October 27th, 2026- Addendum #5 to Appling Custodial RFP (ACBOE-CUST-2026-1)
Due to several factors, including the number, quality, and variety of qualified proposals received, the Appling County School System has determined that there will be a delay in awarding the bid past the original 11/2/2026 anticipated date because additional time is needed to complete its review and evaluation process.

Accordingly, the anticipated decision regarding the award of the custodial services contract will be delayed until sometime in the month of February 2027. Additional updates regarding the exact award dates and timelines will be communicated directly to all qualified bidders by email in January 2027. This addendum serves as official notice of the revised anticipated award timeline for custodial services contract. All other terms, conditions, and requirements of the original Request for Proposal remain unchanged.

The Appling County School System appreciates the time, effort, and interest demonstrated by all firms submitting proposals. For questions or additional information, please contact:
