Student School Board Representatives

Student school board representatives serve as non-voting members who are advisors to, and meet and work with, the school board and administration in the formation and evaluation of policy and regulations and in the general business in the operation of our school system. Student representatives attend ad participate at all open meetings of the school board, including work sessions. Student school board representatives provide an important communication link with the student body, and by participation, obtain practical governmental experience.

Every fall, this position is open to Sauk Centre High School juniors who have been residents of the Sauk Centre School District for at least one year prior to the date of selection. Representatives of the school board and administration will review the applications, conduct interviews, and select the student representative by October.
