Policy Title Financial Management Programs for Native American Children	Date Adopted Xx/xx/2021
	Policy # 7240B

Programs for Native American Children

A policy and procedure of this nature is necessary in order to be eligible to receive Title VIII funds to provide programs for eligible Native American students.

When submitting the Impact Aid application for federal assistance, the District must provide assurance that it has established the required policies and procedures. In addition to submitting the policies and procedures, the District must ensure that:

1. Tribes and parents were informed, consulted, and involved;
2. A statement indicating that the District has on file a list of names and addresses of parents that participated in hearings or other such meetings is also provided;
3. Dates when proposed policies were considered by the Board (first reading, second reading, etc.) are also provided;
4. That policies and procedures reflect the views of parents of Native American children;
5. That policies and procedures have been disseminated to the tribal members and parents; and
6. Adequate records are maintained demonstrating compliance with the federal requirements.

While the amendments provide for the involvement of parents of Native American children, such recommendations are advisory only. The Board has the final authority on policy decisions of the District.
