extinguished by the use of expendable, available resources of the fund.

The District may issue budget notes up to an amount not to exceed 5% of the amount of the annual budget during any year for expenditures for which there is an insufficient or no provision made in the annual budget. The budget note must be repaid no later than the close of the second year succeeding the year in which the note was issued.

The District may issue Bond Anticipation Notes (BAN), in anticipation of proceeds from the subsequent sale of bonds. These notes are recorded as current liabilities of the funds that will actually receive the proceeds from the issuance of bonds. State law requires that BAN's issued for capital purposes are converted to long-term financing within five years after the original issue date.

The District may issue deficiency notes up to an amount not to exceed 5% of the amount of that same year's annual budget in any fund or funds arising from revenues being less than the amount estimated in the budget for that year. The deficiency notes may mature no later than the close of the year following the year in which they were issued. However, they may mature no later than the close of the second year after the year in which they were issued, if the notes were authorized and issued after the adoption of the budget for the year following the year in which they were issued.

WALLKILL CENTRAL SCHOOL DISTRICT
WALLKILL, NEW YORK
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 1. SUMMARY OF CERTAIN SIGNIFICANT ACCOUNTING POLICIES. (Continued)

S. Accrued Liabilities and Long-Term Obligations

Payables, accrued liabilities and long-term obligations are reported in the district-wide financial statements. In the governmental funds, payables and accrued liabilities are paid in a timely manner and in full from current financial resources. Claims and judgments, other postemployment benefits and compensated absences that will be paid from governmental funds, are reported as a liability in the funds financial statements only to the extent that they are due for payment in the current year. Bonds and other long-term obligations that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

Long-term obligations represent the District's future obligations or future economic outflows. The liabilities are reported as due in one year or due within more than one year in the Statement of Net Position.

T. Equity Classifications

1. District-wide Statements

In the District-wide statements there are three classes of net position:

Net invested in capital assets - consists of net capital assets (cost less accumulated depreciation) reduced by outstanding balances of related debt obligations from the acquisition, constructions or improvements of those assets.

Restricted net position - reports net position when constraints placed on the assets or deferred outflows of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted - reports all other net position that do not meet the definition of the above two classifications and are deemed to be available for general use by the District.

2. Funds Statements

In the fund statements there are five classifications of fund balances:

Non-spendable – Includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. Non-spendable fund balance includes the inventory recorded in the School Lunch Fund of \$2,802.

WALLKILL CENTRAL SCHOOL DISTRICT
WALLKILL, NEW YORK
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 1. SUMMARY OF CERTAIN SIGNIFICANT ACCOUNTING POLICIES. (Continued)

T. Equity Classifications (Continued)

2. Funds Statements (Continued)

Restricted – Includes amounts with constraints placed on the use of resources either externally imposed by creditors, grantors, contributors or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation. All encumbrances of funds other than the General fund are classified as restricted fund balance. The District has established the following restricted fund balances:

Reserve for Debt Service

According to General Municipal Law §6-l, the Mandatory Reserve for Debt Service must be established for the purpose of retiring the outstanding obligations upon the sale of District property or capital improvement that was financed by obligations that remain outstanding at the time of sale. The funding of the reserve is from the proceeds of the sale of District property or capital improvement. The reserve is accounted for in the Debt Service Fund.

Repair Reserve

According to General Municipal Law §6-d, must be used to pay the cost of repairs to capital improvements or equipment, which repairs are of a type not recurring annually. The Board of Education without voter approval may establish a repair reserve fund by a majority vote of its members. Voter approval is required to fund this reserve (Opinion of the New York State Comptroller 81-401). Expenditures from this reserve may be made only after a public hearing has been held, except in emergency situations. If no hearing is held, the amount expended must be repaid to the reserve fund over the next two subsequent years. This reserve is accounted for in the General Fund.

Retirement Contributions

According to General Municipal Law §6-r, must be used for financing retirement contributions. The reserve must be accounted for separate and apart from all other funds and a detailed report of the operation and condition of the fund must be provided to the Board.

Retirement Contribution Reserve – TRS Sub Fund

According to amendments to General Municipal Law §6-r, this reserve must be used to finance retirement contributions to the New York State Teachers Retirement System (“TRS”) and/or offset all or some of the amount deducted from the moneys apportioned to the District from the state under Education Law §521. The reserve must be accounted for separate and apart from all other funds and a detailed report of the operation and condition of the fund must be provided to the Board. This reserve is accounted for in the General Fund. The amount of moneys contributed to the TRS Sub-fund annually cannot exceed 2% of the total salaries of all teachers employed by the District paid during the previous fiscal year. In addition, the total balance of the TRS Sub-fund cannot exceed 10% of the total salaries of all teachers employed by the District paid during the previous fiscal year.

WALLKILL, NEW YORK
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 1. SUMMARY OF CERTAIN SIGNIFICANT ACCOUNTING POLICIES. (Continued)

T. Equity Classifications (Continued)

2. Funds Statements (Continued)

Tax Certiorari Reserve

According to Education Law §3651.1-a, must be used to establish a reserve fund for tax certiorari and to expend from the fund without voter approval. The monies held in the reserve shall not exceed the amount that might reasonably be deemed necessary to meet anticipated judgments and claims arising out of tax certiorari proceedings. Any resources deposited to the reserve which are not expended for tax certiorari proceedings in the year such monies are deposited must be returned to the General Fund on or before the first day of the fourth year after deposit of these monies. The reserve is accounted for in the General fund.

Unemployment Insurance

According to General Municipal Law §6-m, must be used to pay the cost of reimbursement to the State Unemployment Insurance Fund for payments made to claimants where the employer has elected to use the benefit reimbursement method. The reserve may be established by Board action and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding year's budget. If the District elects to convert to tax (contribution) basis, excess resources in the fund over the sum sufficient to pay pending claims may be transferred to any other reserve fund. This reserve is accounted for in the General Fund.

Liability Claims and Property Loss

According to Education Law §1709(8) (c), must be used to pay for liability claims and property loss incurred. Separate funds for liability claims and property loss are required, and these reserves may not in total exceed 3% of the annual budget or \$15,000, whichever is greater.

Workers' Compensation

According to General Municipal Law §6-j, must be used to pay for compensation benefits and other expenses authorized by Article 2 of the Workers' Compensation Law and for payment of expenses of administering this self-insurance program. The reserve may be established by Board action, and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding year's budget. The reserve is accounted for in the General fund.

2. Funds Statements (Continued)

Capital Reserve

Capital Reserve (Education Law §3651) is used to pay the cost of any object or purpose for which bonds may be issued. The creation of a capital reserve fund requires authorization by a majority of the voters establishing the purpose of the reserve; the ultimate amount, its probable term and the source of the funds. Expenditure's may be made from the reserve only for a specific purpose further authorized by the voters. The form for the required legal notice for the vote on establishing and funding the reserve and the form of the proposition to be placed on the ballot are set forth in §3651 of the Education Law. This reserve is accounted for in the General Fund.

Employee Benefit Accrued Liability Reserve

Reserve for Employee Benefit Accrued Liability (GML §6-p) is used to reserve funds for the payment of accrued employee benefit due an employee upon termination of the employee's service. This reserve may be established by a majority vote of the Board, and is funded by budgetary appropriations and such other reserves and funds that may be legally appropriated. The reserve is accounted for in the General Fund.

