YUBA COUNTY EDUCATIONAL FOUNDATION

STUDENT ASSISTANCE PROGRAM

Program Information & Request Instructions

About the Program

The Yuba County Educational Foundation Student Assistance Program helps remove barriers that can interfere with a student's ability to learn, attend, participate, belong, and succeed in school. Assistance is intended to address needs that cannot be fully met through existing school, agency, family, or community resources.

Who May Be Considered

The program primarily serves students enrolled in TK-12 schools serving Yuba County, including charter schools. Students participating in Adult Education or certification programs may also be considered on a case-by-case basis through age 22.

Who May Submit a Request

Requests must be submitted by an approved school or agency representative who is familiar with the student's needs. Parents, guardians, and students do not submit requests directly to the Foundation.

The requesting representative is responsible for describing the need, verifying that assistance is warranted, and identifying other resources or steps already explored.

What We May Help With

Assistance Category	Examples
Essential Health & Safety Needs	Bed/bedding, essential clothing, and immediate safety-related needs
Medical & Accessibility Needs	Prescription glasses, hearing-related needs, and essential dental or accessibility support
Educational Access & Supplies	Backpacks, school supplies, and technology or materials needed for educational access
Career & Graduation Readiness	Interview/work clothing, tools, certification-related costs, and graduation needs
Participation & Enrichment	Uniforms, athletic shoes, instruments, and school club or activity costs

Please note: These examples are not exhaustive. Each request is considered individually based on the student's circumstances, educational impact, urgency, financial need, available resources, and anticipated benefit.

Before Submitting a Request

- Confirm that the request falls within the purpose of the Student Assistance Program.
- Discuss or verify the student's need based on your knowledge of the student and the assistance/resources already available to them.
- Explore other reasonable school, agency, community, or assistance resources when practical. Please review the attached resource list.
- Gather the information needed to explain what is being requested, why it is needed, the estimated cost, and any time-sensitive circumstances.

How Requests Are Reviewed

The Foundation reviews requests with consideration for educational impact, urgency, availability of other resources, financial need, long-term benefit, and the student's individual circumstances. The Foundation may contact the requesting representative if additional information is needed.

Submitting a request does not guarantee funding. Assistance is subject to program eligibility, Foundation review and approval, and available funds.

Confidentiality

Please provide only the information necessary for the Foundation to understand and evaluate the request. Avoid including detailed medical, financial, or other sensitive records unless specifically requested. Information received will be handled as confidentially as reasonably possible and shared only as needed for program administration and review.

Ready to Submit?

Complete the attached Student Assistance Request Form and submit to yubacountyeducation@gmail.com
