SCHOOL COUNSELOR RESIDENCY PROGRAM

Mentor Counselor Opportunity

The North Inland Special Education Region (NISER) and Point Loma Nazarene University (PLNU) are partnering with your school district to prepare the next generation of school counselors—and it starts with you.

As a Mentor Counselor, you will guide a School Counselor Resident through a full year of hands-on, experiential learning. Residents work alongside you each school day while completing credential coursework. Over the course of the year, they gradually step into full counseling responsibilities—applying their coursework to real practice with your support and expertise.