WALLKILL CENTRAL SCHOOL DISTRICT
WALLKILL, NEW YORK
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 1. SUMMARY OF CERTAIN SIGNIFICANT ACCOUNTING POLICIES. (Continued)

T. Equity Classifications (Continued)

2. Funds Statements (Continued)

Restricted fund balance at June 30, 2026 consisted of the following:

General Fund:

Capital Reserve	\$ 4,318,310
2025 Capital Reserve	12,520,271
Repair Reserve	33
Workers' Compensation Reserve	4,882,331
Unemployment Insurance Reserve	277,414
Property Loss Reserve and Liability Reserve	256,229
Tax Certiorari Reserve	395,277
Employee Benefit Accrued Liability Reserve	597,710
Retirement Contribution Reserve	13,227,727
Retirement Contribution Reserve - TRS Sub Fund	1,330,006
Other - Mid Hudson Teacher Center Risk Retention	51,182
	<u>\$ 37,856,490</u>

Special Aid Fund	16,936
School Lunch Fund	1,030,329
Debt Service Fund	1,598,074
Miscellaneous Special Revenue Fund	280,421
	<u>280,421</u>

Total Restricted Fund Balance	<u><u>\$ 40,782,250</u></u>
-------------------------------	-----------------------------

Committed – Includes amounts that can only be used for the specific purposes pursuant to constraints imposed by formal action of the Board of Education. The District did not classify any of its fund balances as committed as of June 30, 2026.

Assigned: Includes amounts that are constrained by the District's intent to be used for specific purposes, but are neither restricted nor committed. The purpose of the constraint must be narrower than the purpose of the general fund, and in funds other than the general fund, assigned fund balance represents the residual amount of fund balance. Assigned fund balance also includes an amount appropriated to partially fund the subsequent year's budget, as well as encumbrances not classified as restricted at the end of the year.

WALLKILL CENTRAL SCHOOL DISTRICT
WALLKILL, NEW YORK
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 1. SUMMARY OF CERTAIN SIGNIFICANT ACCOUNTING POLICIES. (Continued)

T. Equity Classifications (Continued)

2. Funds Statements (Continued)

Unassigned: Includes fund balance that has not been restricted, committed, or assigned to specific purposes within the General Fund. In other governmental funds, if expenditures incurred for specific purposes exceeded the amounts restricted, committed, or assigned to those purposes, negative unassigned fund balance is reported.

Order of Use of Fund Balance:

The District's policy is to apply expenditures against nonspendable fund balance, restricted fund balance, committed fund balance, assigned fund balance, and unassigned fund balance at the end of the year. For all funds, nonspendable fund balances are determined first and then restricted fund balances for specific purposes are determined. Any remaining fund balance amounts for funds other than the General Fund are classified as restricted fund balance. The remaining amounts are reported as unassigned. Assignments of fund balance cannot cause a negative unassigned fund balance.

Limitation on Unexpended Surplus Funds:

NYS Real Property Tax Law §1318 limits the amount of unexpended surplus funds the District can retain to no more than 4% of the District's General Fund budget for the ensuing year. Non-spendable and restricted fund balance of the General Fund are excluded from the 4% limitation. Amounts appropriated for the subsequent year and encumbrances are also excluded from the 4% limitation.

U. New Accounting Standards

GASB has issued Statement 103, *Financial Reporting Model Improvements*, the objective of this Statement is to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. This Statement requires that the information presented in MD&A be limited to the related topics discussed in five sections: (1) Overview of the Financial Statements, (2) Financial Summary, (3) Detailed Analyses, (4) Significant Capital Asset and Long-Term Financing Activity, and (5) Currently Known Facts, Decisions, or Conditions. Furthermore, this Statement stresses that the detailed analyses should explain why balances and results of operations changed rather than simply presenting the amounts or percentages by which they changed. This Statement emphasizes that the analysis provided in MD&A should avoid unnecessary duplication by not repeating explanations that may be relevant to multiple sections and that "boilerplate" discussions should be avoided by presenting only the most relevant information, focused on the primary government. The district has implemented GASB Statement 104, as required. The implementation of GASB Statement No. 103 did not result in a restatement of beginning net position, fund balance, or fund net position because the changes were limited to presentation and disclosure. The district's implementation did not change total net position, fund balance, or change in net position for the year ended June 30, 2026.

WALLKILL CENTRAL SCHOOL DISTRICT
WALLKILL, NEW YORK
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 1. SUMMARY OF CERTAIN SIGNIFICANT ACCOUNTING POLICIES. (Continued)

U. New Accounting Standards (Continued)

GASB has issued Statement 104, *Disclosure of Certain Capital Assets*, the objective of this Statement is to provide users of government financial statements with essential information about certain types of capital assets. This Statement requires certain types of capital assets to be disclosed in the capital assets note disclosures required by Statement 34. Leased assets, Public-Private and Public-Public Partnerships and Availability Payment Arrangements, subscription assets and intangible assets should all be disclosed separately by major class. This statement also requires additional disclosures for capital assets held for sale. The district has implemented GASB Statement 104, as required. The implementation affected the presentation of the following financial statement line items: capital assets, net; accumulated depreciation; lease assets; intangible right-to-use assets; accumulated amortization. The implementation did not change total net position or change in net position for the year end June 30, 2026.

V. Future Changes in Accounting Standards

GASB has issued Statement 105, *Subsequent Events*, the objective of this Statement is to improve the financial reporting requirements for subsequent events, thereby enhancing consistency in their application and better meeting the information needs of the financial statement users. This Statement defines subsequent events as transactions or other events that occur after the date of the financial statements but before the date the financial statements are available to be issued. This Statement describes the date the financial statements are available to be issued as the date at which (1) the financial statements are complete in a form and format that complies with generally accepted accounting principles and (2) approvals necessary for issuance have been obtained. This Statement also requires the date through which subsequent events have been evaluated to be disclosed and clarifies the subsequent events that constitute recognized and nonrecognized events. It also establishes specific note disclosure requirements for nonrecognized events. The District is currently studying the Statement and plans to adopt it when required, which will be for the June 30, 2027 financial statements.

WALLKILL CENTRAL SCHOOL DISTRICT
WALLKILL, NEW YORK
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 2. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL FUND STATEMENTS AND DISTRICT-WIDE STATEMENTS.

A. Total Fund Balances of Governmental Funds vs. Net Position of Governmental Activities:

Due to the differences in the measurement focus and basis of accounting used in the governmental fund statements and the district-wide statements, certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items. The differences result primarily from the economic focus of the Statement of Activities, compared with the current financial resources focus of the governmental funds.

Total fund balances of the District's governmental funds differ from "net position" of governmental activities reported in the Statement of Net position. This difference primarily results from the additional long-term economic focus of the Statement of Net Position versus the solely current financial resources focus of the governmental fund Balance Sheets.

1. The costs of building and acquiring capital assets (land, buildings and equipment) financed from the governmental funds are reported as expenditures in the year they are incurred, and the assets do not appear on the Balance Sheet. However, the Statement of Net Position includes those capital assets among the assets of the District as a whole, with their original costs capitalized and depreciation expensed annually over their useful lives. The balances at June 30, 2026 were as follows:

Original Cost of Capital Assets	\$ 103,110,364
Accumulated Depreciation	<u>(33,338,963)</u>
	<u><u>\$ 69,771,401</u></u>

2. The cost of right to use assets (equipment) financed from governmental funds are reported as expenditures in the year they are incurred, and the assets do not appear on the balance sheet. However, the Statement of Net Position includes those right to use assets among the assets of the District as a whole, with the present value capitalized and amortization expensed annually over the period of use. The balances at June 30, 2026 are as follows:

Original Cost of Right to Use Assets	\$ 969,940
Accumulated Amortization	<u>(628,182)</u>
	<u><u>\$ 341,758</u></u>

WALLKILL CENTRAL SCHOOL DISTRICT
WALLKILL, NEW YORK
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 2. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL FUND STATEMENTS AND DISTRICT-WIDE STATEMENTS. (Continued)

A. Statement of Revenues, Expenditures and Changes in Fund Balance vs. Statement of Activities:
(Continued)

3. In the Statement of Net Position, a liability is recognized for the District's proportionate share of the net pension liability attributable to each defined benefit pension plan in which the District participates. A net pension liability is measured as the proportionate share of the portion of the actuarial present value of projected benefit payments that is attributed to past periods of employee service (proportionate share of total pension liability), net of the proportionate share of that pension plan's fiduciary net position. If a pension plan's fiduciary net position exceeds its total pension liability, the District's proportionate share of the pension plan's net pension asset is recognized. Also, deferred outflows and inflows of resources related to pensions primarily result from contributions subsequent to the measurement date, as well as changes in the components of the net pension liability or asset. However, none of these amounts are included on the Balance Sheet as they are only recognized to the extent the pension liability is normally expected to be liquidated with expendable available financial resources. These balances at June 30, 2026 were as follows:

Net Pension Asset - Proportionate Share (TRS)	\$ 9,323,347
Deferred Outflows of Resources - Pensions	13,162,315
Net Pension Liability - Proportionate Share (ERS)	(878,745)
Deferred Inflows of Resources - Pensions	(9,106,692)
	<u>\$ 12,500,225</u>

4. Governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.

The balance at June 30, 2026 was as follows:

Deferred Charges	<u>\$ 47,962</u>
------------------	------------------

5. Interest is accrued in the Statement of Net Position, regardless of when it is due. This liability does not appear on the Balance Sheet because interest is expended when it is due, and thus requires the use of current financial resources. This liability at June 30, 2026 was as follows:

Accrued Interest	<u>\$ 23,330</u>
------------------	------------------

WALLKILL CENTRAL SCHOOL DISTRICT
WALLKILL, NEW YORK
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 2. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL FUND STATEMENTS AND DISTRICT-WIDE STATEMENTS. (Continued)

A. Statement of Revenues, Expenditures and Changes in Fund Balance vs. Statement of Activities: (Continued)

6. Long-term liabilities and related deferred inflows are reported in the Statement of Net Position, but not in the Balance Sheet, because the liabilities are not due and payable in the current period. The balances at June 30, 2026 were as follows:

Bonds Payable	\$ 24,875,000
Installment Purchase Debt	1,942,031
Compensated Absences	10,329,863
Leases	279,442
Deferred Outflows of Resources - OPEB	18,326,757
Other Postemployment Benefits	199,243,859
Deferred Inflows of Resources - OPEB	51,977,952
	<u>\$ 306,974,904</u>

B. Statement of Revenues, Expenditures and Changes in Fund Balance vs. Statement of Activities:

Differences between the governmental funds Statement of Revenues, Expenditures and Changes in Fund Balance and the Statement of Activities fall into one of five broad categories. The amounts shown below represent:

1. Long-Term Revenue Differences

Long-term revenue differences arise because governmental funds report revenues only when they are considered "available", whereas the Statement of Activities reports revenues when earned. Differences in long-term expenses arise because governmental funds report on a modified accrual basis, whereas the accrual basis of accounting is used on the Statement of Activities.

2. Capital Related Differences

Capital related differences include the difference between proceeds for the sale of capital assets reported on governmental fund statements and the gain or loss on the sale of assets as reported on the Statement of Activities, and the difference between recording an expenditure for the purchase of capital items in the governmental fund statements and depreciation expense on those items as recorded in the Statement of Activities.

3. Long-Term Debt Transaction Differences

Long-term debt transaction differences occur because both interest and principal payments are recorded as expenditures in the governmental fund statements, whereas interest payments are recorded in the Statement of Activities as incurred, and principal payments are recorded as a reduction of liabilities in the Statement of Net Position.

NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 2. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL FUND STATEMENTS AND DISTRICT-WIDE STATEMENTS. (Continued)

B. Statement of Revenues, Expenditures and Changes in Fund Balance vs. Statement of Activities (Continued):

4. Pension Plan Transaction Differences

Pension plan transaction differences occur as a result of changes in the District's proportion of the collective net pension asset/liability and differences between the District's contributions and its proportionate share of the total contributions to the pensions systems.

5. Other Post Employment Benefit (OPEB) Related Differences

OPEB differences occur as a result of changes in the District's total OPEB liability and differences between the District's contributions and OPEB expense.

Explanation of Differences between Governmental Funds Operating Statement
and the Statement of Activities

Total Revenues and Other Funding Sources

Total revenues reported in governmental funds (Schedule 5)	\$ 113,251,400
Proceeds from the sale of Bonds is recognized as an other funding source in the governmental funds, but increases liabilities in the Statement of Net Assets, and does not affect the Statement of Activities.	(14,560,000)
The District entered into leases during the year which are recorded as other sources of funds in the governmental funds, but are recorded as a liability in the Statement of Net Position and does not affect the Statement of Activities and Changes in Net Position.	(98,363)
Repayment of BANS is reported as revenue in the governmental funds, but is recorded as a liability in the Statement of Net Position and does not affect the Statement of Activities and Changes in Net Position.	(1,584,637)
Total revenues in the Statement of Activities (Schedule 2)	<u>\$ 97,008,400</u>

B. Statement of Revenues, Expenditures and Changes in Fund Balance vs. Statement of Activities (Continued):

Explanation of Differences between Governmental Funds Operating Statement
and the Statement of Activities (Continued)

Total Expenditures & Other Uses/Expenses

Total expenditures reported in governmental funds (Schedule 5)	\$ 103,941,743
--	----------------

When the purchase or construction of capital assets is financed through reported as expenditures in the years they are incurred. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital expenditures of \$7,580,158 were more than depreciation of \$1,922,267	(5,657,891)
--	-------------

When the lease of right to use assets are financed through governmental funds, the resources expended for those assets are reported as expenditures in the years they are paid for. However, in the Statement of Activities, the present value of those assets is capitalized and the expense is allocated over the period of use and reported as amortization expense. This is the amount by which amortization of \$102,557 was less than the present value of right to use assets of \$132,565.	30,008
--	--------

In the Statement of Activities, certain operating expenses (compensated absences and special termination benefits) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). Compensated Absences earned are more than the amount paid.	338,609

NOTE 2. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN GOVERNMENTAL FUND STATEMENTS AND DISTRICT-WIDE STATEMENTS. (Continued)

B. Statement of Revenues, Expenditures and Changes in Fund Balance vs. Statement of Activities (Continued):

Explanation of Differences between Governmental Funds Operating Statement
and the Statement of Activities (Continued)

Interest payable is recognized as an accrued liability in the entity wide statements under full accrual accounting whereas it is not under the governmental fund statements. This is the amount by which interest payable this year is more than the interest payable last year.	10
In the Statement of Activities, the expense for other postemployment benefits (OPEB) includes changes in the OPEB liability such as service cost, interest cost and changes in benefit terms, as well as amortization of deferred outflows of resources and deferred inflows of resources related to OPEB. In the governmental funds, however, OPEB expenditures are measured by the amount of financial resources used (essentially the amounts actually paid.). This is the amount by which the OPEB expense in the Statement of Activities exceeded the amount of financial resources used during the year.	5,242,029
In the Statement of Activities , pension expense related to ERS and TRS defined benefit pension plans is measured as the change in the District's proportionate shares of the net pension assets and liabilities as of the measurement dates for each plan. In the governmental funds however, these expenditures are recognized equal to the total of (1) amounts paid by the employer to the pension plan and (2) the change between the beginning and ending balances of amounts normally expected to be liquidated with expendable available financial resources. This is the amount by which the pension expense was exceeded by the amount of financial resources expended during the fiscal year.	(3,354,549)
Premiums and discounts on long-term debt issuances, bond issuance costs and deferred amounts from debt refunding are recognized in the fiscal year in which the transactions occur in the governmental fund statements. These amounts are amortized in the Statement of Activities This is the amount that was amortized during the current year.	(47,962)

NOTE 3. CHANGE IN ACCOUNTING PRINCIPLE.

During the fiscal year ended June 30, 2026, the Wallkill Central School District adopted GASB Statement No. 103, Financial Reporting Model Improvements. The objective of the Statement is to enhance the effectiveness of the financial reporting model by improving the information provided for decision-making and assessing accountability, as well as increasing consistency and comparability across government entities.

WALLKILL CENTRAL SCHOOL DISTRICT
WALLKILL, NEW YORK
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 4. STEWARDSHIP AND COMPLIANCE.

A. Budgets

The District administration prepares a proposed budget for approval by the Board of Education for the following governmental funds for which legal (appropriated) budgets are adopted:

The voters of the District approved the proposed appropriation budget for the General Fund.

Appropriations are adopted at the program line item level.

Appropriations established by the adoption of the budget constitute a limitation on expenditures (and encumbrances) that may be incurred. Appropriations lapse at the end of the year unless expended or encumbered. Encumbrances will lapse if not expended in the subsequent year. Appropriations authorized for the current year are increased by the planned use of specific reserves, and budget amendments approved the Board of Education as a result of selected new revenue sources not included in the original budget (when permitted by law). These Supplemental appropriations may occur subject to legal restrictions, if the Board approves them because of a need that exists which was not determined at the time the budget was adopted. Supplemental appropriations that occurred during the year are shown on Supplemental Schedule #5.

Budgets are adopted annually on a basis consistent with GAAP. Appropriations authorized for the year are increased by the amount of encumbrances carried forward from the prior year. The General Fund is the only fund with a legally approved budget for the year ended June 30, 2026.

Budgets are established and used for individual capital project funds expenditures as approved by a special referendum of the District's voters. The maximum project amount authorized is based primarily upon the cost of the project, plus any requirements for external borrowings, not annual appropriations. These budgets do not lapse and are carried over to subsequent years until the completion of the projects.

B. Encumbrances

Encumbrance accounting is used for budget control and monitoring purposes and is reported as a part of the governmental funds. Under this method, purchase orders, contracts and other commitments for the expenditure of monies are recorded to reserve applicable appropriations. Outstanding encumbrances as of year-end are presented as restrictions or assignments of fund balance and do not represent expenditures or liabilities. These commitments will be honored in the subsequent period. Related expenditures are recognized at that time, as the liability is incurred or the commitment is paid.

WALLKILL CENTRAL SCHOOL DISTRICT
WALLKILL, NEW YORK
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 5. CASH - CUSTODIAL CREDIT, CONCENTRATION OF CREDIT, INTEREST RATE, AND FOREIGN CURRENCY RISKS.

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. While the District does not have a specific policy for custodial credit risk, New York State statutes govern the District's investment policies, as discussed previously in these Notes.

The District's aggregate bank balances (disclosed in the financial statements), included balances not covered by depository insurance at year-end, collateralized as follows:

Uncollateralized	\$ 0
Collateralized with securities held by the pledging financial institution, or its trust department or agent, but not in the District's name	\$ 57,471,491

Restricted cash represents cash and cash equivalents where use is limited by legal requirements. These assets represent amounts required by statute to be reserved for various purposes. Restricted cash as of year-end includes \$40,782,250 within the governmental funds.

The District does not typically purchase investments for a long enough duration to cause it to believe that it is exposed to any material interest rate risk. The District also does not typically purchase investments denominated in a foreign currency, and is not exposed to foreign currency risk.

The District participates in multi-municipal cooperative investment pool agreements pursuant to New York State General Municipal Law Article 5-G, Section 110-O, whereby it holds a portion of the investments in cooperation with other participants. The investments are highly liquid and are considered to be cash equivalents.

Total investments of the NYClass cooperative as of year-end are \$15,823,474,053, which consisted of \$3,385,400,000 in repurchase agreements, \$9,662,140,588 in U.S. Treasury Bills, \$1,811,512,965 in U. S. Treasury Securities and \$964,420,500 in collateralized bank deposits all with various interest rate and due dates.

Serial Bond	06/23/26	06/15/40	3.3957%	14,560,000
Installment Purchase Debt	05/13/14	05/13/30	3.00%	1,942,031
				<u>\$ 26,817,031</u>

The following is a summary of maturing bond debt service requirements:

<u>For the Year Ended June 30,</u>	<u>Bonds and Notes Payable</u>	
	<u>Principal</u>	<u>Interest</u>
2027	\$ 2,309,534	\$ 1,019,631
2028	2,358,245	947,613
2029	2,442,360	860,798
2030	2,531,892	770,816
2031	1,895,000	681,350
2032 and thereafter	<u>15,280,000</u>	<u>2,935,150</u>
TOTAL	<u>\$ 26,817,031</u>	<u>\$ 7,215,358</u>

The District defeased certain general obligations and other bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the District's financial statements.

The General Fund has typically been used to liquidate long-term liabilities other than compensated absences. This District has elected to present the increase or decrease in the compensated absences liability as a net amount as permitted by GASB Statement 101.

Interest on long-term debt for the year was composed of:

Interest paid	\$ 512,258
Less: Interest accrued in the prior year	(5,851)
Plus: Interest accrued in the current year	<u>15,434</u>
Total interest expense	<u>\$ 521,841</u>

NOTE 11. PENSION PLANS.

Employees' Retirement System Plan Description

The District participates in the New York State and Local Employees' Retirement System (ERS). ERS and the New York State and Local Police and Fire Retirement System (PFRS) are collectively referred to as New York State and Local Retirement System (the System). These are cost-sharing multiple-employer defined benefit retirement systems. The net position of the ERS System is held in the New York State Common Retirement Fund (the Fund), which was established to hold all assets and record changes in fiduciary net position allocated to the ERS System. The Comptroller of the State of New York serves as the trustee of the Fund and is the administrative head of the ERS System. The Comptroller is an elected official determined in a direct statewide election and serves a four-year term. Thomas P. DiNapoli has served as Comptroller since February 7, 2007. In November, 2022, he was elected for a new term commencing January 1, 2023. System benefits are established under the provisions of the New York State Retirement and Social Security Law (RSSL). Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The District also participates in the Public Employees' Group Life Insurance Plan (GLIP), which provides death benefits in the form of life insurance. The System is included in the State's financial report as a pension trust fund. Separately issued financial statements for the System can be accessed on the Comptroller's website at www.osc.state.ny.us/retire/about_us/financial_statements_index.php.

Teachers' Retirement System Plan Description

The New York State Teachers Retirement System (the TRS System) was created and exists pursuant to Article 11 of the New York State Education Law. The System is the administrator of a cost-sharing, multiple-employer public employee retirement system (PERS), administered by a 10-member Board to provide pension and ancillary benefits to teachers employed by participating employers in the State of New York, excluding New York City. For additional Plan information please refer to the NYSTRS Comprehensive Annual Financial Report which can be found on the System's website located at www.nystrs.org.

ERS Benefits Provided

The ERS System provides retirement benefits as well as death and disability benefits.

Tiers 1 and 2

Eligibility: Tier 1 members, with the exception of those retiring under special retirement plans, must be at least age 55 to be eligible to collect a retirement benefit. There is no minimum service requirement for Tier 1 members. Tier 2 members, with the exception of those retiring under special

Tiers 1 and 2 (Continued)

retirement plans, must have five years of service and be at least age 55 to be eligible to collect a retirement benefit. The age at which full benefits may be collected for Tier 1 is 55, and the full benefit age for Tier 2 is 62.

Benefit Calculation: Generally, the benefit is 1.67 percent of final average salary for each year of service if the member retires with less than 20 years. If the member retires with 20 or more years of service, the benefit is 2 percent of final average salary for each year of service. Tier 2 members with five or more years of service can retire as early as age 55 with reduced benefits. Tier 2 members age 55 or older with 30 or more years of service can retire with no reduction in benefits. As a result of Article 19 of the RSSL, Tier 1 and Tier 2 members who worked continuously from April 1, 1999 through October 1, 2000 received an additional month of service credit for each year of credited service they have at retirement, up to a maximum of 24 additional months.

Final average salary is the average of the wages earned in the three highest consecutive years of employment. For Tier 1 members who joined on or after June 17, 1971, each year used in the final average salary calculation is limited to no more than 20 percent greater than the previous year. For Tier 2 members, each year of final average salary is limited to no more than 20 percent greater than the average of the previous two years.

Tiers 3, 4, and 5

Eligibility: Tier 3 and 4, and 5 members, with the exception of those retiring under special retirement plans, must have five years of service and be at least age 55 to be eligible to collect a retirement benefit. The full benefit age for Tiers 3, 4 and 5 is 62.

Benefit Calculation: Generally, the benefit is 1.67 percent of final average salary for each year of service if the member retires with less than 20 years. If a member retires with between 20 and 30 years of service, the benefit is 2 percent of final average salary for each year of service. If a member retires with more than 30 years of service, an additional benefit of 1.5 percent of final average salary is applied for each year of service over 30 years. Tier 3 and 4 members with five or more years of service and Tier 5 members with 10 or more years of service can retire as early as age 55 with reduced benefits. Tier 3 and 4 members age 55 or older with 30 or more years of service can retire with no reduction in benefits.

WALLKILL, NEW YORK
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 11. PENSION PLANS. (Continued)

ERS Benefits Provided (Continued)

Tiers 3, 4, and 5 (Continued)

Final average salary is the average of the wages earned in the three highest consecutive years of employment. For Tier 3, 4 and 5 members, each year of final average salary calculation is limited to no more than 10 percent greater than the average of the previous two years.

Tier 6

Eligibility: Tier 6 members, with the exception of those retiring under special retirement plans, must have 5 years of service and be at least age 55 to be eligible to collect a retirement benefit. The full benefit age for Tier 6 is 63 for ERS members and 62 for PFRS members.

Benefit Calculation: Generally, the benefit is 1.67 percent of final average salary for each year of service if the member retires with less than 20 years. If a member retires with 20 years of service, the benefit is 1.75 percent of final average salary for each year of service. If a member retires with more than 20 years of service, an additional benefit of 2 percent of final average salary is applied 1 for each year of service over 20 years. Tier 6 members with 5 or more years of service can retire as early as age 55 with reduced benefits.

Final average salary is the average of the wages earned in the five highest consecutive years. For Tier 6 members, each year of final average salary is limited to no more than 10 percent greater than the average of the previous two years.

Disability Retirement Benefits

Disability retirement benefits are available to ERS and PFRS members unable to perform their job duties because of permanent physical or mental incapacity. There are three general types of disability benefits: ordinary, performance of duty, and accidental disability benefits. Eligibility, benefit amounts, and other rules such as any offsets or other benefits depend on a member's tier, years of service, and plan.

WALLKILL CENTRAL SCHOOL DISTRICT
WALLKILL, NEW YORK
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 11. PENSION PLANS. (Continued)

ERS Benefits Provided (Continued)

Ordinary Death Benefits

Death benefits are payable upon the death, before retirement, of a member who meets eligibility requirements as set forth by law. The first \$50,000 of an ordinary death benefit is paid in the form of group term life insurance. The benefit is generally three times the member's annual salary. For most members, there is also a reduced post-retirement ordinary death benefit available.

Post-Retirement Benefit Increases

A cost-of-living adjustment is provided annually to: (i) all pensioners who have attained age 62 and have been retired for five years; (ii) all pensioners who have attained age 55 and have been retired for 10 years; (iii) all disability pensioners, regardless of age, who have been retired for five years; (iv) ERS recipients of an accidental death benefit, regardless of age, who have been receiving such benefit for five years and (v) the spouse of a deceased retiree receiving a lifetime benefit under an option elected by the retiree at retirement. An eligible spouse is entitled to one-half the cost-of-living adjustment amount that would have been paid to the retiree when the retiree would have met the eligibility criteria. This cost-of-living adjustment is a percentage of the annual retirement benefit of the eligible member as computed on a base benefit amount not to exceed \$18,000 of the annual retirement benefit. The cost-of-living percentage shall be 50 percent of the annual Consumer Price Index as published by the U.S. Bureau of Labor, but cannot be less than 1 percent or exceed 3 percent.

TRS Benefits Provided

The benefits provided to members of the TRS System are established by New York State law and may be amended only by the Legislature with the Governor's approval. Benefit provisions vary depending on date of membership and are subdivided into the following six classes:

Tier 1

Members who last joined prior to July 1, 1973 are covered by the provisions of Article 11 of the Education Law.

Tier 2

Members who last joined on or after July 1, 1973 and prior to July 27, 1976 are covered by the provisions of Article 11 of the Education Law and Article 11 of the Retirement and Social Security Law (RSSL).

WALLKILL, NEW YORK
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 11. PENSION PLANS. (Continued)

TRS Benefits Provided (Continued)

Tier 3

Members who last joined on or after July 27, 1976 and prior to September 1, 1983 are covered by the provisions of Article 14 and Article 15 of the RSSL.

Tier 4

Members who last joined on or after September 1, 1983 and prior to January 1, 2010 are covered by the provisions of Article 15 of the RSSL.

Tier 5

Members who joined on or after January 1, 2010 and prior to April 1, 2012 are covered by the provisions of Article 15 of the RSSL.

Tier 6

Members who joined on or after April 1, 2012 are covered by the provisions of Article 15 of the RSSL.

Service Retirements

Tier 1 and 2 members are generally eligible for a service retirement benefit of 2% per year of credit service times final average salary (FAS). A 5% reduction generally applies for each full year of state service under 20 years (prorated for partial years with a maximum reduction of 50%). Tier 1 and 2 members may retire as early as age 55 with five or more years of state service credit. Retirement may also occur for Tier 1 members at age 55 with less than five years of service if two years are credited since July 1, 1967, after the current membership date, and since the member turned age 53.

Generally, the maximum pension payable to Tier 1 and 2 members (with two years of credit under the Article 19 Benefit Enhancement law) is 79% of FAS. An age factor applies to Tier 2 members who retire before age 62 with less than 30 years of service. There is no age factor for Tier 1 members.

Tier 3 and 4 members are generally eligible for a service retirement benefit of 1.67% per year of credited service times FAS for less than 20 years of service, 2.0% per year for 20 to 30 years of service, and 60% of FAS plus 1.5% per year for service beyond 30 years. Tier 3 and 4 members may retire as early as age 55 with five years of state service credit. An age factor applies for Tier 3 and 4 members who retire before age 62 with less than 30 years of service.

WALLKILL CENTRAL SCHOOL DISTRICT
WALLKILL, NEW YORK
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 11. PENSION PLANS. (Continued)

TRS Benefits Provided (Continued)

Tier 5 members are generally eligible for a service retirement benefit of 1.67% per year of credited service times FAS for less than 25 years of service, 2% per year for 25 - 30 years of service, and 60% of FAS plus 1.5% per year for service beyond 30 years. Tier 5 members may retire as early as age 55 with 5 years of service credit. An age factor applies to Tier 5 members who retire before age 57 or retire between age 57 and 62 with less than 30 years of service.

Tier 6 members are generally eligible for a service retirement benefit of 1.67% per year of credited service times FAS for less than 20 years of service, 1.75% per year for 20 years of service, and 35% of FAS plus 2% per year for service beyond 20 years. Tier 6 members may retire as early as age 55 with 5 years of state service credit. An age factor applies for Tier 6 members who retire before age 63. In addition, vested Tier 6 members with an inactive membership must be at least 63 to retire.

Vested Benefits

Retirement benefits for Tiers 1-6 are vested after five years of credited service. Benefits are payable at age 55 or greater with the limitations noted for service retirement above.

Disability Retirement

Members are eligible for disability retirement benefits after 10 years of credited New York State service.

Death Benefits

Death benefits are paid to the beneficiary of active members who die in service and certain retirees. For active members, the benefit is based on final salary, age and the number of years of credited service. For retired members, it is also based on the number of years in retirement.

Prior and Military Service

After 2 years of membership, members of all tiers may claim and receive credit for prior New York State public or teaching service. Only Tiers 1 and 2 members may, under certain conditions, claim out of state service. Certain members may also claim military service credit prior to or interrupting membership.

WALLKILL CENTRAL SCHOOL DISTRICT
WALLKILL, NEW YORK
NOTES TO FINANCIAL STATEMENTS

NOTE 10. PENSION PLANS. (Continued)

Tier Reinstatement

In accordance with Chapter 640 of the Laws of 1998, any active member who had a prior membership may elect to be reinstated to their original date and Tier of membership.

