Colleges attended in high school

In this section, you must enter ALL colleges where you earned college credit while in high school. This includes college level courses taken:

- At a college campus
- Online
- At your high school campus (including Dual Enrollment)

You must enter all colleges you've attended — regardless of the grades received, how long you attended, whether courses were completed, or whether the course appears on your high school transcript. Failure to report all coursework may jeopardize your UC admission or enrollment.

Non-credit programs that do not appear on an official college transcript should be reported in the Activities & awards section of the application under Other coursework category.
