GPCC PTA Comes Together at Cunningham Middle School Campus

Today, Cunningham Middle School welcomed members of the GPCC PTA for its 10 a.m. meeting, bringing together parents and school community representatives in support of students and schools across Galena Park ISD (GPISD).

Meetings like these provide valuable opportunities to strengthen connections between families, campuses, and the district. By coming together, PTA representatives can share ideas, build relationships, and continue fostering partnerships that help students thrive.

GPISD appreciates Cunningham Middle School for hosting today's gathering and creating a welcoming space for collaboration. We are also grateful to the parents and volunteers who give their time and talents to support our schools and students.

Strong schools are built through strong partnerships. The continued involvement of our PTA community is another example of the Big Connections that make Galena Park ISD a Great Place to Be!