Permanent Cost of Living Adjustment (COLA)

Section 532-a of the Education Law provides a permanent cost-of-living benefit to both current and future retired members. This benefit will be paid commencing September of each year to retired members who have attained age 62 and have been retired for 5 years or attained age 55 and have been retired for 10 years. Disability retirees must have been retired for 5 years, regardless of age, to be eligible. The annual COLA percentage is equal to 50% of the increase in the Consumer Price Index (CPI) not to exceed 3% nor be lower than 1%. It is applied to the first eighteen thousand dollars of the maximum annual benefit. The applicable percentage payable beginning September 2025 is 1.2%.

Members who retired prior to July 1, 1970 are eligible for a minimum benefit of seventeen thousand five hundred dollars for 35 years of credited full-time New York State service. Certain members who retire pursuant to the provisions of Article 14 of the RSSL are eligible for automatic cost-of-living supplementation based on the increase in the Consumer Price Index (CPI) with a maximum per annum increase of 3.0%.

Contributions

The Systems are noncontributory except for employees who joined after July 27, 1976, who contribute 3 percent of their salary for the first ten years of membership, and employees who joined on or after January 1, 2010 who generally contribute 3.0% to 6% of their salary for their entire length of service. In addition, employee contribution rates under ERS tier VI vary based on a sliding salary scale. For ERS, the Comptroller annually certifies the actuarially determined rates expressly used in computing the employers' contributions for the ERS' year ended March 31. For TRS, contribution rates are established annually by the New York State Teachers' Retirement Board pursuant to Article 11 of the Education Law. Contributions for the current year and two preceding years were equal to 100% of the contributions required, and were as follows:

<u>Year</u>	<u>NYSTRS</u>	<u>NYSERS</u>
2025-2026	\$ 3,054,373	\$ 960,439
2024-2025	3,130,424	822,519
2023-2024	2,933,065	704,589

ERS has provided additional disclosures through entities that elected to participate in Chapter 260, 57 and 105.

NOTE 11. PENSION PLANS. (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2026, the District reported the following asset/(liability) for its proportionate share of the net pension asset/(liability) for each of the Systems. The net pension asset/(liability) was measured as of March 31, 2026 for ERS and June 30, 2025 for TRS. The total pension asset/(liability) used to calculate the net pension asset/(liability) was determined by an actuarial valuation. District's proportion of the net pension asset/(liability) was based on a projection of the District's long-term share of contributions to the Systems relative to the projected contributions of all participating members, actuarially determined. This information was provided by the ERS and TRS Systems in reports provided to the District.

	ERS	TRS
Actuarial Valuation Date	<u>March 31, 2026</u>	<u>June 30, 2025</u>
Net Pension Asset/(Liability)	\$ (878,745)	\$ 9,323,347
District's Portion of the Plan's Total		
Net Pension Asset/(Liability)	0.0155758%	0.157461%

At March 31, 2026, the District's proportion of the NYSERS net pension asset/(liability) was 0.0155758%; there was a increase of 0.0001148% from its proportion measured as of March 31, 2025.

At June 30, 2025, the District's proportion of the NYSTRS net pension asset/(liability) was 0.157461%, which was an decrease of 000534% from its proportion measured as of June 30, 2024.

NOTE 11. PENSION PLANS. (Continued)

Actuarial Assumptions

The total ERS pension liability at March 31, 2026 was determined by using an actuarial valuation as of April 1, 2025, with update procedures used to roll forward the total pension liability to March 31, 2026. The total TRS pension liability at June 30, 2025 was determined by using an actuarial valuation as of June 30, 2024, with update procedures used to roll forward the total pension asset to June 30, 2026. These actuarial valuations used the following actuarial assumptions.

Significant actuarial assumptions used in the actuarial valuations referred to above were as follows:

	ERS	TRS										
Inflation Rate	2.9%	2.50%										
Projected Salary Increases	5.2%	Rates of increase differ based on service. They have been calculated based upon recent NYSTRS member experience and were updated as of June 30, 2025.

WALLKILL CENTRAL SCHOOL DISTRICT
WALLKILL, NEW YORK
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 11. PENSION PLANS. (Continued)
Actuarial Assumptions (Continued)

The long term expected rate of return on pension plan investments was determined in accordance with Actuarial Standard Practice (ASOP) No. 27, *Selection of Economic Assumptions for Measuring Pension Obligations* and generally accepted accounting principles. ASOP No. 27 provides guidance on the selection of an appropriate assumed investment rate of return. Consideration was given to expected future real rates of return (expected returns, net of pension plan investment expense and inflation) for each major asset class as well as historical investment data and plan performance.

The Long Term Expected Rates of Return are presented by asset allocation classification, which differs from the financial statement presentation. Best estimates of arithmetic real rates of return for each major asset class included in the System's target asset allocation as of the measurement date of June 30, 2025 for TRS and March 31, 2026 for ERS are summarized in the following table:

ERS			TRS		
Measurement Date	March 31, 2026		Measurement Date	June 30, 2025	
	Target Allocation	Long-term expected real rate of return		Target Allocation	Long-term expected real rate of return*
Asset Class:			Asset Class:		
Domestic Equity	25%	3.29%	Domestic Equities	33%	6.70%
International Equity	14%	5.85%	International Equities	15%	7.40%
Private Equity	15%	7.00%	Global Equities	4%	7.00%
Real Estate	12%	5.20%	Real Estate Equities	11%	6.50%
Opportunistic/ARC Portfolio	3%	5.13%	Private Equity	9%	9.80%
Credit	4%	5.10%	Domestic Fixed Income	16%	2.60%
Real Assets	4%	5.54%	Global Bonds	2%	2.40%
Fixed Income	22%	1.75%	Private Debt	2%	6.10%
Cash	1%	0.25%	Real Estate Debt	6%	3.80%
			High-yield Bonds	1%	4.70%
			Cash Equivalents	1%	0.60%
Total	100%			100%	

The real rate of return is net of the long-term inflation assumption of 2.5%.

* Real rates of return are net of pension plan investment expenses and long-term inflation expectations.

Discount Rate

The discount rate used to calculate the total pension liability was 5.9% for ERS and 6.95% for TRS. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially. Based upon the assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

WALLKILL CENTRAL SCHOOL DISTRICT
WALLKILL, NEW YORK
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 11. PENSION PLANS. (Continued)

Sensitivity of the Proportionate Share of the Net Pension Liability to the Discount Rate Assumption

The following presents the District's proportionate share of the ERS and TRS net pension liability calculated using the discount rates referred to above, as well as what the District's proportionate share of the net pension asset/(liability) would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate referred to above:

	1% Decrease 4.90%	Current Assumption 5.90%	1% Increase 6.90%
<u>ERS</u>			
Employer's Proportionate Share of the Net Pension Asset/(Liability)	\$ (6,001,585)	\$ (878,745)	\$ 3,404,177
	1% Decrease 5.95%	Current Assumption 6.95%	1% Increase 7.95%
<u>TRS</u>			
Employer's Proportionate Share of the Net Pension Asset/(Liability)	\$ (17,914,929)	\$ 9,323,347	\$ 32,242,939

Pension plan fiduciary net position

The components of the current-year net pension liability of the employers as of the measurement dates indicated below were as follows:

	<u>ERS</u>	<u>TRS</u>
Measurement Date	March 31, 2026	June 30, 2025
Employers' total pension asset/(liability)	\$ (253,773,040)	\$ (148,272,068,018)
Plan net position	(248,131,290)	(154,193,125,241)
Employer's net pension asset/(liability)	<u>\$ (5,641,750)</u>	<u>\$ 5,921,057,223</u>
Ratio of plan net position to the employers' total pension asset/(liability)	97.78%	104.0%

Payables to the Pension Plan

For ERS, employer contributions are paid annually based on the System's year which ends on March 31st. Accrued retirement contributions as of June 30, 2026 represent the projected employer contributions for the period of April 1, 2026 through June 30, 2026 based on paid ERS wages multiplied by the employer's contribution rate, by tier. Accrued retirement contributions as of June 30, 2026 amounted to \$290,978 of employer contributions. Employee contributions are remitted monthly.

