

FLU VACCINE CLINICS

Appointments are preferred and Walk-Ins welcomed during Sauk Centre Flu Clinics dates.

For dates of flu clinics, please scan the QR code or call 320-200-3200 or schedule online at CentraCare.com.

The flu vaccine is recommended for **everyone over the age of 6 months**.

It takes about two weeks to develop immunity, and we know that the most common time for flu season is end of October through spring — now is the best time to get your vaccine!
