

ORCHARD PARK
CENTRAL SCHOOL DISTRICT

CYBERSECURITY MONTH 2026

Secure Your Data and Devices

Protecting information starts with a few simple habits

Keep Data in the Right Place

Store work information only in approved organizational systems and locations.

Lock and Protect Your Devices

Lock your computer when you step away and keep devices physically secure.

Share Carefully

Before sharing a file or information, make sure you are sending it to the right person and giving access only to those who need it.

Keep Your Devices Updated

Install security updates and restart your device when prompted.

**Know where your data is, know who you're
sharing it with, and keep it protected**