WALLKILL CENTRAL SCHOOL DISTRICT
WALLKILL, NEW YORK
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 11. PENSION PLANS. (Continued)

Payables to the Pension Plan (Continued)

For TRS, employer and employee contributions for the year ended June 30, 2026 are paid to the System in September, October and November 2026 through state aid intercept. Accrued retirement contributions as of June 30, 2026 represent employee and employer contributions for the year ended June 30, 2024. Employer contributions are based on paid TRS wages multiplied by the employer's contribution rate, by tier. Accrued retirement contributions as of June 30, 2026 amounted to \$3,474,187.

NOTE 12. INTERFUND BALANCES AND ACTIVITY.

Interfund balances and activity for the year ended June 30, 2026, were as follows:

	Interfund		Interfund	
	Receivable	Payable	Revenues	Expenditures
General Fund	\$ 1,328,940	\$ 4,719,582	\$ 240,000	\$ 229,279
Special Aid Fund	54,279	1,080,573	229,279	0
School Lunch Fund	0	0	0	0
Capital Fund	3,968,597	430,161	0	0
Debt Service Fund	879,266	0	0	240,000
Total Governmental Activities	6,231,082	6,230,316	469,279	469,279
Fiduciary Agency Fund	298	\$ 1,064	0	0
Totals	<u>\$ 6,231,380</u>	<u>\$ 6,231,380</u>	<u>\$ 469,279</u>	<u>\$ 469,279</u>

Interfund receivables and payables, other than between governmental activities and fiduciary funds, are eliminated on the Statement of Net Position. The District typically loans resources between funds for the purpose of mitigating the effects of transient cash flow issues. All interfund payables are expected to be repaid within one year.

The District typically transfers from the General Fund to the Special Aid Fund to fund the portion of the Summer Handicapped Program not funded by aid from New York State.

WALLKILL, NEW YORK
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 13. OTHER POSTEMPLOYMENT BENEFITS.

Plan Description – The District’s defined benefit OPEB plan (“the District’s OPEB plan”), provides OPEB for eligible retired employees, their spouses and their dependent children. The District’s OPEB plan is a single-employer defined benefit OPEB plan administered by the District based on employment contracts. As these employment contracts are renegotiated, eligibility and benefits may change over time. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement 75.

Benefits Provided – The District’s OPEB plan subsidizes the cost of healthcare eligible retired employees, their spouses and their dependent children. Eligibility is based on the respective rules of the New York State and Local Employees Retirement System (ERS) and the New York State Teachers Retirement System (TRS), as well as the provisions of the District’s agreements with its employees. The following eligibility rules currently apply to the District’s employees:

- Teachers: 10 years of District service
- Support Staff: 10 years of District service
- Confidential Secretaries: 10 years of District service
- Administrators: 10 years of District service
- Assistant Superintendents & Superintendent: 10 years of District service

Medical and prescription drug benefits are offered to retirees on a District-subsidized basis. Upon attaining age 65, or upon disability retirement, Medicare (Parts A and B) becomes the primary provider for hospital insurance and supplementary medical insurance, with the District’s plan providing an additional layer of coverage. The District reimburses retirees’ and their spouses’ Medicare Part B premiums, but not those of surviving spouses.

The benefit terms are dependent on which group (contract) each employee falls under. Contribution rates for new retirees are as follows:

Group with Applicable DOH Cut-off	Provider Options *	District Contributions (% of premium)			Reimburse Part B Premium		
		Years of Service	Individual	Spouse **	Individual	Spouse	Surviving Spouse
Teachers	DEHIC	10+	95%	75%	Y	Y	N
Support Staff	NYSHIP	10 to 14	65%	50%	Y	Y	N
		15 to 19	85%	65%	Y	Y	N
		20+	95%	75%	Y	Y	N
Confidential Secretaries	NYSHIP	10+	95%	75%	Y	Y	N
Administrators hired on or prior to 07/01/1998	NYSHIP	10+	50%	35%	Y	Y	N
Administrators hired after 07/01/1998	DEHIC	10+	95%	75%	Y	Y	N
Assistant Superintendents & Superintendent	NYSHIP	10+	100%	100%	Y	Y	N

The same benefit options are available to active employees and retirees. All health plans are considered fully-insured and experience-rated for the purpose of this valuation. The monthly premium rates effective on July 1, 2024 used in the valuation are as shown below and were provided by the District.

Dutchess Educational Health Insurance Consortium (DEHIC) PPO and EPO are available to Administrators hired after 7/1/2008 and all Teachers.

Empire PPO through New York State Health Insurance Program (NYSHIP) is available to non-instructional employees and retirees.

CDPHP and MVP are available to all employees and retirees.

NOTE 13. OTHER POSTEMPLOYMENT BENEFITS. (Continued)

The discount rate has been updated based on the 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher as of June 30, 2026 (Bond Buyer 20-Bond GO Index). The impact of this update is a decrease in liability.

The demographic assumptions include the rates of mortality, withdrawal, retirement, and disability. They are based on the NYS ERS assumptions first effective on April 1, 2020 and NYS TRS assumptions first used on June 30, 2021 with the exception of mortality rates. The mortality rates are based on recent mortality tables published by SOA (Pub-2010) Headcount-Weighted table (Teachers for TRS group and General Employees for ERS group), projected fully generationally using MP-2021.

Changes in the Total OPEB Liability

WALLKILL CENTRAL SCHOOL DISTRICT
WALLKILL, NEW YORK
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 14. RETIREMENT INCENTIVES.

The Wallkill Central School District approved a local retirement incentive whereby certain teachers who were eligible to retire during the 2025-2026 year under the New York State Teacher's Retirement System, were offered a retirement incentive. Four teachers retired who were eligible for the incentive. These individuals will receive a non-elective employer contribution of \$23,000 each. This incentive is charged to expenditures in the governmental funds in the current year and totaled \$92,000 for the fiscal year.

NOTE 15. RISK MANAGEMENT.

General Information

The District is exposed to various risks of loss related to torts, theft, damage, injuries, errors and omissions, natural disasters, and other risks. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past two years.

Pool, Non-Risk Retained

The District participates in the Dutchess Educational Health Consortium, a non-risk retained public entity risk pool operated for the benefit of individual governmental units located within the County. The District pays an annual premium to the plan for this coverage. The plan is considered a self-sustaining risk pool that will provide coverage for its members. The District has transferred all related risk to the Pool.

Pool, Risk Sharing

The District participates in the Ulster County Workers' Compensation Fund, a risk-sharing pool, to insure Workers' Compensation claims. This is a public entity risk pool created under Article 5 of the Workers' Compensation Law, to finance liability and risks related to Workers' Compensation claims. The total undiscounted liability for the Plan as of December 31, 2024, was \$13,727,112. The plan had assets in excess of the liability of \$31,779,340.

NOTE 16. COMMITMENTS AND CONTINGENCIES.

The District has received grants, which are subject to audit by agencies of the state and federal governments. Such audits may result in disallowances and a request for a return of funds. Based on prior years' experience, the District's administration believes disallowances, if any, will be immaterial.

The District has several claims that are currently being litigated with the support of legal counsel. The results of these litigations are unknown at this time.

WALLKILL CENTRAL SCHOOL DISTRICT
WALLKILL, NEW YORK
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 17. ENCUMBRANCES.

Encumbrances represent contracts, purchase orders, payroll commitments, tax payables, or legal penalties that are chargeable to an account. They cease to be encumbrances when paid or when the actual liability amount is determined and recorded as an expenditure. As discussed in Note 1, encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At June 30, 2026 the amount of encumbrances expected to be honored upon performance by the vendor in the subsequent year were as follows:

General Fund	\$ 220,453
School Lunch Fund	256,337
Capital Projects Fund	<u>3,948,408</u>
Total Encumbrances	<u>\$ 4,425,198</u>

NOTE 18. DONOR-RESTRICTED ENDOWMENTS.

Endowment funds are restricted by the donor for the purpose of student scholarships and awards. Expenditures from donor-restricted endowments funds are made in compliance with the wishes expressed by the donor.

