6th Grade Reading AIG

Fractured Fairy Tale

6th grade students used our 5 steps for the writing process (prewriting, drafting, editing, revising, and publishing) to write fractured fairytales. A fractured fairytale is a spin off of a traditional fairytale by either changing story elements or mashing up two stories. At the end of this project, our 6th grade students visited our 2nd grade classes to teach them about fractured fairytales and share their stories.
