Ringgold Elementary School South

Weekly Update

10-26-26

Mr. Berry-Principal

Principal's Message:

As we eagerly look forward to our Fall Activity Day on Friday, we want to take a moment to highlight initatives that promote both academics as well as positive behaviors. Our kindergarten and first grade slides this week focus on both our "Kid Writing" and "Accelerated Reader" learning initiatives. Starting at the kindergarten level for writing, and the first-grade level for "Accelerated Reader", the purpose of both programs are to increase student engagement, stamina, and effectiveness in both reading and writing through everyday practice.

At our fourth-grade level, our students are serving as "RAM Ambassadors", demonstrating mentorship and service through various roles, including as a class helper for our Itinerant teachers. These individuals continue to exemplify the RAMS (Respectful, Accountable, Mindful, Safe) characteristics that are at the heart of our school's behavioral expectations.

This Friday, we anticipate a fun day of celebration during our Fall Activity Day. Please remember that any interested person wanting to volunteer needs to contact our PTA, and we ask that costumes don't include masks, any fake weapons, or anything that is overly gorey. As always, we appreciate your continued support and collaboration.

Sincerely,

R-E-S-S Administration and Staff

Kindergarten

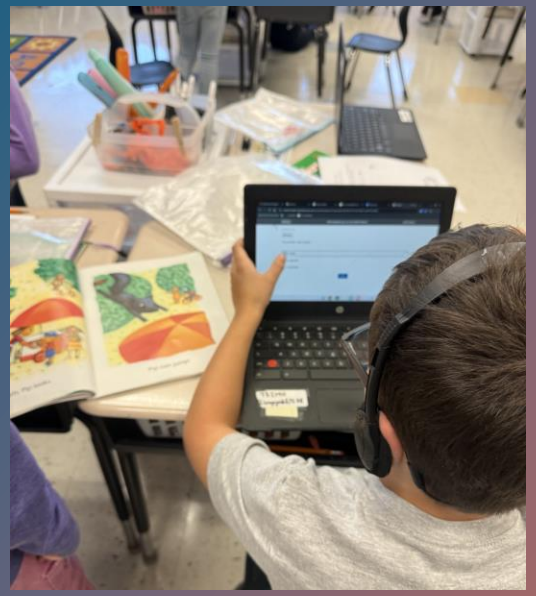

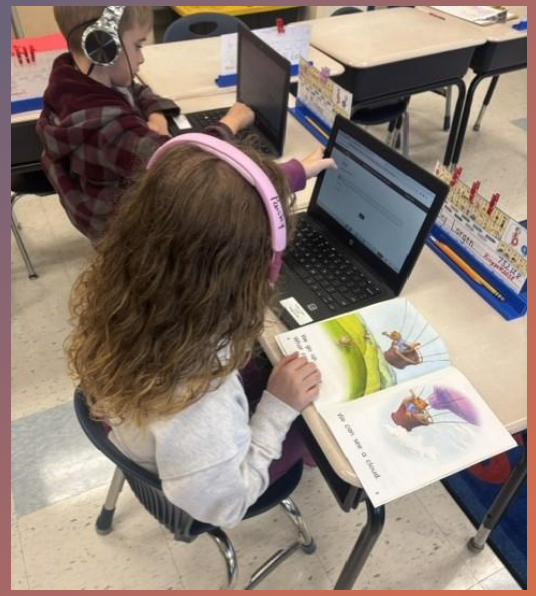

Kindergarten has been working hard at Kid Writing! We have been using sight words and letters and sounds we have learned so far to write words to make sentences. We are making great progress!

