

First High School Staff Tour of the New Bowling Green High School

October 1, 2026

On October 1, 2026, high school staff had the opportunity to tour the new Bowling Green High School and see the progress. They were excited to walk through the building, get a glimpse of the spaces taking shape, see their future classrooms, offices, and workspaces, and envision what's ahead. The tour was led by BGHS alumna Maggie Meszaros, a 2023 graduate who is studying architecture at Bowling Green State University and completing a co-op with Rudolph Libbe Group.
