RBBEA Comments
Ms. Brandy Abel, Today was the public hearing to start our bargaining. We have the same team as last year. We spent a lot of time this summer reading through the contract thoroughly and discussing the language so that we could go back to Kristi Billings, our director, to get better understanding of language and discuss possible changes we want to make in the contract. We will be bringing that to the table next week. My goal is to always continue improving communication and transparency and so I asked building reps to hold two meeting, one being before today, I held mine this morning just to inform members about the bargaining process, the timeline, what we can and cannot bargain. We did send out a survey at the beginning of the school year just to have members give actually the entire bargaining unit a chance to voice their priorities of what they were hoping to see achieved on this next contract. We could have our building reps report that back to our members today. I have also asked building members to hold a meeting between the 22nd and the 28th. Those are our two formal dates that we have scheduled just to let member know the progress of that first meeting so that they can see what was discussed.

Board Members' Comments
Mr. Durnil, I really enjoyed the presentations tonight. I really enjoyed the Wednesday morning presentation. It makes me feel good about what you are doing there. I appreciate all the principals here tonight. Congrats to Edgewood for the win Friday night against Owen Valley. Mr. DeMoss, I enjoy rivalry week last week and looking forward to homecoming this week. I got to spend last Wednesday morning at EPS. I thank Dr. Fishman for having me. I go to observe the PLCs and also go to welcome children getting out of their cars out front of the building. That was an experience for a high school teacher. Thanks for the donation. The ELL, as frustrating as it is, we have some so far in the last 25 years. I know at one point we had a student that could not speak any English, was Chinese, and we didn't know what to do. So, we have made tiny steps, but we have made steps. Thank you to Mr. Rentschler for his presentation. I am looking forward to the Showcase. Mr. Tucker, Thank you for the report about NCAP, Mrs. Barrett. Hopefully that will help relieve my concerns about that messy closet of what that biomedical center looks like and like Mrs. Straw said, get it organized. It makes me feel better as long as it's not an unfunded mandate by the state. Thank you to who ever came up with the solution not sure if it was the SROs or the tow truck Friday night a block it off the road to the baseball diamond. It was a great idea. It

was a great crowd at the game Friday night and a great win. Hopefully we will continue to stay on top of that contractor on that gym floor. Looking forward to next week. Mr. Kerr, thank you all for coming tonight. We are doing a lot of great things. 25 years ago, someone asked me what Edgewood was doing for the student who were not going to go to college. I wish he could see us now! It's amazing! I am really appreciative of all the hard work of all of you, all of our teachers, and all of our staff. I couldn't be more excited about where we are at right now. Thank you all for coming.

Adjourned 7:58

Mr. Dana Robert Kerr, President

Mrs. Angie Jacobs, Member

Mr. Jimmie Durrill, Vice President

Mr. Brad Tucker, Member
