Enterprise Mobility Awards \$100,000 to the Jennings School District

[ST. LOUIS, MO – May 15, 2026] The Jennings School District’s [Friends of Jennings Foundation](#) was just awarded a \$100,000 grant from [Enterprise Mobility Foundation™](#), which, administrators say, will help fund the number of district priorities over time.

Enterprise Mobility has held a long-standing partnership with the Friends of Jennings Foundation, providing support to students and key operational areas since 2017. “We are pleased to award this grant to the Friends of Jennings as part of our efforts to positively support and strengthen the communities where we live and work,” said **Theresa Beldner, vice president of Foundation Operations for Enterprise Mobility**. “This is just one example of our work to foster a culture of giving that helps us respond to natural disasters, steward the environment, and tackle challenges in employee giving.”

Jennings Superintendent Dr. Paula D. Knight says that as educational needs increase and funding becomes less certain, these funds will go a long way toward new programs. “We are extremely grateful for the possibilities of this generous contribution that will help support academic and enrichment opportunities and the overall health and wellness needs for our students.”

She explained, “Jennings is fortunate to have the trust and support of our partners at Enterprise Mobility. From Early Childhood Education to Jobs for America’s Graduates (JAG) and Marching Band, we provide unique opportunities for high school and support new graduates. We are a progressive school district, and in the past few years, we have been able to sustain growth. This gift significantly expands the support and opens the door to possibilities that aren’t always available to our students.”