NOTE 19. TAX ABATEMENTS.

The Town of Newburgh entered into a property tax abatement agreement that reduce the District's gross tax revenues. The property tax abatement agreements are entered into with local businesses under the state municipal law for the purpose of attracting or retaining businesses within the town. For the year ended June 30, 2026, the District abated property taxes totaling \$82,715 under the property tax abatement agreement and received payments in lieu of tax (PILOT) payments totaling \$20,946.

NOTE 20. SUBSEQUENT EVENTS.

The District has evaluated subsequent events through October 13, 2026 the date that the financial statements were available to be issued. No significant subsequent events have been identified that would require adjustment of or disclosure in the accompanying financial statements.

WALKILL CENTRAL SCHOOL DISTRICT
WALKILL, NEW YORK
NOTES TO SCHEDULE OF REVENUES, EXPENDITURES AND
CHANGES IN FUND BALANCE - BUDGET AND ACTUAL - GENERAL FUND
FOR THE YEAR ENDED JUNE 30, 2026

NOTE 1. ACTUAL BUDGET RESULTS.

	<u>GENERAL FUND - OVER (UNDER)</u>
<u>BUDGETARY REVENUES</u>	
<u>Differences - Original Budget to Final Budget</u>	
APPROPRIATED FUND BALANCE	\$ (169,180)
The District was able to control expenses and did not need to expend some appropriated fund balance as originally budgeted.	
<u>Differences - Final Budget to Actual</u>	
LOCAL SOURCES:	
Real Property Taxes & Other Tax Items	\$ 105,190
Overall the District did well with this area but did have a difference due to circumstances out of its control.	
Charges for Services	\$ (32,758)
The District was conservative in what it budgeted in this area and saw a slight deficit.	
Use of Money & Property	\$ 876,657
The District was conservative in what it budgeted for its investments allowing for a surplus but will monitor this area in future budgets.	
Miscellaneous	\$ 317,027
The District received a large refund from BOCES than it budgeted for but this number can change yearly so the District budgeted conservatively.	
STATE SOURCES	\$ (183,384)
Overall the District did well but there were some revenue that was adjusted with the final budget due to some lower expenses in expense based aid.	
FEDERAL SOURCES	\$ (32,934)
The District is conservative in its budgeting but will monitor changes in federal sources in future years.	
OTHER SOURCES:	
Other Sources - Lease	\$ 98,363
The District did see some additional revenue in this area but this is unpredictable and was budgeted conservatively.	

See paragraph on supplementary schedules included in auditor's report.

WALKILL CENTRAL SCHOOL DISTRICT
WALKILL, NEW YORK
NOTES TO SCHEDULE OF REVENUES, EXPENDITURES AND
CHANGES IN FUND BALANCE - BUDGET AND ACTUAL - GENERAL FUND (CONTINUED)
FOR THE YEAR ENDED JUNE 30, 2026

NOTE 1. ACTUAL BUDGET RESULTS.

	<u>GENERAL FUND - OVER (UNDER)</u>
<u>BUDGETARY EXPENDITURES</u>	
<u>Differences - Original Budget to Final Budget</u>	
GENERAL SUPPORT:	
Staff	\$ 170,005
The District has some additional expenditures due to capital work in general support but expect a return to normalcy in future years	
Central Services	\$ (117,878)
The District did not have some expenses that it budgeted for in central services allowing for this area to be underspent.	
INSTRUCTIONAL:	
Programs for Children with Handicapping Conditions	\$ 144,939
The District did have additional expenses due to changes in handicap enrollment. There are general ebs and flows to this population.	
Occupational Education	\$ 108,822
The District monitors these expenses and did have some increases that will have to be analyzed for future years but the increase in Occupational Education will normalize as this increase was due to increased enrollment over the past 3 years.	
Pupil Services	\$ (134,445)
The District did have some staffing changes that allowed for this area to be underspent.	
DEBT SERVICE:	
Debt Service - Principal	\$ 113,958
The district works with its financial advisors to maintain level funding but this increase will assist in paying down future payments assisting the district. This is also a reflection of what was financed that was unknown at the time of the original budget development.	
Debt Service - Interest	\$ (96,857)
The District got a better interest rate at the time of borrowing allowing for a decrease in interest costs.	
<u>Differences - Final Budget to Actual</u>	
GENERAL SUPPORT:	
Central Services	\$ (218,622)
Overall the District did not have some expenses that were budgeted for and we will continue to analyze for future years.	
INSTRUCTIONAL:	
Programs for Children with Handicapping Conditions	\$ (631,986)
The District had some staffing changes and student needs that changed that allowed the District to control some of these costs but this can change yearly and will be monitored.	
Pupil Services	\$ (238,146)
The District budgeted for additional expenses but due to staffing did not have some of the expenses that were expected.	
PUPIL TRANSPORTATION	\$ (128,490)
Overall the District was able to control costs for transportation but did see an increase in fuel costs that will have to be monitored for future years.	
EMPLOYEE BENEFITS	\$ (1,839,562)
The District developed a budget with some estimates that were not finalized and allowed for budget areas to be underspent. The District monitors these areas yearly to avoid large spikes in its budget.	
DEBT SERVICE:	
Debt Service - Principal	\$ 530,001
The District financed capital projects and the funding was finalized after the budget was developed with an increase in the budget.	
Debt Service - Interest	\$ (915,699)
The District secured financing after the budget was developed but got a lower interest rate that allowed for some savings this budget cycle. The District will work with its financial advisors for future borrowing.	
OTHER USES:	
Operating Transfers Out	\$ 109,279
The District did have some additional expenses and will monitor these expenses each year to plan accordingly.	

See paragraph on supplementary schedules included in auditor's report.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER
MATTERS BASED ON AN AUDIT OF THE FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT
AUDITING STANDARDS

To the President and Members
of the Board of Education of the
Wallkill Central School District
Wallkill, New York

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the fiduciary fund of Wallkill Central School District, as of and for the year ended June 30, 2026, and the related notes to the financial statements, which collectively comprise the Wallkill Central School District's basic financial statements and have issued our report thereon dated October 13, 2026.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Wallkill Central School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Wallkill Central School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Wallkill Central School District's internal control.

A *deficiency in internal control* exists when the design or operation of control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we considered to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Wallkill Central School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Opinion

We have audited the accompanying financial statements of Wallkill Central School District's Extraclassroom Activity Fund, which comprise the statement of assets, liabilities, and fund balance-cash basis as of June 30, 2026 and the related statement of receipts and disbursements-cash basis for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets, liabilities, and fund balance – cash basis of Wallkill Central School District's Extraclassroom Activity Fund as of June 30, 2026, and its receipts and disbursements-cash basis for the year then ended, in accordance with the cash basis of accounting as described in Note 1.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Wallkill Central School District Extraclassroom Activity Fund and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to that matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the cash basis of accounting described in Note 1; this includes determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Wallkill Central School District's Extraclassroom Activity Funds' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Wallkill Central School District's Extraclassroom Activity Funds' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

WALLKILL CENTRAL SCHOOL DISTRICT
WALLKILL, NEW YORK
EXTRACLASSROOM ACTIVITY FUNDS
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2026

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES.

- (a) The transactions of the Extraclassroom Activity Funds are considered part of the reporting entity of the Wallkill Central School District. We have included the Extraclassroom Activity Fund balances within the Miscellaneous Special Revenue Fund of the financial statements. The separate audit report of the Extraclassroom Activity Funds is required due to the fact that the transactions of this fund are controlled by student management.
- (b) The books and records of the Wallkill Central School District's Extraclassroom Activity Funds are maintained on the cash basis of accounting. Under this basis of accounting, revenues are recognized when cash is received and expenditures recognized when cash is disbursed.
- (c) The Extraclassroom Activity Funds are used to record the activity of all student-related activities within the District. These funds are under the control of an appointed central treasurer who maintains cash receipts and cash disbursement books. All receipts are collected by the student activity treasurer and disbursements must be approved by the student management.
