OLENTANGY SCHOOLS℠

EXECUTIVE SUMMARY

- Ohio is facing rising energy costs and growing environmental strain due to increases in data center development.
- Utility costs, including electricity, are one of the highest costs for the Olentangy School District.
- Board Policy 7410 seeks to address this issue by proposing to make energy efficiency the standard whenever district equipment is replaced or upgraded.
- Purchases will be considered on total lifetime cost, not purchase price alone, maximizing value over the life of the investment.
- State financing and grant programs can help offset upfront costs and ease district burdens.

CONTEXT

Since 2011, Ohio tax credits have heavily incentivized data center construction. While data centers have fostered economic growth, we are now facing consequences in the form of high energy premiums and growing environmental strain.

PROJECT SCOPE

OBAB proposes to install two softball infields as a booster project in collaboration with the Olentangy Baseball Club (OBC).

2

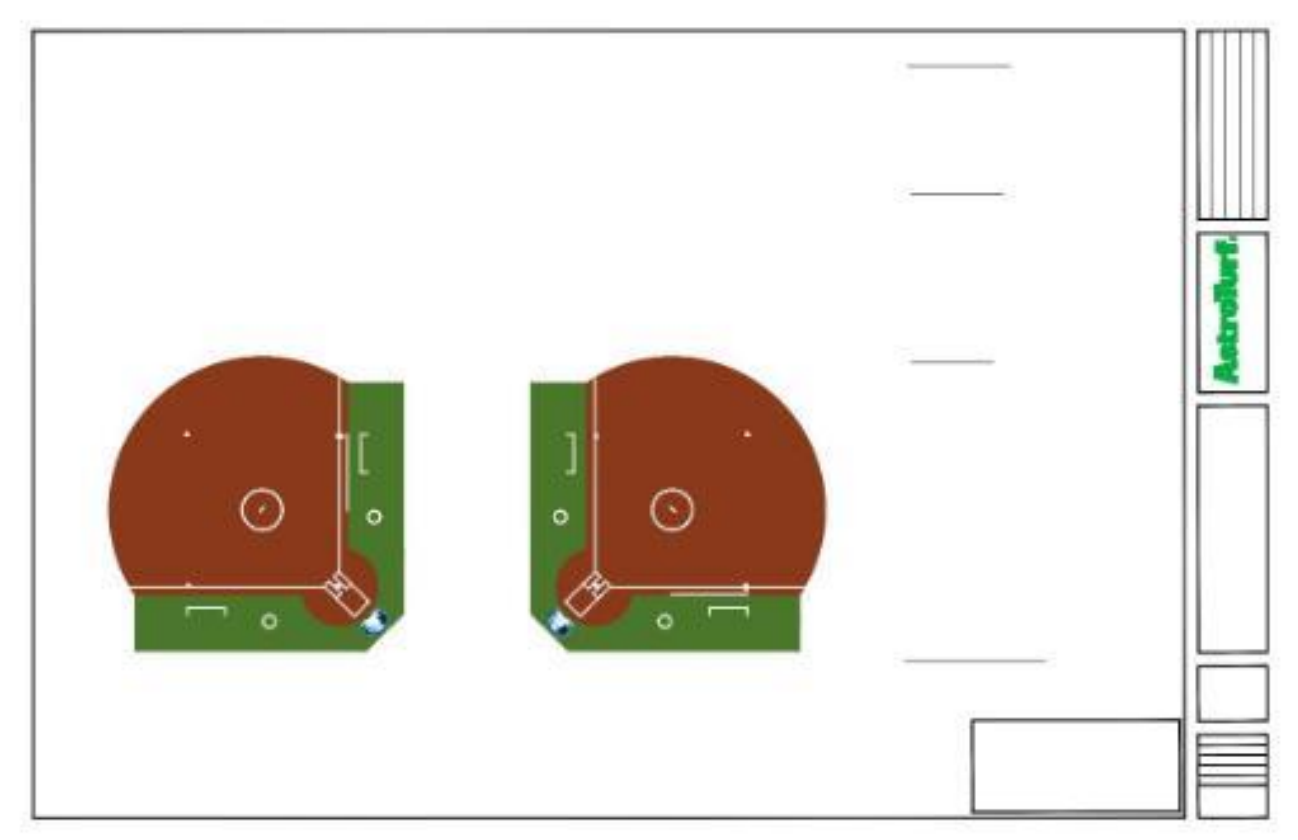

softball infields

Varsity and JV
Olentangy Berlin High School

Intended benefits

More reliable field access for school softball.
Additional opportunities for youth programs and rentals.
Less routine infield preparation.

SCOPE AND PROPOSED FIELD LAYOUT

Infields and foul areas

- Green foul areas and red-clay-colored turf
- Removable batter, catcher and pitcher inserts
- Drainage, aggregate base and an eight-year standard warranty in the quote

Scope reconciliation required

Quote: 22,200 SF. Shop drawings: 23,548 SF. Confirm the 1,348 SF difference and final turf system.

PROPOSED FUNDING TOTALS $400,000

$50,000	OBC initial contribution
$250,000	Interest-free Booster financing
$100,000	Proposed bank financing

Proposed OBC repayment of bank debt service and OBAB loan over five years.

OBC access supports a shared softball facility through a Memorandum of Understanding (MOU) with OBAB

School programming comes first

- Approved District and School events take precedence year-round; the Superintendent or designee resolves event classification.
- All events to be entered into the district scheduling program - FMX.
- The District retains final FMX rental approval.

OBC's investment and responsibilities

- OBC receives field access in recognition of its financial contribution and serves as Priority Scheduling Partner for non-school uses.
- OBAB and OBC retains rental revenue for the first five years to pay down the turf debt and to recoup their investment. OBC will provide quarterly rental reports, and handle cleanup after its rental events.

Coordinated use and player development

- Seasonal schedules are shared by August 1, November 1, February 1, and May 1.
- Coordinated clinics and tournaments support young-player development and Berlin Softball's program.
- Boosters retain three tournament concession opportunities for summer tournaments.

BASE QUOTE TOTALS $385,600

Base construction scope	Quoted cost
Varsity softball infield	$192,800
JV softball infield	$192,800
Combined base scope	$385,600

Not an all-in budget

The $400,000 funding plan leaves $14,400 above the base quote for excluded costs and contingency. Optional items are outside the current approval scope.

ITEMS TO CLOSE BEFORE CONSTRUCTION

01 **Final price and budget**

Vendor and OBAB: refresh the base-scope quote and fund exclusions and contingency. Optional items remain informational only.

02 **Approved technical scope**

District and vendor: approve turf-system differences, drainage, inserts and plate responsibilities.

03 **Executed funding, control and liability terms**

OBAB and OBC work with counsel: settle approvals, five-year access, revenue rights, debt exposure and insurance as required by the agreement between the boosters and the district.

04 **Construction and acceptance plan**

OBAB, district and vendor: agree on start dates, field closures, testing, warranty and acceptance criteria.

OBAB SEEKS PROJECT APPROVAL WITH DISTRICT OVERSIGHT AND WRITTEN SAFEGUARDS.

- Approve the project under district project oversight
- Authorize agreements after confirming scope, price, funding and five-year access and revenue terms
- OBAB's obligations if the agreement should be terminated as outlined in the MOU

The proposed funding plan totals $400,000. Final all-in cost and lender approval remain to be finalized before a notice to proceed will be issued by OBAB.