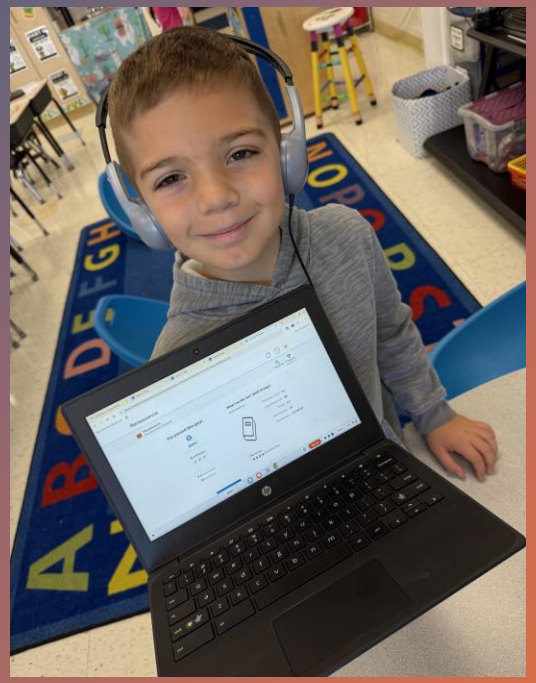

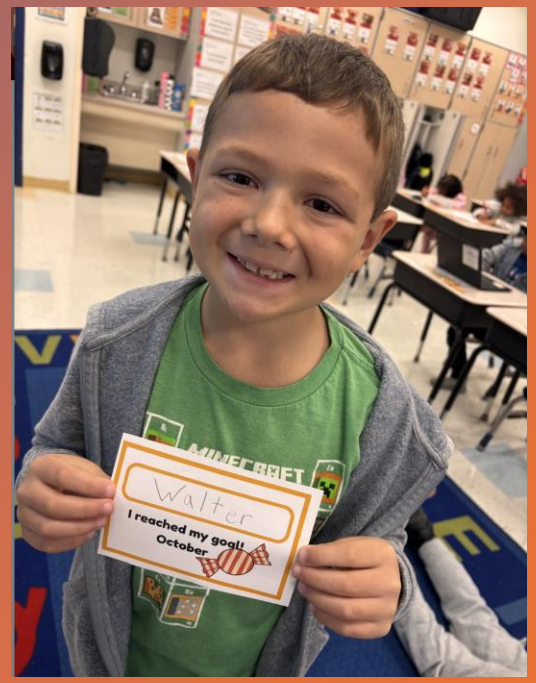

First Grade

First Grade is doing a fantastic job with the Accelerated Reader (AR) program! We are so proud of the effort and excitement students are showing as they read books, take quizzes, and work toward their goals.

Second Grade

Second grade is reading an expository text about baby bears. As we dive deeper into the text, we are learning how offspring are like their parents. We love to be informed by our authors! We also had our kids start decorating the pumpkins. We can't wait to see them when they're finished.

Third Grade

Our 3rd graders practiced place value and measurement by weighing a variety of classroom objects using digital and platform scales. Students measured mass in both grams and kilograms while building their understanding of metric units and comparing measurements!

Fourth Grade

Our responsible 4th-grade RAM Ambassadors are making a big difference! They've generously given up some of their recess to support our itinerant teachers and lend a helping hand in kindergarten and first-grade classrooms. We're proud of their kindness, leadership, and willingness to serve our school community!

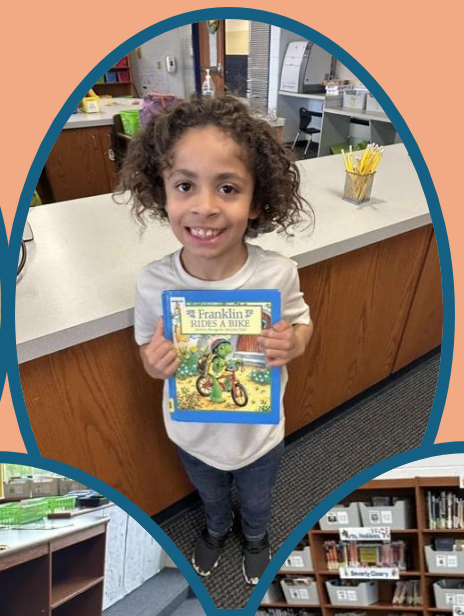

Itinerant Teachers

3rd grade is working on sight words in Library!

2nd, 3rd, and 4th grade are exploring different materials to build with in STEM!

PTA Updates and Information

We are asking for support for an amazing member of our R-E-S-S staff and community!
