GLOBAL PLAY DAY AT CENTER STREET

The Cubs participated in Global Play Day to highlight the importance and benefits of unstructured playtime.

3

SEARINGTOWN SCOTTIES CELEBRATE HERITAGE DAY

Second-grade students organized a celebration to honor their heritage and bring the community together.

3

MIDDLE SCHOOL MATHLETES SUCCEED

The Mathletes at Herricks Middle School achieved great success at the Long Island/Queens competition.

4

DISTRICT WIDE SOCIAL STUDIES COLLABORATION

Herricks High School students mentored elementary Gemini students, helping them with their social studies projects.

CENTER STREET GLOBAL PLAY DAY!

Center Street Elementary participated in Global Play Day yesterday! This special day highlights the importance of unstructured, regular play for children. Throughout the day, teachers dedicated time to give students the freedom to explore, collaborate, express their creativity, and simply have fun. From puzzles and board games to makerspace activities, the Cubs had a wonderful time during this meaningful experience!

DENTON AVENUE BEGINNER BAND

Congratulations to the 3rd Grade Denton Ducks on their excellent Beginner Concert performance! They took the stage to showcase all they have learned as first-year musicians. It was a wonderful display of their hard work and focus as they begin their musical journey, and we cannot wait to see how they continue to grow!

SEARINGTOWN HERITAGE DAY!

The second grade Searingtown Scotties celebrated Heritage Day! Leading up to the celebration, students explored their own cultures through meaningful projects, including All About Me books, heritage dolls, and country research presentations created using Book Creator. They shared their work with families and peers, performed songs celebrating unity and kindness, and concluded the celebration with a feast of traditional dishes from around the world. Thank you to the incredible second grade team for creating a meaningful experience that brought our community together and celebrated our students' cultures.

HERRICKS MIDDLE MATHLETES SUCCEED AT COMPETITION

Congratulations to the 14 Herricks Middle School Mathletes who competed in the Long Island/Queens Competition! Special congratulations to Alan Ji, Brian Chan, Gavin Jiang, and Isabella Kim, whose four-person team placed third and will advance to the State Competition in March. In addition, Alan Ji earned three medals at the competition, an impressive accomplishment. They have been preparing for MathCounts since sixth grade, dedicating their lunch periods and free time to practice—and their hard work has truly paid off. We are so proud of their incredible achievements!

DISTRICT WIDE SOCIAL STUDIES COLLABORATION

Fifth-grade Gemini students from Searingtown, Center Street, and Denton visited Herricks High School for a meaningful collaboration! Our elementary students had the opportunity to share their research presentations with high school mentors in the Social Studies Research class and received thoughtful feedback. This was such a special way for our students to celebrate the incredible work they accomplished during this unit while connecting with new friends from across the district. Thank you to everyone who helped bring together this wonderful community of learners!
