

NATIONAL SCHOOL BUS SAFETY WEEK

Stop for the Bus. Protect Our Students

As we kick off National School Bus Safety Week, Pittsburgh Public Schools reminds all motorists of the importance of stopping for school buses when their red lights are flashing and stop arms are extended.

Through our partnership with **BusPatrol**, school buses are equipped with stop-arm safety technology designed to identify vehicles that illegally pass stopped school buses.

Every time a driver ignores a school bus stop arm, a child's safety is put at risk.

Safety Reminder:

- Never pass a school bus with its red lights flashing and stop arm extended.
- Remind children to wait for the driver's signal before crossing the street.
- Teach children to look both ways and remain alert when crossing.
- Drivers should always slow down and watch for children near school bus stops.

One stop can save a life. Together, we can protect every student, every day.
