October AIG Newsletter

3rd Grade

Reading: Our AIG students are working on creating a presentation for their Animal Research Project, which includes animal classifications.

Math: After break, our 3rd-grade groups will participate in the October Math Jam. We will then work on Breakout Edu with addition and subtraction concepts.

4th Grade

Reading: We will be moving on to our next unit by enhancing the Middle Ages unit. The students will design a seige tower and test it's abilities during this time frame. They will also write from the point of view of a knight during this time.

Math: After break, our 4th -grade groups will participate in the October Math Jam. We will then work on Breakout Edu with multiplication and division concepts.

5th Grade

Reading: Students will be reading The Crossover. This novel incorporates poetry, which will lead to a poetry project we will complete when we finish reading.

Math: Students will use critical thinking skills and their knowledge of fractions to solve logic puzzles.

6th Grade

Reading: Students will select a project to complete from a choice board for their Living with Technology unit. Possible projects include showing how technology has changed over time, researching the impacts of technology, comparing technology from the past to today's technology, and comparing how different cultures use technology.

Math: Students will use critical thinking skills and their knowledge of fractions to break out of assigned BreakoutEDU games.
