Longfellow Modernization Progress Update

Construction Progress Update

Report Date: 10/23/2026 **Prepared By:** Martin Martinez

Reporting Period From: 10/19/2026 **To:** 10/23/2026

1 Summary of Work Completed

- Work resumed this week on building A. Metal framing has begun and is ongoing throughout both floors of A building. Mechanical layout started and is ongoing where possible. In the wall's that were finished dry wall is starting to be installed and electrical infrastructure is being installed if needed.
- At the north part of the campus excavation began for the footing for the new retaining wall. Depth was reached and rebar installation is ongoing.
- The restrooms in the basement of building A received new walls where needed and new plumbing as well.
- The old serving line in the basement was also demoed.
